CONDENSED CONSOLIDATED CASH FLOW STATEMENT FOR THE PERIOD ENDED 30 JUNE 2006 (CONTD.)

*During the period, the Group acquired a subsidiary; Urusan Teknologi Wawasan Sdn. Bhd.. The net cash inflow on acquisition is as follows:

Total purchase consideration	2,754
Less: Cash of Urusan Teknologi Wawasan Sdn. Bhd. acquired	(5,201)
Cash flow on acquisition, net of cash acquired	(2,447)

The condensed consolidated cash flow statement should be read in conjunction with the audited financial statements for the year ended 31 December 2005 and the accompanying explanatory notes attached to the interim financial statements.

1. BASIS OF PREPARATION

The interim financial statements have been prepared under the historical cost convention.

The interim financial statements are unaudited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2005. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2005.

2. CHANGES IN ACCOUNTING POLICIES

The significant accounting policies adopted are consistent with those of the audited financial statements for the year ended 31 December 2005 except for the adoption of the following new/revised Financial Reporting Standards ("FRS") effective for financial period beginning 1 January 2006:

FRS3	Business Combinations
FRS 101	Presentation of Financial Statements
FRS 102	Inventories
FRS 108	Accounting Policies, Changes in Estimates and Errors
FRS 110	Events after the Balance Sheet Date
FRS 116	Property, Plant and Equipment
FRS 121	The Effects of Changes in Foreign Exchange Rates
FRS 127	Consolidated and Separate Financial Statements
FRS 128	Investments in Associates
FRS 132	Financial Instruments: Disclosure and Presentation
FRS 133	Earnings Per Share
FRS 136	Impairment of Assets
FRS 138	Intangible Assets

New/revised FRSs which would be adopted from the financial period beginning 1 January 2007 are:

FRS 117	Leases
FRS 124	Related Party Disclosures
FRS 139	Financial Instruments: Recognition and Measurement

The adoption of FRS 3, 102, 108, 110, 116, 121, 127, 128, 132, 133 and 136 does not have significant financial impact on the Group. The principal effects of the changes in accounting policies resulting from the adoption of the new/revised FRSs are discussed below:

(a) FRS 138: Intangible Assets

Intangible assets other than goodwill

The new FRS 138 requires that the useful lives of intangible assets other than goodwill be assessed at the individual asset level as having either a finite or indefinite life. Some of the intangible assets are regarded to have an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the Group. Intangible assets with indefinite useful lives are not amortised but instead, are tested for impairment annually. In accordance with the transitional provisions of FRS 138, the change in the useful life assessment from finite to indefinite is made on a prospective basis.

2. CHANGES IN ACCOUNTING POLICIES (CONTD.)

(a) FRS 138: Intangible Assets (Contd.)

Intangible assets other than goodwill (Contd.)

Under the new FRS 138, concession rights are intangible assets. Although the application of FRS 138 is prospective, the Group has reclassified the comparative amount for concession rights for better presentation. Accordingly, from 1 January 2006, concession rights are stated at cost less accumulated amortisation and impairment losses; similar treatment that was adopted in prior financial years. The cost is amortised based on its definite life and amortisation is recognised accordingly.

(b) FRS 101: Presentation of Financial Statements

The adoption of the revised FRS 101 has affected the presentation of minority interest, and other disclosures. In the consolidated balance sheet, minority interest is now presented within total equity. In the consolidated income statement, minority interest is presented as an allocation of the net profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity. FRS 101 also requires disclosure, on the face of the statement of changes in equity, total recognised income and expenses for the period, showing separately the amounts attributable to equity holders of the parent and to minority interest. The current period's presentation of the Group's financial statements is based on the revised requirements of FRS 101, with the comparatives restated to conform to the current period's presentation.

3. COMPARATIVES

The following comparative amounts have been restated due to the adoption of a new FRS:

	Previously	Adjustment	
	stated	FRS 138	Restated
	RM'000	RM'000	RM'000
At 31 December 2005			
Property, plant and equipment	2,884,497	(1,250,202)*	1,634,295

^{*} Please refer to Note 2(a)

11. CARRYING AMOUNT OF REVALUED ASSETS

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

12. CHANGES IN COMPOSITION OF THE GROUP

There were no changes in the composition of the Group during the financial quarter under review and financial year-to-date other than the completion of the acquisition of an additional 26% equity in Urusan Teknologi Wawasan Sdn. Bhd. ("UTW").

On 24 January 2006, Malaysia Airports Management & Technical Services Sdn. Bhd., a wholly owned subsidiary of the Company, completed the acquisition of 195,000 ordinary shares of RM1.00 each in an associate company, UTW; representing an additional 26% equity interest for a cash consideration of RM2,754,000 or RM14.12 per ordinary shares. Following this transaction, its effective interest has increased to 75% equity interest and UTW became a subsidiary of the Group.

The acquisition of UTW is accounted for using the "entity concept method" whereby any excess of the Group's interest in the net fair value of acquirees' identifiable assets, liabilities and contingent liabilities over cost of acquisitions, after reassessment, is recognised immediately in profit or loss.

13. CHANGES IN CONTINGENT LIABILITIES AND CONTINGENT ASSETS

There were no changes in contingent liabilities or contingent assets since the last annual balance sheet as at 31 December 2005.

14. CAPITAL COMMITMENTS

The amount of commitments for the purchase of property, plant and equipment not provided for in the interim condensed financial statements as at 30 June 2006 were as follows:

	Due year 2006 RM'000	Due year 2007 to 2010 RM'000	Due year 2011 to 2048 RM'000	Total RM'000

Note (a)

The GoM has agreed that the lease rental payable from 2004 be temporarily suspended until the Group's negotiations with GoM to restructure its obligations are formalised. The commitment disclosed due in the year 2006 is in relation to the fixed payment amount since the effective commencement year 2004, which remains unpaid to-date.

15. SUBSEQUENT EVENTS

There were no material events subsequent to the end of the financial quarter under review.

16. PERFORMANCE REVIEW

	3 months	3 months ended		ended
	30.06.2006 RM'000	30.06.2005 RM'000	30.06.2006 RM'000	30.06.2005 RM'000
Revenue	283,727	266,299	595,023	563,928
Profit before taxation	51,469	65,151	135,145	137,838

The consolidated revenue of the Group for the financial quarter under review and financial year-to-date were higher than the corresponding period last year mainly due to the overall higher revenue achieved in the airport services, retail and hotel business segments. The profit before tax of the financial quarter under review and financial year-to-date were however slightly lower as compared to the corresponding period last year due to lower profitability registered by several business segments.

17. MATERIAL CHANGE IN PROFIT BEFORE TAXATION OF CURRENT QUARTER COMPARED WITH PRECEDING QUARTER

	3 months	3 months ended		
	30.06.2006 RM'000	31.03.2006 RM'000		
Revenue	283,727	311,296		
Profit before taxation	51,469	83,676		

The revenue of the Group during the financial quarter under review was 8.86% lower than the immediate preceding quarter. This was mainly due to the lower revenues registered by the event management business segment as compared to the preceding quarter where revenues for this segment was higher due to the Formula One event in March 2006. The profit before tax of the Group for the financial quarter under review was 38.49% lower than the preceding financial quarter mainly due to higher operations costs incurred by the Group.

18. COMMENTARY ON PROSPECTS

The Group expects the airport services business segment to continue to contribute significantly to the consolidated revenue of the Group for the current financial year. Therefore, revenue stream of the Group would be highly dependant on the passenger movements at the airports operated by the Group. Barring adverse circumstances on the propensity for air travel, the Group expects to register a growth in the passenger movements for the current financial year.

Any possible impact on the financial performance of the Group for the current financial year arising from the domestic route rationalisation scheme between Malaysia Airlines and AirAsia as well as Malaysia Airlines' turnaround plan for its international routes can only be gauged after their respective implementation.

The Group is currently in discussion with the Government of Malaysia on the proposed corporate and financial restructuring of the Group in order to address several financial issues affecting the Group. The Group expects its financial performance for the current financial year to be affected by the outcome of the abovementioned proposal.

The effective tax rates for the current quarter and previous quarter and financial periods ended 30 June 2006 and 30 June 2005 were higher than the statutory tax rate principally due to the losses of certain subsidiaries which cannot be set off against taxable profits made by other subsidiaries, and certain expenses which are not deductible for tax purposes.
