Review of Performance

For the quarter ended 30 June 2010, the Group recorded a revenue of RM16.1 million compared to RM13.3 million in corresponding quarter in 2009 and a loss before taxation of RM68,000 compared to a loss before taxation of RM166,000 in 2009. The lower loss before taxation incurred in the current quarter was mainly due to the increase in revenue by 25% as compared to the same quarter in 2009. This was mainly attributable to significant improvements in the paper products segment.

Variation of Results against Immediate Preceding Quarter

The Group's revenue for the current quarter amounted to RM16.1 million as compared to RM14.2 million in the first quarter ended 31 March 2010. The loss before taxation of RM68,000 for the current quarter was lower as compared to a loss before taxation of RM468,000 in the preceding quarter. The lower loss reported in the current quarter was due to significant improvements of results across all segments.

Prospects

The packaging and printing business continue to experience intense competition. The uptrend in business starting from the second half of 2009 has continued into this quarter. The improvements, both at the revenue level and at the profit / (loss) before taxation levels, are good indicators that the performance of the Group is on the road to recovery. The Malaysian GDP grew by 8.9% in the second quarter driven by both domestic and external demand. The manufacturing sector grew by 15.9% (Q1 2010 : 17%). The Directors are hopeful that the performance of the Group will continue to improve with the growth in the country's economic performance, barring adverse developments in the external trading environment.
