There was no revaluation of property, plant and equipment brought forward from the previous audited financial statements. The Group does not adopt a revaluation policy on its property, plant and equipment.

9. Material Events Subsequent to the End of the Quarter

On 11 August 2008, TM entered into a Settlement and Transfer Agreement and other ancillary agreements with the Government of the Republic of Guinea (GoG), Societe Des Telecommunications De Guinee S.A (Sotelgui) and TM International Berhad for the disposal of TM's entire shareholding of 4,500,000 category B ordinary shares of USD10.00 each, representing 60% of the share capital of Sotelgui (Sale Shares) to GoG. The GoG is the registered holder of the remaining 40% of the share capital of Sotelgui.

TM will realise approximately RM82.0 million foreign exchange loss arising from the translation of net investment in Sotelgui prior to deconsolidation which was reflected as foreign exchange reserve previously upon completion of the transfer of the Sale Shares as mentioned above.

The above foreign exchange loss has no impact to the cash flow of TM Group.

Save for the above and the litigation case as disclosed in part B, note 11 (III)(a), there were no other material events subsequent to the balance sheet date that requires disclosure or adjustments to the interim unaudited financial statements.

10. Effects of Changes in the Composition of the Group

Changes in the composition of the Group for the current quarter and financial period ended 30 June 2008 are as follows:

(a) VADS Berhad (VADS)

TM's shareholding in VADS decreased from 64.87% to 64.73% in the first quarter and subsequently to 63.38% in the second quarter, due to the issuance of shares under the Employees' Share Option Scheme of VADS. The dilution has no material effect to the results of the Group.

(b) TM ESOS Management Sdn Bhd (TEM)

On 11 March 2008, TM acquired 100% equity interest in TEM for a total consideration of RM2.00. TEM was specifically established to act as a trustee to acquire, hold and manage shares in TM and other related benefits under the Employees' Share Option Scheme (ESOS) for eligible employees and Executive Director(s) of TM and its subsidiaries at the point of implementation of the ESOS.

(c) Pursuant to the internal restructuring and the demerger exercise of TM Group, the following changes in the composition of the Group have taken place upon completion of demerger on 25 April 2008:

(i) Celcom (Malaysia) Berhad (Celcom)

Telekom Enterprise Sdn Bhd (TESB), a wholly owned subsidiary of TM, transferred its 100% equity interest in Celcom to TMI for a total consideration of RM4,677.0 million.

Thus, Celcom ceased to be a wholly owned subsidiary of TESB and TM also ceased to have any interest in Celcom Group of companies with effect from the said date.

(ii) SunShare Investment Limited (SunShare) and MobileOne Limited (M1)

TM transferred its entire holding in the redeemable convertible preference shares held in SunShare to TMI for a consideration of RM141.0 million. Thus, with effect from the said date, TM ceased to have any interest in SunShare which consequently resulting in the cessation of TM's deemed interest in M1 shares held by SunShare.

(iii) Fibrecomm Network (M) Sdn Bhd (Fibrecomm)

TESB acquired 51% equity interest in Fibrecomm from Celcom Transmission (M) Sdn Bhd, a wholly owned subsidiary of Celcom, for a total consideration of RM33.0 million.

The principal activity of Fibrecomm is the provision of fibre optic transmission network services.

10. Effects of Changes in the Composition of the Group (continued)

(iv) TM International Berhad (TMI)

TM has distributed, via a dividend in specie, of its entire holdings of and rights to ordinary shares of RM1.00 each in TMI to the entitled shareholders of TM, on the basis of 1 TMI Share for every 1 ordinary share of RM1.00 each held in TM. Thus, with effect from the said date, TM ceased to have any interest in TMI Group of companies, including Celcom (Malaysia) Berhad Group.

11. Changes in Contingent Liabilities Since the Last Annual Balance Sheet Date

There were no material changes in contingent liabilities (other than material litigations disclosed in part B, note 11 of this announcement) since the latest audited financial statements of the Group for the financial year ended 31 December 2007.

Pursuant to the completion of the demerger exercise of TM Group on 25 April 2008, status of all contingent liabilities including material litigations of TM International Berhad Group and Celcom Group are excluded from this announcement.

Under the terms of the Deed, TM International, failing which TM, is required to make payment of any outstanding principal and/or interest under the facilities to the lenders upon occurrence of a specified trigger event. TM International's and TM's obligation on behalf of Spice gives the Group the rights to exercise a call option under the terms of a shareholders' agreement to acquire additional shares in Spice from the existing shareholder, namely Modi Wellvest.

In conjunction with TM Group's demerger, TM was released from this undertaking on 10 April 2008.

Consequently, 137,592,300 ordinary shares of TMI were distributed to TEM. Since TEM is a SPE controlled by the Company, the 137,592,300 ordinary shares of TMI are effectively held by TM Group.

13. Discontinued Operations and Distribution of the Net Assets of TMI Group (continued)

In accordance with FRS 127 "Consolidated and Separate Financial Statements", an investment in an entity shall be accounted for in accordance with FRS 139 "Financial Instruments: Recognition and Measurement" from the date that it ceases to be a subsidiary, provided that it does not become an associate as defined in FRS 128 "Investments in Associates" or a jointly controlled entity as described in FRS 131 "Interests in Joint Ventures". The carrying amount of the investment at the date that the entity ceases to be a subsidiary shall be regarded as the cost on initial measurement of a financial asset in accordance with FRS 139.

In accordance with the above provision of FRS 127, the carrying value attributable to the 137,592,300 ordinary shares of TMI held by TEM is classified as available-for-sale investment on completion of the demerger exercise. This investment is carried at fair value. The difference between the fair value and carrying value of TMI shares at the date of demerger is credited to equity and recorded as 'Fair Value Reserves'. Changes in the fair value of an available-for-sale investment will be credited to Fair Value Reserves and will be charged to Income Statement upon disposal of the investment.

PART B : EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURIITIES BERHAD

1. Review of Performance

(a) Quarter-on-Quarter

For the current quarter under review, Group revenue increased marginally by 0.3% to RM2,109.2 million as compared to RM2,103.7 million in the second quarter 2007, mainly attributed to higher revenue from data, Internet and multimedia and other telecommunication related services which was partially off-set by the decline in voice revenue.

Internet and multimedia revenue registered 23.8% growth from second quarter 2007 to RM360.3 million in current year quarter resulting from continued growth of broadband customers to 1.46 million from 1.07 million in the corresponding quarter 2007.

The increase in revenue from other telecommunication related services was contributed by higher revenue from recoverable work orders at Company level and new billable projects at VADS Berhad and GITN Sdn Berhad.

Group profit after tax and minority interests (PATAMI) for continuing operations increased by 1.8% to RM114.7 million as compared to RM112.7 million recorded in the second quarter 2007 mainly attributed to higher other operating income.

(b) Year-on-Year

For the period under review, Group revenue increased by 1.3% to RM4,115.1 million as compared to RM4,062.5 million in the corresponding period last year, mainly attributed to higher revenue from data, Internet and multimedia and other telecommunication related services.

Group PATAMI for continuing operations however, reduced by 36.1% to RM229.1 million as compared to RM358.8 million recorded in the corresponding period primarily due to higher ESOS cost, diminution in value of quoted investments and net finance costs.

(c) Economic Profit Statement

PART B : EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURIITIES BERHAD

1. Review of Performance (continued)

Definitions:
EBIT = Earnings before Interest & Taxes
NOPLAT = Net Operating Profit/Loss after Tax
AIC = Average Invested Capital
WACC = Weighted Average Cost of Capital

Economic Profit (EP) is a yardstick to measure shareholder value as it provides a more accurate picture of underlying economic performance of TM Group vis-à-vis its financial accounting reports, i.e. it explains how much returns a business generates over its cost of capital. This can be measured from the difference of NOPLAT and Economic Charge.

TM Group recorded economic loss (EL) of RM74.7 million in second quarter 2008, lower by 21.4% (RM20.3 million) from EL of RM95.0 million reported in the same period last year.

The lower EL was attributed to higher NOPLAT of RM27.0 million (17.4%) despite increase in economic charge of RM6.7 million (2.7%). The increase in NOPLAT was mainly contributed by higher EBIT of RM33.7 million arising from higher operating revenue and lower cost recorded in the current year quarter.

The higher economic charge was due to the increase in WACC consequent from higher tax cost and cost of equity. The decrease in AIC by RM284.7 million (8.4%) had partially off-set the increase in economic charge.

For the current year to date, higher EL was mainly attributed to the one-off items totalling RM203.6 million largely from specific allowance for doubtful debts, ESOS cost and diminution in value of quoted investments. Without these items, the EL for the current year to date would have been RM93.3 million, lower by RM106.1 million (53.2%) when compared to the normalised EL of RM199.4 million recorded in the same period last year.

2. Comparison with Preceding Quarter's Results

Group revenue for the current quarter of RM2,109.2 million increased by 5.1% (RM103.3 million) from RM2,005.9 million recorded in the preceding quarter, mainly due to higher revenue from data, Internet and multimedia, other telecommunication related services and non-telecommunication related services.

Internet and multimedia revenue increased by RM26.2 million (7.8%) from the preceding quarter to RM360.3 million following growth in broadband customers from 1.35 million to 1.46 million in the current quarter.

Despite 5.1% increase in revenue, Group PATAMI for continuing operations of RM114.7 million was only 0.3% higher than RM114.4 million recorded in the preceding quarter, primarily due to higher net finance cost.

PART B : EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURIITIES BERHAD

3. Prospects for the Current Financial Year

With the changing lifestyle and strong demand for broadband internet services, TM expects to continue enjoying a significant revenue contribution from this segment as well as a steady increase in data services contribution to help cushion the declining trend of voice services.

With the Performance Improvement Programmes in place, TM expects to improve its position in terms of operational efficiency and customers' satisfaction.

The planning for the High Speed Broadband (HSBB) rollout is now complete and TM is awaiting Government's decision on the next step in the process. TM will continue to engage the Government on the HSBB project as it believes it has submitted comprehensive and detailed proposal and is confident to deliver high quality HSBB services to the business and consumers. HSBB will be an important engine for national growth where both consumers as well as industries are set to benefit from.

Barring any unforeseen circumstances, the Board of Directors expects TM's performance for the financial year ending 31 December 2008 to remain profitable.

4. Variance of Actual Profit from Forecast Profit / Profit Guarantee

The Group has not provided any profit forecast or profit guarantee in a public document in respect of the financial period ended 30 June 2008.

These hedge instruments are not recognised in the financial statements on inception.

Exchange gains and losses relating to hedge instruments are recognised in the Income Statement in the same period as the exchange differences on the underlying hedged items. No amounts are recognised in respect of future periods."

All hedging instruments are executed with creditworthy financial institutions with a view to limit the credit risk exposure of the Group.

In the Suit, Celcom seeks from the defendants; TM, TESB and nineteen others, including the former and existing directors of Celcom, TM and TESB, jointly and severally, the following principal relief:

(a) The sum of USD233.0 million, being the amount paid by Celcom to DeTeAsia under the Award;

(c) A Declaration that all purchases of shares in Celcom made by TESB and/or TM and/or parties acting in concert with them with effect from and including the date of the Notice of Mandatory Offer dated 3 April 2003 issued by CIMB is illegal and void and of no effect;
