(a) 2nd Quarter 2021 vs 2nd Quarter 2020

(i) Group Performance

The Group's operating revenue increased 6.6% (RM170.9 million) to RM2,762.9 million compared to RM2,592.0 million in the same quarter last year with increase in revenue for all services apart from non-telecommunication related services.

The Group reported operating profits before finance cost of RM382.0 million, 8.6% (RM36.0 million) lower from the RM418.0 million recorded in 2nd quarter of 2020 mainly from increase in operating costs which included provisions recognised as part of the Group's manpower optimisation initiatives.

A RM3.1 million foreign exchange loss on borrowings in the current quarter compared to a RM19.2 million gain in corresponding quarter last year further led to the Group reporting a RM218.5 million profit after tax and non-controlling interests (PATAMI) for the quarter ended, 20.5% (RM56.2 million) lower from the RM274.7 million recorded in the 2nd quarter of 2020.

(ii) Segment Performance

unifi

Revenue increased 12.5% (RM139.3 million) from RM1,118.1 million to RM1,257.4 million in the current quarter with increase from both fixed broadband and mobile services. Cumulative fixed internet subscribers were 14.7% higher at the end of the current quarter against the end of corresponding quarter last year.

Lower operating costs further contributed to a 70.6% (RM113.8 million) improvement in earnings before interest and taxation (EBIT), recorded at RM275.0 million, compared to RM161.2 million in the corresponding quarter last year.

TM ONE

TM ONE recorded a 2.8% (RM26.0 million) increase in revenue from RM928.9 million to RM954.9 million in the 2nd quarter of 2021 mainly from customer projects under other telecommunication related services. Corresponding increase in direct cost during the current quarter ended kept EBIT relatively level at RM256.2 million, just a 0.1% (RM0.3 million) lower from the RM256.5 million recorded in the corresponding quarter last year.

1. Review of Performance (continued)

- (a) 2nd Quarter 2021 vs 2nd Quarter 2020 (continued)
- (ii) Segment Performance (continued)

TM WHOLESALE

TM WHOLESALE revenue for the current quarter increased by 14.7% (RM76.6 million) from RM520.1 million in 2nd quarter last year to RM596.7 million, mainly from higher revenue from increased demand for data services.

Increase in operating costs saw EBIT decreased 5.8% (RM4.1 million) from RM70.7 million to RM66.6 million in the current quarter.

(b) Year-on-Year

(i) Group Performance

For the financial period under review, Group revenue increased by 8.2% (RM423.5 million) to RM5,572.6 million against RM5,149.1 million recorded in the first half of 2020 from all lines of products apart from non-telecommunication services.

Operating costs increased at a lower rate compared to revenue, resulting in a 30.5% (RM225.7 million) increase in the Group's operating profit before finance cost, which was recorded at RM965.3 million compared to RM739.6 million in the first 6 months of 2020.

Despite higher interest cost in the current period arising from the early redemption of the Group's Islamic Medium Term Notes carried out in March this year, the consistent revenue growth and continuing cost reduction from the first half of the year further translated into the 27.3% (RM116.8 million) increase in PATAMI for the current financial period which stands at RM544.0 million from RM427.2 million in the corresponding period last year.

(ii) Segment Performance

<u>unifi</u>

unifi recorded a strong 9.9% (RM222.3 million) increase in revenue from RM2,241.6 million during the 1st half of 2020 to RM2,463.9 million in the current period ended 30 June 2021 mainly from Internet and multimedia services as well as voice with the highest increase in broadband subscribers recorded over the last 6 months.

Cost optimisation initiatives and cautious monitoring of expenditures led to a 108.6% (RM279.5 million) increase in profit at EBIT level for the current financial period at RM536.8 million compared to RM257.3 million during the same period last year.

1. Review of Performance (continued)

- (b) Year-on-Year (continued)
- (ii) Segment Performance (continued)

TM ONE

TM ONE recorded a 2.5% (RM47.3 million) increase in revenue from RM1,888.9 million to RM1,936.2 million in the current financial period contributed by data and customer projects under other telecommunication related services amidst decline in usage based revenue from voice as well as internet which were affected by bandwidth downgrade and lower usage during the extended Movement Control Order period.

Higher operating costs in view of the increase in revenue in the current quarter however brought EBIT down by 3.2% (RM17.4 million) to RM522.4 million in the current period from RM539.8 million in the same period last year.

TM WHOLESALE

TM WHOLESALE registered revenue of RM1,221.9 million for the current financial period ended, 18.7% (RM192.4 million) higher than the RM1,029.5 million reported in the corresponding 6 months period of the previous financial year, with higher revenue mainly from data services.

Higher profit margins led to a 21.2% (RM36.1 million) increase in EBIT from RM170.2 million in the corresponding period last year to RM206.3 million in the current financial period.

2. Comparison with Preceding Quarter's Results

The Group recorded a 1.7% (RM46.8 million) revenue decline from RM2,809.7 million in the preceding quarter to RM2,762.9 million in the current quarter with declines in data, other telecommunication and non-telecommunication services which were affected by stricter Movement Control Order put in place in the current quarter ended. The overall decline was positively reduced by voice and internet services which continued to record quarter-on-quarter increase in net addition to fixed broadband subscriber base, when compared to preceding quarter.

Operating profit before finance costs decreased by 34.5% (RM201.3 million) to RM382.0 million from RM583.3 million recorded in the preceding quarter mainly due to the increase in operating cost which included provisions recognised as part of the Group's manpower optimisation initiatives. This subsequently led to a 32.9% (RM107.0 million) decrease in Group PATAMI from RM325.5 million in the preceding quarter to RM218.5 million.

3. Prospects for the Current Financial Year

The Malaysian economy grew 7.1% in the first half of 2021 against first half of 2020. Through its Second Quarter Report released on 13 August 2021, Bank Negara is projecting the Malaysian economy to have an annual growth within the range of 3.0% to 4.0% in 2021 (revised from previous estimate of 6.0% to 7.5% made in March 2021), in part due to the reimposition of nationwide containment measures arising from the pandemic. This would be higher than the 5.6% de-growth recorded in 2020, with re-opening of the economy expected to support a gradual recovery in the fourth quarter of 2021. Whilst the pace of recovery is expected to be uneven across sectors¹, the information and communication sub-sector continued to benefit from rising demand for e-commerce and e-payment activities, as well as remote working and learning arrangements, growing year-on-year at 6.3% and 5.9%² during 1st and 2nd quarter of 2021, respectively.

With the record increase in number of cases and fatalities from Covid-19 in the past few months, prolonged Movement Control Order (MCO) would be inevitable. The Group continues to serve the nation by meeting the necessary demand for internet and data to Malaysians both at the retail and wholesale fronts. This is evident through our acceleration of the number of ports deployed and fibre network roll-out under the JENDELA programme, which is well ahead of schedule. As proven, accelerated digital adoption is crucial in ensuring Malaysia's economic recovery under the National Recovery Plan.

The Group continues to leverage on our comprehensive connectivity, digital infrastructure which includes data centre and Cloud as well as innovative and smart solutions and cybersecurity to support Malaysia's MyDIGITAL aspirations and enterprises of all sizes. Over the last 6 months, we have been realising key initiatives set forth as part of our 'New TM' Transformation Programme (2021-2023) anchored on over forty Value Programmes driven to create greater shareholder value and enabling a more digital Malaysia, reshaping our workforce to become a stronger execution engine with future ready skills and embracing a more agile work culture.

We remain steadfast in our efforts to realise the national digital aspirations. Based on the current performance momentum, the Group is on track to achieve its 2021 targets.
