OUARTERLY REPORT FOR THE FOURTH OUARTER ENDED 31 DECEMBER 2007

PART A - Explanatory Notes Pursuant to Financial Reporting Standard 134 ("FRS 134") Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB")

A1. Accounting policies

The quarterly report has been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting issued by the MASB. The report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2006 and the accompanying explanatory notes. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2006.

OSK Investment Bank Berhad (formerly known as OSK Securities Berhad) ("OSKIB") has been given a year from the date of inception of its investment bank status to comply with the requirements of the "Revised Guidelines on Financial Reporting for Licensed Institutions" ("BNM/GP8"). Therefore, the Group and OSKIB are required to comply with BNM/GP8 for the financial statements beginning 1 January 2008.

The significant accounting policies and methods of computation adopted by the Group in this quarterly report are consistent with those of the annual financial statements for the year ended 31 December 2006 except for the adoption of the following new and revised Financial Reporting Standards and Amendment issued by MASB that are effective for financial statements beginning 1 January 2007: -

FRS 6 Exploration for and Evaluation of Mineral Resources

FRS 117 Leases

FRS 124 Related Party Disclosures

Amendment to FRS 119 2004 Employee Benefits

The Group has adopted early the Amendment to FRS 121: -

Amendment to FRS 121 The Effects of Changes in Foreign Exchange Rates

- Net Investment in a Foreign Operation

FRS 6 is not relevant to the Group's operations. The adoption of Amendment to FRS 119 ₂₀₀₄, FRS 124 and Amendment to FRS 121 does not have a significant financial impact on the Group. The effects of the changes in accounting policies resulting from the adoption of FRS 117 are as follows:-

FRS 117: Leases

(a) Leasehold land held for own use

Prior to 1 January 2007, leasehold land held for own use was classified as property, plant and equipment and was stated at cost less accumulated depreciation and impairment losses. The adoption of the revised FRS 117 has resulted in a change in the accounting policy relating to the classification of leases of land and buildings. Leases of land and buildings are classified as operating or finance leases in the same way as leases of other assets and the land and buildings elements of a lease of land and buildings are considered separately for the purposes of lease classification. Leasehold land held for own use is now classified as operating lease, the minimum lease payments or the upfront payments made are allocated between the land and the buildings elements in proportion to the relative fair values for leasehold interests in the land element and buildings element of the lease at the inception of the lease. The upfront payment represents prepaid lease payments and are amortised on a straight-line basis over the lease term.

QUARTERLY REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2007

A1. Accounting policies (Cont'd)

FRS 117: Leases (Cont'd)

(a) Leasehold land held for own use (Cont'd)

Upon adoption of the revised FRS 117 on 1 January 2007, the unamortised amount of leasehold land is retained as the surrogate carrying amount of prepaid lease payments as allowed by the transitional provisions. There were no effects on the consolidated income statement for the preceding year to date. The restatement of certain comparatives are shown below:

Consolidated Balance Sheets	As previously stated RM'000	Effect of FRS 117 RM'000	As restated RM'000
As at 31 December 2006	KW 000	KINI OOO	IXIVI OOO
Property, plant and equipment	171,736	(11,146)	160,590
Prepaid land lease payments	-	11,146	11,146

(b) Initial direct costs

Prior to 1 January 2007, the Group, as a lessor in operating lease arrangements, had recognised initial direct costs incurred in negotiating and arranging leases as an expense in the income statement in the period in which they were incurred. The revised FRS 117 requires such costs to be added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease income. According to the revised FRS 117, this change in accounting policy should be applied retrospectively. The Group does not incur significant initial direct costs on negotiating and arranging leases and as a result, this change in accounting policy did not materially affect the financial statements of the Group.

A2. Auditors' report of preceding annual financial statements

The audit report of the Group's preceding year financial statements was not qualified.

A3. Seasonal or cyclical factors

There were no significant seasonal or cyclical factors that will materially affect the business operations of the Group for the period under review other than the stock broking operations which is dependent on the performance of stock market; and the profit of OSK Ventures International Berhad ("OSKVI") group, a subsidiary group of the Company, is influenced by, amongst others, the share of profits of associated companies as well as the timing of disposal of investments by OSKVI group.

A4. Unusual items affecting assets, liabilities, equity, net income or cash flows

There were no unusual items affecting the financial statements for the current year.

PART B - Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities")

B1. Review of the performance of the Company and its principal subsidiaries

(Commentary on current quarter and current year)

In 2007, the OSK Group achieved record profits since its listing on Bursa Malaysia in 1991. The main contribution to the Group's performance was from OSK Investment Bank, which has just completed its maiden year as a full fledged investment bank, but the strong performance was broad-based as all business segments contributed significantly to the Group's results.

The Group attained revenues of RM1.18 billion, pre-tax profit ("PBT") of RM404.96 million and profit after tax (but before minority interests) of RM300.12 million in 2007, with strong growth in all segments of our business, from regional Equities and Futures to Investment Banking, Private Equity and Fund Management.

Revenue for 2007 was more than double that of 2006, and PBT rose two and a half times, as the Group achieved profit after tax (and after minority interest) of RM253.08 million. This translates to earnings per share of 39.51sen, up 141% from 16.35sen in 2006.

The Group's regional Equities and Futures business in Malaysia, Hong Kong and Singapore was the biggest contributor, making up 50% of Group PBT. This is made up of 28% of PBT contribution from the Malaysian Equities and Futures business and 22% from the Hong Kong and Singapore business.

The Group's Investment Banking business accounted for 29% of PBT, with significant contributions from the derivatives business, treasury, debt capital markets and corporate finance. The Private Equity business accounted for 8% of PBT while Equity Financing and Unit Trust contributed to 5% and 4% of PBT respectively. The remaining 4% of PBT was from the Properties business.

The strong results were partly due to the strong regional equity markets in Hong Kong, Singapore and Malaysia, but a large part of the growth in PBT also came from the relatively new businesses under the investment banking division. As the Group had established many new lines of businesses on top of our traditional Malaysian stock broking business, the Group was able to take advantage of the buoyant capital markets to grow the investment banking business significantly.

On a quarter-to-quarter basis, the Group's revenue improved by 91% to RM306.22 million for the fourth quarter compared to RM160.63 in the fourth quarter of 2006. Correspondingly, the Group's pre-tax profit for the quarter also increased by 60% to RM67.33 million.

QUARTERLY REPORT FOR THE FOURTH QUARTER ENDED 31 DECEMBER 2007

B2. Material change in quarterly profit before taxation

(Comparison on current quarter with immediate preceding quarter)

The Group recorded a pre-tax profit of RM67.33 million for the fourth quarter of 2007, compared to RM90.44 million achieved in the immediate preceding quarter. The reduction in pre-tax profit arose mainly due to a decline in capital market activities in Asian markets due to the concerns surrounding the US and European markets.

Profit contribution from the Equities and Futures business declined from RM42.10 million in the third quarter to RM29.95 million in the fourth quarter, and profit from Investment Banking activities decreased from RM33.29 million to RM24.62 million. The Private Equity business recorded losses in the fourth quarter due to no major divestments of its investment portfolio, and negative equity accounting from losses incurred by its associate companies.

However, the Unit Trust business recorded stronger profits in the fourth quarter, with PBT of RM5.27 million compared to RM3.25 million in the third quarter. The Properties business also showed an improvement, with PBT of RM7.44 million compared to RM4.09 million in the third quarter of 2007.

B3. Current year prospects and progress on previously announced revenue or profit forecast

(a) Current year prospects

(Commentary on the current year 2008)

The regional capital markets have started to slow down in the fourth quarter of 2007 as a result of the concerns surrounding the US and European markets. The expectations of a recession in the US, further subprime-related write-downs by global banks and the inflationary environment driven by record crude oil and other commodity prices have collectively caused uncertainty in the global capital markets.

Against such a backdrop, the Group expects the first half of 2008 to be a challenging period for the capital markets in which we operate. Trading volumes may be lower, and capital market activities may slow down further. However, the OSK Group remains fundamentally strong with healthy financials and we expect the Group to resume its growth after this period of uncertainty is over.

While the Equities and Futures business still relies heavily on the volume of trading in the regional markets, the Group's other businesses may help to buffer any slowdown in trading volume. The pipeline of mandates in the Malaysian corporate finance and debt capital markets business is strong, the treasury business has plenty of room to grow and the derivatives business looks set to record another year of strong results. Furthermore, we expect maiden contributions from the Singapore and Hong Kong Investment Banking businesses to help buffer the Group's performance in the year ahead.

The Board is confident that the Group will be able to achieve a better performance in 2008 despite the challenges in the market and maintain its strong earnings for our shareholders in 2008.

The Plaintiffs commenced an action against the Defendants on 14 November 2003 seeking, inter-alia, a declaration that a charge registered in favour of OSKC is void, damages in the sum of RM20,000,000, general damages, interest and costs and claiming against OSKC/OSKNT for negligence, breach of duty, fiduciary duty and unjust enrichment in relation to a facility of RM13,000,000 granted to Azari by OSKC. OSKC and OSKNT have filed their defence on 17 February 2004.

OSKC and OSKNT have also filed an application to strike out the Plaintiffs' Writ of Summons and Statement of Claim on the basis that the filing of the action by the Plaintiffs was frivolous and vexatious. OSKC and OSKNT have also filed an application under Order 14A of the Rules of the High Court, 1980 to dispose of the Plaintiffs' prayers in seeking the declarations that the charges are inequitable and/or illegal in light of the order for sale and successful auction of the charged land. The striking out application is fixed for decision on 13 March 2008 whilst the Order 14A application has been fixed for further mention on 14 April 2008.

OSKC and OSKNT had filed an application for security for costs against the Chargor on 23 August 2006 and the said application was dismissed by the Court on 6 April 2007. The Plaintiffs have on 4 May 2007 filed the notice to attend case management before trial.

The solicitors in charge of this matter are of the view that OSKC and OSKNT stand a reasonable chance of success in dismissing the Plaintiffs' claim.

Asset Investments Pte. Ltd. ("the Plaintiff") vs O.S.K. & Partners Sdn. Bhd. [now known as OSK Investment Bank Berhad (formerly known as OSK Securities Berhad) ("OSKIB")]

The Court of Appeal had on 18 April 2007 allowed OSKIB's appeal and the Judgment against OSKIB has been set aside.

The Plaintiff had on 17 May 2007 filed a Notice of Motion to the Federal Court seeking leave to appeal against the Court of Appeal's decision. The Federal Court has now further postponed the hearing of the leave application fixed on 7 January 2008 to a date to be fixed pending Court of Appeal's written judgment.

As at 31 December 2007, a total of RM58,502,892 (31.12.2006: RM56,344,113) has been provided by OSKIB for interest cost and compensation for this legal suit.
