The current year appears more promising as steadier measures are taken by the government towards spurring the economy by transitioning the country from the pandemic phase to an endemic phase starting 1 April 2022.

However, current economic situation continues to present challenging business conditions for the Group. Higher operational costs in terms of rising cost of wages, utilities, logistics, other operational expenses and also fluctuations in foreign currency exchange rates remain as main challenges for the Group.

Efforts will continuously be made in improving the performance of the respective segments.

The Board of Directors believes that the performance of the Group for the financial year 2022/2023 will be challenging in view of the current economic conditions.

Notwithstanding the above, the Group will remain resilient and vigilant in addressing these challenges in its' business activities moving forward.
