COMMENTARY ON PROSPECTS

The Group continue to operates in a very competetive industry for the remaining quarters for financial year 2022. There is still uncertainty surrounding the outlook for local and global economy due to on going military conflict in Ukraine and strict containment measures in China which led to logistics bottlenecks, raw materials shortages and rising operational costs.

Amidst the current uncertainty and rising operational costs which will put pressure on the profit margin, the Group will continue to execise caution in managing the Group's business and focus on its core business and will be taking cautious approaches to mitigate the exposure by improving its operational efficiency, product quality and product innovation as a positive step forward to sustain the Group's market position.
