Review of performance (Quarter 2, 2024 vs Quarter 2, 2023)

1

During the second quarter of 2024, the Group's turnover stood at RM1.52 billion, compared to the historic high RM1.75 billion achieved in the equivalent quarter of the previous year. This decline in turnover was primarily driven by a decrease in domestic sales, reflecting the current environment of subdued consumer sentiment, and constrained purchasing power. It is important to note that this comparison is against a strong baseline in the corresponding quarter of the previous year, and quarterly sales are similar to those achieved in 2022.

The Group remain focused on providing solid value propositions across our brands and products to meet the expectations of Malaysians, always with the highest quality and using the best ingredients. We continue to work tirelessly to improve the nutritional profile of our products and testament to this is, as an example, the Healthier Choice Logo for MILO recognised by the Malaysian Ministry of Health. We have also brought to market a number of relevant innovations such as KIT KAT Dark Borneo, made with cocoa beans from Sabah and Sarawak, sourced via our Nestlé Borneo Cocoa initiative, in partnership with the Malaysian Cocoa Board. We take great pride in how our agricultural engagements continue to support the uplifting of local farming communities while helping us to further localise the high-quality ingredients needed to manufacture our products.

Profit Before Tax (PBT) and Profit After Tax (PAT) reached RM126.0 million and RM93.6 million respectively, reflecting the lower sales and some conscious choices regarding pricing. We remain sensitive of the challenges Malaysian families encounter in coping with the rising food prices and other basic items. In response, we continue to make every effort to moderate the translation of these external costs increases to our final prices by absorbing them to the best of our ability and actively mitigating cost pressure through various actions, including the constant search for internal process efficiencies and the adoption of digital-enabled technologies across our entire value chain.

Our responsible approach to managing price increases explains the moderate impact to profitability which remains resilient. We are dedicated to ensuring that our products continue to provide value to our consumers while navigating the challenges of the current sluggish market environment.

2 Review of performance (Year-to-date, 2024 vs Year-to-date, 2023)

For the first half ended 30 June 2024, the Group achieved a turnover of RM3.31 billion, compared to RM3.59 billion in the same period last year. This can be attributed to the subdued consumer sentiments and cautious spending observed during the Chinese New Year and Hari Raya festive seasons. As for the quarter, in H1 2023, our sales reached a historically high record number, hence a very high baseline of reference.

PBT and PAT for the Group amounted to RM385.1 million and RM289.1 million respectively, consistent with our pricing decisions, the sustained pressure on input costs, and the weakening of the Ringgit.

Profitability for the first half year remains at a healthy level, allowing the Board to declare a first interim dividend of 70 sen per share, the same level as the prior year.

3 Variation of results against previous quarter (Quarter 2, 2024 vs Quarter 1, 2024)

For the second quarter ended 30 June 2024, the Group registered a turnover of RM1.52 billion, 14.5% lower compared to the first quarter of 2024, mainly due to the higher sales recorded in Q1 2024 during the period of Chinese New Year and Ramadan.

Profit Before Tax was lower at RM126.0 million, mainly due to the lower sales and sustained pressure on commodity price and foreign exchange volatility.

4 Current year prospects

We expect challenging conditions to remain throughout the third quarter and moderate progressively towards the end of the year with a return to growth latest by H1 2025. We will continue to build on our fundamental strengths to continue providing Malaysians with the best range of great tasting Halal products that meet their health, nutrition and lifestyle expectations, and always anchored on our foundation of Quality and Safety. As we have done for the last 112 years, this remains Nestlé Malaysia's one and only truth: investing in Malaysia for the long run, creating jobs and development opportunities for Malaysians and contributing to the betterment of communities across the nation while leading the way for the industry towards a greener more sustainable future.

12 Material litigation

In March 2019, Nestlé Products Sdn. Bhd. ("NPSB" or "the Appellant"), a subsidiary of Nestlé (Malaysia) Berhad, was served with a Writ of Summons and Statement of Claim by Mad Labs Sdn. Bhd. ("Mad Labs"), seeking for amongst others, the sum amounting to RM139,344,262.25. Mad Labs alleged unauthorised use of their QR Code, breach of an implied contract, unjust enrichment and negligence. NPSB subsequently filed its Statement of Defence and a separate action against Mad Labs and its sole Director and shareholder, Chow Kien Loon for amongst others, to challenge the ownership of Mad Labs in the QR Code, negligence, unlawful interference with trade as well as defamation and trade libel . Both suits filed by Mad Labs and NPSB were subsequently consolidated and heard by the High Court (Intellectual Property Division). The trial which commenced in June 2021 concluded in April 2023, with the Hight Court delivering the following oral findings:

- Mad Labs does not own any intellectual property rights in the QR Code. Damages on royalty basis amounting to RM139,344,262.25 was dismissed;

- Mad Labs' claim for breach of an implied contract was dismissed;
- Mad Labs and its director were negligent; damages to be assessed in favor of NPSB;
- NPSB's report to the Malaysian Communications and Multimedia Commission was not malicious;
- While Mad Labs lacks ownership in the QR Code, it was generated by and under the exclusive control of Mad Labs which gave rise to Mad Labs having the "right to sell" the QR Code. NPSB was directed to compensate Mad Labs for continued use after the trial period;
- A permanent injunction against NPSB's use of the QR Code was granted;

- Mad Labs and its director were not found guilty of defamation and NPSB's claim for unlawful interference with trade was also dismissed.

The High Court has further directed for damages and costs to be separately assessed and determined, which is currently on going.

Pending the issuance of the full written judgment by the High Court judge, both NPSB and Mad Labs have since filed their Records of Appeal with the Court of Appeal on 27 December and 28 December 2023 respectively to appeal against the High Court decision.

The solicitors, LindaWang Su & Boo, representing NPSB are of the view that NPSB has a reasonably fair chance of success in its appeal at the Court of Appeal. At this juncture, the Board is of the opinion that no provision needs to be made for this claim.
