Additional Information on Interim Financial Report required by the Bursa Malaysia Listing Requirements

12. Review of performance

For the current quarter under review, the Group recorded a lower turnover of RM29.0 million compared to RM34.4 million for the corresponding quarter in 2015 mainly due to lower sales volume. As a result, the Group registered a loss before tax of RM0.5 million as compared to profit of RM3.2 million for the corresponding quarter in 2015.

On a cumulative basis for the year 2016, the turnover decreased by 5.4% to RM128.9 million (2015 – RM136.2 million) and profit before tax decreased by 50.4% to RM6.1 million (2015 – RM12.3 million) due to the reason stated above.

13. Variation of results against the preceding quarter

In the current quarter under review, the Group registered a consolidated loss before tax of RM0.5 million compared to profit before tax of RM0.3 million in the preceding quarter due to lower sales volume.

14. Current year prospects

The domestic market outlook for Malaysian manufacturers of tiles is becoming increasingly uncertain. The stiff competition from imported tiles, coupled with the slower growth in domestic demand which is attributable to the slowdown in economic growth, will continue to be a headwind for Yi-Lai's overall topline results.

Going forward, the prudent inventory management and credit controls will be the main pillars of Yi-Lai's conservative operations philosophy. While the potential for cost increases due to the government policies and fluctuation in foreign exchange remain a concern, Yi-Lai is proactively pursuing cost containment exercises as well as strategies to increase capacity utilization.

Barring any unforeseen circumstance, the Group will strive to achieve satisfactory financial results for the financial year ending 31 December 2017.
