The unaudited interim financial statements have been prepared in accordance with MFRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The unaudited interim financial statements should be read in conjunction with the audited annual financial statements of the Group for the financial year ended 31 December 2016, which were prepared in compliance with Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2016.

The unaudited interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, and financial assets and financial liabilities (including derivative instruments, if any) at fair value through profit and loss.

The adoption of the following applicable amendments and improvements to MFRS that came into effect on 1 January 2017 did not have any significant impact on the Group upon the initial application.

A2. AUDITORS' REPORT ON PRECEDING ANNUAL FINANCIAL STATEMENTS

The auditors' report on the audited annual financial statements for the financial year ended 31 December 2016 was not qualified.

A3. SEASONALITY OR CYCLICALITY FACTORS

The operations of our major business segments are generally affected by the major festive seasons.

A4. UNUSUAL ITEMS AFFECTING ASSETS, LIABILITIES, EQUITY, NET INCOME OR CASH FLOWS

On 1 August 2017, the Group's associate, Malaysian Newsprint Industries Sdn Bhd ("MNI"), volunteered to wind up by way of Creditors' Voluntary Winding Up. The decision to wind up was made as MNI had been operating under very difficult market conditions, especially declining newsprint demand, and has incurred losses for the past 3 years. Consequently, the carrying amount of the investment in an associate of RM142.4 million was fully impaired in the second quarter and financial period ended 30 June 2017.

During this reported quarter, Early Retirement Scheme ("ERS") amounting to RM52.3 million was paid to the ERS participants pursuant to the Group-wide Manpower Rationalisation Plan.

Other than the above, there were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group in the third quarter and financial period ended 30 September 2017.

A5. MATERIAL CHANGES IN ESTIMATES

There were no material changes in estimates of amounts reported in prior financial years that have a material effect in the third quarter and financial period ended 30 September 2017.

NOTES TO THE INTERIM FINANCIAL REPORT

Revenue	889,483	970,374
(Loss)/Profit Before Tax (before exceptional item)	(82,075)	43,499

Normalised (Loss)/Profit After Tax	(90,241)	32,920

Revenue for the financial period ended 30 September 2017 declined by 8% against the previous financial period attributed to lower advertising and newspaper sales as the shift to digital media significantly affected the Group's traditional media business. While the Group has ventured into new digital and consumer-based business initiatives to complement its traditional media segments, these initiatives are still undergoing a gestation period. The Group recorded YTD 3QFY17 LAT of RM284.9 million against LAT of RM71.6 million in the corresponding period mainly attributed to the impairment of investment in an associate and ERS payment in August 2017. If the one-off impairment of investment in an associate and ERS payment were excluded, the Group posted a lower LAT of RM90.2 million.

The performance of respective platforms for the financial period ended 30 September 2017 as compared to the comparative financial period is as follows:

- a) Television Networks – Revenue declined by 18% compared to corresponding period as weak adex continues to affect the Free-to-Air (“FTA”) Television segment. The decline in revenue led to Television Networks posting a loss of RM55.2 million against RM21.0 million PAT in the corresponding period.
- b) Print Media – Performance remains challenging as revenue declined by 19% against YTD 3QFY17 attributed by lower newspaper advertising and circulation revenue despite the encouraging performance of its digital properties.
- c) Outdoor Media – Increase in revenue by 5% against the corresponding period supported by higher display and production revenue. However, PAT declined by 73% mainly due to the start-up cost incurred for its MRT segment and authority fees incurred during this financial year.
- d) Radio Networks – YTD 3QFY17 revenue declined by 5% against the corresponding period attributed to lower adex in the period. This led to current period PAT to close lower by 30% against the corresponding period.
- e) Digital Media – Higher revenue by 41% against the corresponding period was due to higher digital services revenue contributed by Rev Asia.
- f) Content Creation – Revenue increased by 2% attributed to higher production revenue from Television Networks.
