The Group recorded revenue of RM120.710 million and net profit of RM0.568 million for the fourth quarter ended 31 December 2004. The decline in revenue and net profit was mainly due to the general weakness in the demand for the Group's products and services as a consequence of inventory adjustments in the worldwide semiconductor market.

For the current year to date ended 31 December 2004, the Group recorded revenue of RM493.900 million and net profit of RM34.277 million. These represent a growth of 75.39% in revenue and an improvement in net profit of RM37.584 million as compared to the revenue and net loss of the corresponding year to date ended 31 December 2003. The growth in revenue was attributable to the increased sales volume and revenue contribution by Unisem Europe. The increase in net profit was due to increased revenue and the overprovision of taxation in prior year being recognized in the current financial year.

# 14. Explanatory comment on any material change in the profit before taxation for the quarter reported on as compared with the immediate preceding quarter

On 4 June 2004, the Company received approval from Malaysian Industrial Development Authority (MIDA) for the surrender of its pioneer certificate issued under the Promotion of Investments Act, 1986. The surrender of the pioneer status resulted in the overprovision of tax in prior year due to Reinvestment Allowances being claimed retrospectively from 1 February 2000.

#### 22. Summary of off balance sheet financial instruments by type and maturity profile

In order to hedge its exposure to foreign exchange risks, the Group has entered into foreign currency forward contracts. Gains and losses on foreign exchange contracts designated as hedges of identified exposure are offset against the foreign exchange gains and losses on the hedged financial assets and liabilities.

Where the instrument is used to hedge against anticipated future transactions, gains and losses are not recognized until the transaction occurs.

As at 31 December 2004, the foreign exchange currency contracts that have been entered into by the Group to hedge its trade and other receivables are as follows:

Currency	Contracts amount (in '000)	Equivalent amount in RM'000
US Dollars	87,100	331,425

All of these contracts mature within six months.

There are no cash requirement risks as the Group only uses forward foreign currency contracts as its hedging instrument. The Group is exposed to credit risk with respect to foreign currency forward contracts in the event of non-performance by the counterparties to these financial instruments which are major financial institutions.
