(Company No. 384662-U) (Incorporated in Malaysia)

INTERIM FINANCIAL REPORT FOR THE FINANCIAL PERIOD ENDED 31 JANUARY 2010

NOTES TO THE INTERIM FINANCIAL REPORT

(i) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses, unabsorbed capital allowances and unused Reinvestment Allowance to the extent that it is probable that taxable profit will be available against which the losses, capital allowances and reinvestment allowance can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The total carrying value of unrecognised tax losses and capital allowances of the Group was RM1.708 million (30.4.2009: RM0.833 million).

(ii) Depreciation of plant and equipment

The cost of paper making machinery is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these plant and machinery to be within ten years. These are common life expectancies applied in the industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

4. Auditors' Report on Preceding Annual Financial Statements

The auditors' report on the financial statements for the year ended 30 April 2009 was not subject to any audit qualification.

5. Seasonal or cyclical factors

The business of the Group was not affected by any significant seasonal or cyclical factors during the financial period under review.

6. Unusual items

There were no unusual items affecting assets, liabilities, equity, net income or cash flows of the Group for the current financial period.

7. Changes in estimates

There were no material changes in estimates of amount reported in prior interim period or financial period that have a material effect in the current year.
