Review of Performance

For the quarter ended 30 September 2009, the Group recorded revenue of RM13.4 million compared to RM16.5 million in 2008 and a loss before taxation of RM228,000 compared to a loss before taxation of RM358, 000 in 2008. Losses continued to be incurred in the current quarter as our customers continued to be affected by the weak economic environment resulting from the global financial crisis.

Variation of Results against Immediate Preceding Quarter

The Group's revenue for the current quarter amounted to RM13.4 million as compared to RM13.3 million in the second quarter ended 30 June 2009. The loss before taxation of RM228,000 for the current quarter was higher as compared to a loss before taxation of RM166,000 in the preceding quarter. The marginal improvement in revenue in the third quarter compared to the previous is an encouraging development towards improved performance in the next quarter.

Prospects

The packaging and printing business continue to experience intense competition and the Directors expect the coming quarters to remain challenging. While the Group continued to incur losses in the third quarter, the improvement in sales in the current quarter has caused the Directors to be cautiously optimistic on the Group's performance in the subsequent quarter and for the next year.

The Malaysia economy is expected to expand next year and the Directors are optimistic that the Group will be able to improve its performance in the coming year. Nevertheless, continuing efforts are being made to improve revenue opportunities, improving margins and process efficiencies and minimizing overall costs.
