NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 SEPTEMBER 2018

PART A – EXPLANATORY NOTES PURSUANT TO FINANCIAL REPORTING STANDARDS (“FRS”) 134

1. Basis of Preparation

The interim financial report is unaudited and has been prepared in compliance with FRS 134 - Interim Financial Reporting issued by the Malaysian Accounting Standards Board and International Accounting Standard (“IAS”) 34 : Interim Financial Reporting issued by the International Accounting Standard Board (“IASB”) and Appendix 9B Part A of the Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”).

The interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2017. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2017.

2. Changes in Accounting Policies

At the beginning of the current financial year, the Group and the Company adopted FRS and amendments to FRSs which are mandatory for the financial periods beginning on or after 1 January 2018.

Initial application of the amendments/improvements to standards did not have material impact to the financial statements.

Standards issued but not yet effective

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been published by the Malaysian Accounting Standards Board (“MASB”) but are not yet effective, and have not been early adopted by the Group and the Company.

Management anticipates that all relevant pronouncements will be adopted in the Group’s and in the Company’s accounting policies for the first period beginning after the effective date of pronouncement. Information on new standards, amendments and interpretations that are expected to have impact on the Group’s and the Company’s financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group’s and Company’s financial statements.

Malaysian Financial Reporting Standards ("MFRSs")

To converge with International Financial Reporting Standards ("IFRSs") in 2012, the MASB had on 19 November 2011, issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRSs"), which are mandatory for annual financial periods beginning on or after 1 January 2012, with the exceptions of entities that are within the scope of MFRS 141 Agriculture and MFRS 15 Revenue from Contracts with Customers for Construction, including its parents, significant investor and venture ("Transitioning Entities").

Transitioning Entities will be allowed to defer adoption of the new MFRSs. Consequently, adoption of the MFRSs by the Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2018.

The Company falls within the scope of Transitioning Entities and has opted to defer adoption of MFRSs. Accordingly, the Group and the Company will be required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the financial year ending 31 December 2018.

In presenting its first MFRS financial statements, the Group and the Company will be required to restate their comparative financial statements to amounts reflecting the application of MFRS framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained earnings/(accumulated losses).

The Group and the Company expect to be in a position to fully comply with the requirements of the MFRS Framework for the financial year ending 31 December 2018. The initial application of the MFRS Framework is not expected to have any financial impact to the financial statements.

The Group and the Company have not applied the following MFRS that have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective for the Group and the Company:

<u>MFRSs, Amendments to MFRSs and IC Interpretation effective on 1 January 2018:</u>

MFRS 9	Financial Instruments IFRS 9 issued by International Accounting Standards Board ("IASB") in July 2014

* Not applicable to the Company's operation
\# Not applicable to the Group's operations

The initial application of the above standards, amendments and interpretation are not expected to have any significant financial impacts to the financial statements, except for:

MFRS 9 Financial Instruments

MFRS 9 Financial Instruments replaces MFRS 139 Financial Instruments: Recognition and Measurement and all previous versions of MFRS 9. MFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. MFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

The Group and the Company plan to adopt the new standard on the required effective date and will not restate comparative information. During 2017, The Group and the Company have performed a high-level impact assessment of all three aspects of MFRS 9. This assessment is based on currently available information and may be subject to changes arising from further reasonable and supportable information being made available to the Group and the Company in 2018 when the Group and the Company will adopt MFRS 9. Overall, the Group and the Company expect no significant impact on its statements of financial position and equity.

Malaysian Financial Reporting Standards ("MFRSs")(cont'd)

MFRS 9 Financial Instruments (cont'd)

(i) Impairment of financial assets

MFRS 9 requires the Group and the Company to record expected credit losses on all of its loans and trade receivables, either on a 12-month or lifetime basis. The Group and the Company will apply the simplified approach and record lifetime expected losses on the trade receivables. The Group and the Company have determined that the loss allowance adjustment is insignificant to the financial statements.

In summary, the Group and the Company expect no significant impact in MFRS 9 adoption.

MFRS 15 Revenue from Contracts with Customers

MFRS 15 establishes a five-step model to account for revenue arising from contracts with customers. Under MFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under MFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018, with early adoption permitted. The Group plans to adopt the new standard on the required effective date using the full retrospective method.

(i) Sale of goods

For contracts with customers in which the sale of equipment is generally expected to be the only performance obligation, adoption of MFRS 15 is not expected to have any impact on the Group's revenue and profit or loss. The Group expects the revenue recognition to occur at a point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

In preparing to adopt MFRS 15, the Group considers the following:

Variable consideration

Some contracts with customers provide a right of return, trade discounts or volume rebates. Currently, the Group recognises revenue from the sale of goods measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. If revenue cannot be reliably measured, the Group defers revenue recognition until the uncertainty is resolved. Such provisions give rise to variable consideration under MFRS 15 and will be required to be estimated at contract inception and update thereafter.

Malaysian Financial Reporting Standards ("MFRSs")(cont'd)

MFRS 15 Revenue from Contracts with Customers (cont'd)

Variable consideration (cond't)

MFRS 15 requires the estimated variable consideration to be constrained to prevent over-recognition of revenue. The Group expects that application of the constraint will result in more revenue being deferred than under current MFRS.

Rights of return

When a contract with a customer provides a right to return the goods within the specified period, the Group currently accounts for the right of return using the probability-weighted average amount of return approach similar to the expected value method under MFRS 15. Under the current accounting policy, the amounts of revenue related to the expected returns is deferred and recognised in the statements of financial position within trade and other payables. A corresponding adjustment is made to the cost of sales. The initial carrying amount of goods expected to be returned is included within inventories.

Under MFRS 15, because the contract allows the customer to return the products, the consideration received from the customer is variable. The Group has decided to use the expected value method to estimate the goods that will be returned because this method better predicts the amount of variable consideration to which the Group will be entitled. The Group will apply the requirements in MFRS 15 on constraining estimates of variable consideration to determine the amount of variable consideration that can be included in the transaction price. Under MFRS 15, the Group presents a refund liability and an asset for the right to recover products from a customer separately in the statements of financial position.

Volume rebates

The Group provides retrospective volume rebates to its customers on all products purchased by the customers once the quantity of products purchased during the period exceeds a threshold specified in the contract. Under its existing accounting policy, the Group estimates the expected volume rebates using the probability-weighted average amount of rebates approach. These amounts may subsequently be repaid in cash to the customers or are offset against amounts payable by customers.

Under MFRS 15, retrospective volume rebates give rise to variable consideration. To estimate the variable consideration to which it will be entitled, the Group considered that the most likely amount method better predicts the amount of variable consideration for contracts with only a single volume threshold while for contracts with more than one volume threshold it would apply either the expected value method or the most likely amount method, depending on which of them better predicts the amount of variable consideration for the particular type of contract.

Malaysian Financial Reporting Standards ("MFRSs")(cont'd)

MFRS 15 Revenue from Contracts with Customers (cont'd)

(ii) Presentation and disclosure requirements

The presentation and disclosure requirements in MFRS 15 are more detailed than under current MFRS. The presentation requirements represent a significant change from current practice and significantly increases the volume of disclosures required in the Group's financial statements. Many of the disclosure requirements in MFRS 15 are new and the Group has assessed that the impact of some of these disclosures requirements will be significant.

(iii) Other adjustments

The recognition and measurement requirements in MFRS 15 are also applicable for recognition and measurement of any gains or losses on disposal of non-financial assets (such as items of property, plant and equipment), when that disposal is not in the ordinary course of business. However, on transition, the effect of these changes is not expected to be material for the Group

MFRS 16 Leases

MFRS 16 replaces MFRS 117 Leases. MFRS 16 eliminates the distinction between finance and operating leases for lessees. As off-balance sheet will no longer be allowed except for some limited practical exemptions, all leases will be brought onto the statement of financial position by recognising a "right-of-use" asset and a lease liability. In other words, for a lessee that has material operating leases, the assets and liabilities reported on its statement of financial position are expected to increase substantially.

MFRS 16 also:

- changes the definition of a lease,
- sets requirements on how to account for the asset and liability, including complexities such as non-lease elements, variable lease payments and option periods,
- changes the accounting for sale and leaseback arrangements,
- largely retains MFRS 117's approach to lessor accounting, and
- introduces new disclosure requirements.

The adoption of MFRS 16 will result in a change in accounting policy. The Group is currently assessing the financial impact of adopting MFRS 16.

3. Status of Audit Opinions

The auditors' report on the financial statements for the financial year ended 31 December 2017 was not subject to any qualification.

4. Items of Unusual Nature and Amount

There were no unusual items affecting assets, liabilities, equity, net income or cash flow during the current quarter under review and financial year-to-date.

5. Seasonal or Cyclical Factors

The demand for certain imaging and information technology products are seasonal in nature and the sales of these products are usually higher towards the end of the financial year due to festive seasons.

6. Nature and Amount of Changes in Estimates

There were no changes in the estimates of amounts reported in the prior interim period of the current financial year or changes in the estimates of amounts reported in the prior financial years that have a material effect in current quarter under review and financial year-to-date.

7. Debt and Equity Securities

There were no issuances, repurchases or repayments of debt and equity securities during the current quarter under review and financial year-to-date.

8. Dividends Paid

There were no dividends paid during the current quarter under review and financial year-to-date.

The Group registered revenue of approximately RM5.0 million for the current quarter ended 30 September 2018, which was approximately RM0.7 million higher as compared to the preceding year corresponding quarter ended 30 September 2017 of approximately RM4.3 million. The increase in revenue was mainly attributable to various aggressive promotional activities carried out during the current quarter.

The Group recorded a loss before taxation (“LBT”) during the current quarter ended 30 September 2018 of approximately RM1.6 million which was approximately RM 1.4 million lower as compared to the preceding year corresponding quarter ended 30 September 2017 of approximately RM 3.1 million. The lower LBT were mainly due to the absence of VSS which amounted to approximately RM 1 million and provision of stock obsolesces amounted to approximately RM0.4 million.

The Group recorded a loss after taxation (“LAT”) during the current quarter ended 30 September 2018 of approximately RM 1.6 million which was approximately RM 1.4 million lower as compared to the preceding year corresponding quarter ended 30 September 2017 of approximately RM 3.0 million. The factors leading to lower LAT for the current quarter are identical to factors aforementioned.

The Group registered revenue of approximately RM14.7 million for the current year to date ended 30 September 2018, which was approximately RM10.7 million lower as compared to the preceding year to date ended 30 September 2017 of approximately RM 25.5 million. The decrease in the Group’s revenue was due to the weak market sentiment and management’s focus on good pay master customers to mitigate credit risk.

15. Detailed Performance Analysis (cont'd)

The Group recorded a loss before taxation ("LBT") during the current year to date ended 30 September 2018 of approximately RM5.2 million as compared to the preceding year to date ended 30 September 2017 LBT of approximately RM 6.3 million. The current year to date lower LBT and operating losses were mainly due to the absence of VSS in the restructuring plan to reduce cost which amounted to RM 1 million and provision of stock obsolesces by RM 0.4 million in current year to date.

The Group recorded a loss after taxation ("LAT") during the current year to date ended 30 September 2018 of approximately RM5.0 million as compared to the preceding year to date ended 30 September 2017 LAT of approximately RM 6.2 million. The reason of lower LAT are identical with the factor aforementioned in LBT for the current year to date.

	Current Quarter	Immediate Preceding Quarter	Changes	
	30 Sept 2018	**30 June 2018**	**RM**	**%**

Loss attributable to ordinary equity holder of the parent	(1,389)	(1,718)	329	19.2

The Group registered revenue of approximately RM 5.0 million for the quarter ended 30 September 2018, which remain relatively consistent as compared to immediate preceding quarter ended 30 June 2018 of approximately RM 5.0 million.

The Group recorded an operating Losses and Loss before interest & tax ("LBIT") of approximately RM 1.5 million for the quarter ended 30 September 2018, which was approximately RM 0.3 million lower as compared to the immediate preceding quarter ended 30 June 2018. The lower loss was mainly due to the decrease of administrative expenses of approximately RM 0.3 million.

The Group recorded LAT of approximately RM 1.6 million for the quarter ended 30 September 2018, which was approximately lower by RM 0.3 million as compared to the immediate preceding quarter ended 30 June 2018. The reason for the lower LAT for the current quarter are as per the explanation mentioned above for LBIT.

16. Current Year Prospect

The Board is of the view that, barring any unforeseen circumstances, the trading and distribution business is expected to remain challenging given the competitive market. Nevertheless the Company has confidence that we will be able to realise our objective to maintain our position as one of the major distributors of information technology and imaging products in the country. At the same time, the Company will continuously develop the market for the other business activities that have been identified namely the joint development of land, Gaharu and solar projects.

17. Profit Forecast or Profit Guarantee

The disclosure requirements for explanatory notes on the variance of actual profit and forecast profit and on shortfall in profit guarantee are not applicable.

18. Tax Expense

	Current Year Quarter Ended 30 Sep 2018 RM'000	Corresponding Quarter Ended 30 Sep 2017 RM'000	Current Year To Date 30 Sep 2018 RM'000	Corresponding Period Ended 30 Sep 2017 RM'000

The Group's recognised tax expense despite loss before taxation mainly due to certain expenses being disallowed for taxation purposes, and losses of certain subsidiaries which cannot be set off against taxable profits made by other subsidiaries.

19. Status of Corporate Proposals

On 23 November 2018, on behalf of the Board of Directors of Compugates, M&A Securities Sdn Bhd announced that an application for extension of time of six (6) months up to 11 June 2019 to complete the Private Placement has been submitted to Bursa Malaysia Securities Berhad on 22 November 2018.

On 23 November 2018, CDMSB had received RM4,100,000 of the Cash Portion from Jade Classic Sdn Bhd and had utilised the entire RM4,100,000 to repay bank borrowings, payment to trade creditors and for operating and administrative expenses. Pursuant to the above, the Board of Directors of Compugates announced that it proposes to seek ratification for the Company's utilisation of proceeds pursuant to the Joint Development ("Proposed Ratification").

Arising from the Proposed Ratification, the Board also proposes to vary the utilisation of proceeds of the remaining balance of RM1,000,000 of the Cash Portion ("Proposed Development Variation"),

In addition, on 17 July 2018, the shareholders of Compugates had approved the private placement of up to 586,929,400 new ordinary shares in Compugates ("CHB Shares"), representing not more than 25% of the issued shares in Compugates ("Private Placement"). At an indicative issue price of RM0.025 per share, the Private Placement is expected to raise total gross proceeds of approximately RM13,499,376. Part of the proceeds from the Private Placement was to repay bank borrowings and trade creditors. Arising from the Proposed Ratification, the Board proposed to vary the utilisation of proceeds to be raised from the Private Placement ("Proposed Placement Variation").

On 30 August 2018, the Board of Directors of Compugates announced that the last fulfilment of the conditions precedent stipulated in Sections 3A.1(a), 3A.1(b) and 3A.1(c) ("Conditions Precedent") of the JVA has been met. Compugates Development And Mining Sdn Bhd, a 70%-owned sub-subsidiary of Compugates has on 29 August 2018, received a sum of RM2 million out of the RM5 million to be received from Jade Classic Sdn Bhd upon the last fulfilment of the Conditions Precedent.

26. Profit / (Loss) per Share

The profit / (loss) per share is calculated by dividing the Group's loss attributable to equity holders of the parent for the financial period over the number of ordinary shares in issue during the financial period as follows:-

	Current Year Quarter Ended 30 Sep 2018	**Corresponding Quarter Ended 30 Sep 2017**	**Current Year To Date 30 Sep 2018**	**Corresponding Period Ended 30 Sep 2017**
Profit / (loss) attributable to equity holders of parent (RM'000)	(1,389)	(2,820)	(4,496)	(5,657)
Number of ordinary shares in issue ('000) (FY2016:RM0.10) each	2,347,718	2,134,289	2,347,718	2,134,289
Basic profit / (loss) per share (sen)	(0.06)	(0.13)	(0.19)	(0.27)

The diluted profit / (loss) per share is equivalent to basic profit / (loss) per share as there were no potential ordinary shares outstanding which are dilutive in nature at the end of reporting period.
