Other than above, the Group does not have any financial instruments with off balance sheet risk as at the date of this quarterly report.

### 21. Material litigation

The Company and its subsidiaries have no outstanding material litigation as at the date of this announcement.

## 22. Comparison between the current quarter and the immediate preceding quarter

Consolidated revenue for the current quarter of RM133.0 million was RM11.2 million or 9% higher than the consolidated revenue of RM121.8 million recognised in the quarter ended 31 December 2012. The increase was mainly due to higher contribution from data revenue of RM12.0 million in the current quarter, which included revenue from a one-time non-recurring contract worth approximately RM17.0 million of which RM8.5 million was recognised in the current quarter. Data revenues were also higher in the current quarter due to increased global bandwidth sales and take-up from Astro IPTV subscribers.

The Group's profit before tax for the current quarter of RM37.9 million was RM13.6 million lower than the consolidated profit before tax recorded in the fourth quarter of 2012 of RM51.5 million. The lower consolidated profit before tax could be attributed to lower dividend income from the Group's investments in quoted securities during the quarter. Profit from operations during the quarter was, however, higher at RM31.4 million due to increased data revenue as mentioned above and the RM3.5 million expense for the Special Restricted Share Plan granted to certain employees in the previous quarter.

#### 23. Review of performance for the current quarter against preceding year corresponding quarter

Revenue grew by RM51.7 million or 64% from RM81.3 million as recorded in the first quarter of 2012 to RM133.0 million in the current quarter. The improvement in the current quarter was mainly due to new revenue contribution of RM28.2 million from the Group's acquisitions (which were completed in May 2012) and higher data revenue from the Group's existing business (including the one-time revenue recognised from a mobile operator for RM8.5 million). Voice revenue was however RM0.7 million lower in the current quarter due to lower international interconnect traffic and lower usage due to the number of public holidays during the quarter.

The Group posted a current quarter consolidated profit before tax of RM37.9 million, which was an increase of RM8.3 million or 28% compared to the consolidated profit before tax of RM29.6 million in the corresponding period in 2012. The increase was mainly due to profit attributable to the acquisitions of RM5.8 million and higher revenue from the Group's existing businesses despite higher depreciation charge on additional capital expenditure incurred on the Group's network expansion, increased finance expenses on borrowings and lower dividend income.

## 25. Prospects

The Group will continue its efforts to increase market share in 2013 by improving its product and solution offerings, enhancing operational and cost efficiencies throughout the Group while further expanding and strengthening its network and coverage footprints. Demand for higher speed bandwidth services and fibre connectivity requirements by mobile operators for their network modernization and LTE network rollout are expected to provide avenues for additional data revenue to the Group in 2013.

The Group will also leverage on the growth of its data centre and global bandwidth businesses in 2013, which will be the first year that both businesses are fully integrated into the Group. In addition to organic growth, the Group will seek out new growth opportunities with an emphasis on regional wholesale bandwidth, international submarine cable systems and data centre markets, particularly in the ASEAN region.

Coverage and network expansion into the small-to-medium enterprise and consumer space via the Group's Fibre-to-the-Office ("FTTO") and Fibre-to-the-Home ("FTTH") initiatives and partnership with Astro may require higher costs for initial set up and deployment. Further, new data centre and other potential expansion initiatives may in the initial stage also result in some margin compression whilst revenue growth is expected to be progressive. The said initiatives are, however, expected to benefit the Group in the longer term.

#### 26. Profit Forecast and Profit Guarantee

The Group has not provided any profit forecast or profit guarantee in any public document.
