19. Loans and Borrowings

The Group has no loans and/or borrowings as at 30 June 2011.

20. Off Balance Sheet financial instruments

The Group does not have any financial instruments with off balance sheet risk as at the date of this quarterly report.

21. Material litigation

The Company and its subsidiaries have no outstanding material litigation as at the date of this announcement.

22. Comparison between the current quarter and the immediate preceding quarter

Current quarter recorded an increase in consolidated revenue of RM13.5 million or 19% from RM70.1 million in immediate preceding quarter to RM83.6 million in current quarter. The revenue growth was spurred mainly by global bandwidth sales entered by the Group in current quarter. Other product segments such as data and voice also contributed to the improved revenue.

The Group's profit before tax for the current quarter of RM28.6 million was RM5.7 million higher than the consolidated profit before tax recorded in the first quarter of 2011 of RM22.9 million mainly due to higher revenue from the global bandwidth sales as mentioned above.

23. Review of performance for the current guarter and year-to-date

(a) Quarter 2, 2011 versus Quarter 2, 2010

The Group recorded a small growth in consolidated revenue of RM83.6 million in the current quarter as compared to RM83.2 million in the corresponding quarter of the preceding financial year, primarily due to higher revenue from data services offset by lower voice and global bandwidth sales.

Profit before tax and profit before tax margin at RM28.6 million and 34% respectively were, however, well-above the RM23.0 million and 28% reported in the corresponding period in 2010 respectively, mainly due to the reduction in wayleave fees to PLUS as mentioned in Note 5 above and higher dividend income from available-for-sale financial asset.

(b) Half year period ended 30 June 2011 ("HY2011") versus half year period ended 30 June 2010 ("HY2010")

The Group's consolidated revenue for HY2011 of RM153.7 million has out-performed HY2010 by RM5.5 million or 4%, mainly attributed to higher revenue from data services partially offset by reduction in voice revenue.

The Group posted a consolidated profit before tax of RM51.5 million in HY2011, which is an increase of RM9.7 million or 23% compared to the consolidated profit before tax of RM41.8 million in HY2010. The improved results would be attributed mainly to higher revenue, improved margins and lower wayleave fees despite a higher depreciation charge due to additional capital expenditure incurred on the Group's network expansion.

24. Prospects

2011 is expected to be a challenging year for the Group. To meet these challenges, the Group will focus on expanding coverage in key market segments, strengthening and simplifying its network, offering more complete end-to-end communication solutions, managing its costs to improve operating margins, whilst at the same time aiming to increase its share in each of the Group's addressable market segments.

The TdC and Astro collaboration agreement, signed in March 2011 is expected to extend the Group's reach in the consumer market while at the same time expand the Group's network coverage to include prime residential areas in key cities.

In addition, the Group had, on 25 April 2011, entered into a Shareholders Agreement with twenty three (23) other parties to form a consortium under the name of Konsortium Rangkaian Serantau Sdn. Bhd. The consortium was formed in support of the government's initiative under the Economic Transformation Programme for the purpose of implementing one of the entry point projects ("EPPs") entitled "Regional Network" to lower the costs of IP transit and domestic bandwidths through the aggregation of the demand of bandwidth capacity of all the consortium members (as a form of buying power) to secure lower prices from suppliers. This is expected to eventually translate to better terms for the Group's internet access and broadband customers.

The Group had entered the global bandwidth business in financial year 2010, offering wholesale services to the industry. The Group expects this business to continue in financial year 2011. The nature of transactions in this business constitutes both one-time and recurring revenues. As such, on a periodic reporting basis, the Group does not expect linear or consistent contributions from this area of business.

Barring any unforeseen circumstances, the results of the Group for the financial year ending 31 December 2011 is expected to remain positive.
