	Q1 RM'000	Q6 RM'000
Revenue	17,386	27,625
(Loss)/Profit before tax	(8,282)	4,648

For the current quarter under review, the Group registered a consolidated loss before tax of RM8.3 million compared to a profit before tax of RM4.6 million in the preceding quarter mainly due to lower revenue and higher production costs.

#### 14. Current year prospects

The current quarter was challenging as the subdued demand for tiles and the unprecedented increase in gas costs. Nonetheless, recent corrections in price should have a positive impact on the Group's margins going forward.

The economy continues to rise to the new challenges presented by the ongoing global crisis, which continues to create a high inflationary environment and disruption in the supply chain globally. However, the tile industry should witness a gradual demand pickup after Malaysia's general election due to continued traction in the real estate sector and the government's focus on infrastructure spending despite of high input costs and increasing interest rates.
