## (a) Basis of Preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2009. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2009.

#### (b) Significant Accounting Policies

At the date of authorisation of these financial statements, the following New FRSs, Revised FRSs, Amendments to FRSs and the Interpretations were issued but not yet effective and have not been applied by the Group:

FRS 4 Insurance Contracts and TR i-3 Presentation of Financial Statements of Islamic Financial Institutions will also be effective for annual periods beginning on or after 1 January 2010. These FRS are, however, not applicable to the Group.

The adoption of FRS139 gives rise to significant changes in accounting policies of the Group and the Company. The principal changes and effects are appended below.

(I) Changes in Accounting Policies and Effects of Adoption of FRS139: Financial Instruments, Recognition and Measurement

FRS 139 sets out the new requirements for the recognition and measurement of the Group's financial instruments as well as the requirement for the application of hedge accounting.

Financial instruments are recorded initially at fair value. Subsequent measurement of these instruments at the balance sheet date reflects the designation of the financial instrument. The Group and the Company determine the classification at initial recognition and evaluate this designation and classification of the financial instruments at each year end except for financial instruments measured at fair value through profit or loss.

#### Financial Assets

#### a. Loan and Receivables

Prior to 1 January 2010, loan and receivables were carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on a review of all outstanding amount as of balance sheet date. Under FRS139, loan and receivables are initially measured at fair value and subsequently at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated comprehensive income statement when the loans and receivables are derecognised, impaired or through the amortisation process.

#### b. Available-for-sale

Prior to 1 January 2010, financial assets available-for-sale were accounted for at cost less impairment losses. Under FRS139, available-for-sale financial assets are measured at fair value initially and subsequently with unrealised gains or losses recognised directly in equity. In the event that fair value cannot be measured reliably, it shall be measured at cost.

#### c. Held-to-Maturity

Prior to 1 January 2010, held-to-maturity financial assets such as non-derivative financial assets with fixed or determinable payments and fixed maturities were accounted for at cost less impairment losses. Under FRS139, held-to-maturity financial assets are initially measured at fair value and subsequently at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated comprehensive income statements when the investments are derecognised, impaired or through the amortisation process.

#### d. Financial Assets at Fair Value through Profit or Loss (FAFVPL)

FAFVPL financial assets are initially recognised at fair value, subsequent changes in fair value are recognised as gains or losses in income statements. The class would include (1) Financial assets and financial liabilities held for trading (mandatory classification) and (2) financial assets that, on initial recognition and subject to certain conditions, the entity designates to be at fair value through profit and loss (optional classification). Once an instrument is designated at FAFVPL, any subsequent reclassification into and out of this category is not allowed until it satisfies the derecognition test.

#### Financial Liabilities

#### a. Borrowings

Prior to 1 January 2010, borrowings were stated at the proceeds received less directly attributable transaction costs. Under FRS139, borrowings are initially recognised at the fair value of the consideration received plus direct attributable transaction cost and subsequently at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated comprehensive income statement when liabilities are derecognised or through the amortisation process.

#### b. Derivative Financial Instruments

Prior to 1 January 2010, derivatives were off-balance-sheet instruments and were not recognised in the financial statements. Under FRS139, derivatives are required to be initially recognised at fair value on the contract date and subsequently remeasured its fair value at the balance sheet date. Derivatives that are not qualified for hedge accounting are classified as Financial Assets at fair value through profit and loss with any gain or loss arising from changes in fair value on these derivatives being recognised in the comprehensive income statement.

#### Hedge Accounting

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated. Hedges which meet the strict criteria for hedge accounting are accounted for as follows:

#### a. Fair Value Hedge

The change in the fair value of an interest rate hedging derivative is recognised in the profit or loss as finance costs. The change in the fair value of the hedged item attributable to the risk hedged is recorded as a part of the carrying value of the hedged item and is also recognised in profit or loss as finance costs.

For fair value hedges relating to items carried at amortised cost, the adjustment to carrying value is amortised through profit or loss over the remaining term to maturity. Effective interest rate amortisation may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

If the hedge item is derecognised, the unamortised fair value is recognised immediately in profit or loss.

When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment

attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in profit or loss.

Fair value hedge accounting is discontinued if the hedging instrument expires or sold, terminated or exercised, the hedge no longer meets the criteria for hedge accounting or the Group revokes the designation.

#### b. Cash Flow Hedge

The effective portion of the gain or loss on the hedging instrument is recognised directly in other comprehensive income into cash flow hedge reserve, while any ineffective portion is recognised immediately in profit or loss as other operating expenses.

Amounts recognised in other comprehensive income previously are reclassified from equity to profit or loss when the hedged transaction affects profit or loss, such as when the hedged interest income or interest expense is recognised or when a forecast sale occurs. Where the hedged item is a non-financial asset or a non-financial liability, the amounts recognised previously in other comprehensive income are removed and included in the initial carrying amount of the non-financial asset or liability.

If the forecast transaction or firm commitment is no longer expected to occur, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, any cumulative gain or loss previously recognised in other comprehensive income remain in equity until the forecast transaction or firm commitment affects profit or loss.

c. Derivatives that are not designated or do not qualify for hedge accounting

Any gains or losses arising from changes in fair value on derivatives during the year that do not qualify for hedge accounting are directly recognised in profit or loss.

#### (II) Effect of Adoption of FRS 139

In accordance with the transitional provisions of FRS139, the changes are applied prospectively and the comparatives as of 31 December 2009 are not restated. Instead, the changes have been accounted for by restating the opening retained earnings and reserves in the balance sheet as of 1 January 2010.

	As at 1 Ja	anuary 2010
	Retained Earnings (RM'000)	Other Reserve (RM'000)

Deferred Tax Assets on impairment losses	45	(294)
Restated at	7,691	91,941

#### (c) Audit Report

The audit report of the Company's preceding annual financial statements was not qualified.

#### (d) Seasonality or Cyclicality of Interim Operations

The operations of the Group are not affected by seasonal or cyclical factors.

#### (e) Unusual Items

There were no unusual items affecting assets, liabilities, equity, net income or cash flow due to their nature, size or incidence for the interim period ended 30 June 2010, other than that disclosed in this interim condensed financial statements.

#### (f) Changes in Estimates

There were no changes in estimates of amounts reported in the interim period of the current financial year or in prior financial years that have a material effect on the current interim period.

#### (g) Debt and Equity Securities

There were no issuance and repayment of debt and equity securities, share buy-back, share cancellation, shares held as treasury shares and resale of treasury shares for the current reporting quarter up to date of issuance of this quarterly report.

#### (h) Dividend Payment

An interim dividend of 1.5 sen per share less 25% tax was declared on 21 May 2010 and paid on 30 June 2010. No interim dividend was declared for the current reporting quarter.

# (j) Valuation of Property, Plant and Equipment

The valuation of plant and equipment have been brought forward, without amendment, from the previous annual financial statements.

# (k) Subsequent Material Events

There were no material events subsequent to the end of the current reporting quarter that have not been reflected in the financial statements.

## (l) Changes in the Composition of the Group

The entire registered capital of USD28 million comprising 28 millions shares of USD1.00 each in Cambodian Energy Limited ("CEL") is currently held by Leader (Cambodia) Limited ("LCL"). CEL became a wholly-owned subsidiary of LCL on 2 July 2010.

#### (m) Contingent Liabilities

As at 16 August 2010, guarantees extended by the Company as security for the Group's banking facilities amounted to RM1,015.70 million (31 December 2009 : RM788.45 million).

### 1. Review of Performance

The Group registered a revenue of RM 678.86 million for the current reporting quarter ended 30 June 2010, an increase of 43.2% as compared to RM474.04 million for the corresponding quarter ended 30 June 2009. The Cable and Wire division recorded a higher revenue mainly due to increased in sales quantity and surge in metal prices in the current reporting quarter.

In line with the higher revenue, the Group recorded a higher profit before taxation of RM23.44 million in the current reporting quarter as compared to RM20.60 million for the corresponding quarter ended 30 June 2009.

#### 2. Material Change in Profit Before Taxation

The Group's profit before taxation for the current reporting quarter ended 30 June 2010 was 38.37% higher at RM23.44 million as compared to RM16.94 million for the preceding quarter.

#### 3. Prospects for Financial Year Ending 31 December 2010

With the improving economic conditions, the directors expect the remaining part of the financial year to remain profitable.

# 4. Variance of Actual Profit from Forecast Profit and Shortfall in Profit Guarantee

There are no forecast profit and profit guarantee.

#### 5. Taxation

The Group tax charge comprises:

	Current Quarter 30/06/2010 RM'000	Interim Period To Date 30/06/2010 RM'000
Income tax	(1,689)	(3,966)
Deferred tax	(891)	267
	(2,580)	(3,699)
(Under)/Over provision in previous year	-	(3)
	(2,580)	(3,702)

The difference between the effective tax rate and the statutory tax rate of the Group for the current reporting quarter ended 30 June 2010 is primarily due to the lower tax rate of an overseas subsidiary company and the availability of tax incentives being used to offset against statutory income of the subsidiary companies. Some of the non-taxable income and the availability of unabsorbed losses of the subsidiary companies, have also contributed to lowering the effective tax rate of the Group for the current financial year under review.

#### 6. Profits/(Losses) on Sale of Unquoted Investments and/or Properties for the Current Quarter and Financial Year to date

There was no sale of unquoted investments except for a subsidiary company which had sold two units of its properties at net book value in first quarter 2010, hence no profit nor loss arose from the disposal in the current reporting financial year.

## 7. Purchase or Disposal of Quoted Securities

(a) Disposal

There was no purchase or other disposal of quoted securities for the current reporting quarter except the following disposal:

	Current	Interim Period
	Quarter	To Date
	30/06/2010	30/06/2010
	RM'000	RM'000
Total investment at cost	1,347	1,347
Total investment at carrying value/book value	5,602	5,602
Total sale proceeds	4,540	4,540

#### (b) Investments in quoted securities as at 30 June 2010

		RM'000
(i)	Total investments at cost	4,716
(ii)	Total investments at carrying value/book value	18,044
(iii)	Total investments at market value at 30 June 2010	16,746

## 8. Corporate Proposals

г

There were no corporate proposals announced during the current reporting quarter and up to the date of issuance of this quarterly report.

# 9 Projects Undertaken

#### 100MW Coal-fired Power Project in Cambodia

Works are ongoing to fulfill the conditions precedent to the loan drawdown and for the Supplemental & Collaboration Agreement signed and dated 2 July 2010 to become unconditional and effective.

230 kV Power Transmission System from North Phnom Penh to Kampong Cham in Cambodia Construction works on the substations and access roads to the substations are ongoing.

There is no change in the significant policy for mitigating or controlling the interest rate risk, credit risk, liquidity risk and foreign currency risk for the Group nor the related accounting policies except those changes which have been disclosed under Note (b) (Significant Accounting Policies) of this quarterly report. Other related information associated with the financial instruments are consistent with the disclosures in the audited financial statements for the financial year ended 31 December 2009.

#### Reason and Basis in arriving at fair value changes

Forward Commodity and Forward Foreign Exchange Contract

Gain or loss is the difference between the fair value of the forward contract at the balance sheet date and the fair value that was last used for the contract. The fair value is the amount that would be payable or receivable on termination of the outstanding position arising and is determined by reference to the difference between the contracted rate and forward rate at the balance sheet date applied to a contract of similar quantum and maturity profile.

# 12 Material Litigation

The Group has not engaged in any litigation, either as plaintiff or defendant, which has a material effect on the financial position of the Group for the current reporting quarter up to the date of issuance of this quarterly report.
