3. Significant Accounting Estimates and Judgements

(a) Critical Judgements Made in Applying Accounting Policies

There are no critical judgements made by management in the process of applying the Group's accounting policies that have significant effect on the amounts recognised in the financial statements.

(b) Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the operating date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses, unabsorbed capital allowances and unused reinvestment allowance to the extent that it is probable that taxable profit will be available against which the losses, capital allowances and reinvestment allowance can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The total carrying value of unrecognised tax losses and capital allowances of the Group as at 31 January 2022 was RM136.4 million (30 April 2021: RM128.6 million).

3. Significant Accounting Estimates and Judgements (Cont'd)

(b) Key Sources of Estimation Uncertainty (Cont'd)

(ii) Impairment of property, plant and equipment

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. Impairment exists when the carrying amount of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its value in use and its fair value less cost of disposal.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics.

(iii) Customer rebates

The Group had recognised provision for sales rebate according to the contractual arrangements entered into with its customers. Estimating the provision for sales rebate requires the Group to make an estimate based on historical experiences, contractual arrangement and on the claims expected to be made by customers. The Group assesses the provisions at each reporting date and adjusts to reflect the current best estimate. Where it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision for sales rebate is reversed.

4. Auditors' Report on Preceding Annual Financial Statements

The auditors' report on the financial statements for FY2021 was not subject to any audit qualification.

5. Seasonal or Cyclical Factors

Performance of Q3FY2022 against Q3FY2021

Group revenue for Q3FY2022 was RM209.5 million, an increase of 8.5% as compared to RM193.2 million for Q3FY2021. The increase was due to the increase in sales of both tissue paper and personal care products. Tissue paper and personal care products demand increased as business activities picked up when Malaysia transitioned into Phase 3 (26 October 2021) and Phase 4 (31 December 2021) of National Recovery Plan with lesser restrictive containment measures.

The Group's profit before tax for Q3FY2022 was RM10.5 million, a decrease of 69.9% over RM34.9 million registered in Q3FY2021. Other than the gain on the disposal of subsidiary amounting to RM12.6 million recorded in Q3FY2021, the other causes for the profit decrease include:

- significant increase in cost of raw materials, packaging materials and freight cost;
- higher utility and energy cost
- lower foreign exchange gain; and
- higher selling and distribution expenses.

Tissue Paper Products segment

Revenue from the tissue paper products segment for Q3FY2022 was RM147.7 million, an increase of 9.6% as compared to RM134.8 million for Q3FY2021. The increase in revenue in the paper products segment was due mainly to the increase of demand as mentioned above.

Tissue Paper Products segment (cont'd)

Profit before tax in the tissue paper products segment for Q3FY2022 was RM1.9 million, a decrease of 92.5% over RM25.1 million registered in Q3FY2021. The decrease in profit before tax was mainly due to the gain on the disposal of subsidiary amounting to RM12.6 million recorded in Q3FY2021. Besides, the increase in cost of raw materials, packaging material, and freight cost, the gain-to-loss position on foreign exchange and higher selling and distribution expenses have further widened the period-to-period comparison.

Personal Care Products segment

Revenue from the personal care products segment for Q3FY2022 was RM61.8 million, an increase of 5.9% as compared to RM58.3 million recorded in Q3FY2021. This was mainly driven by the increase in revenue generated from all personal care products except adult diapers products.

Profit before tax in the personal care products segment for Q3FY2022 was RM8.6 million, a decrease of 12.2% over RM9.8 million registered in Q3FY2021. The decrease in profit before tax was mainly due to lower in other income in Q3FY2022.

<u>Performance between 9 Months ended 31 January 2022 ("9MFY2022") and the 9 months ended 31 January 2021 ("9MFY2021")</u>

The Group recorded a revenue of RM564 million in 9MFY2022, which is an 0.5% increase from the RM561.1 million recorded in 9MFY2021. The increase was mainly due to the increase in demand of both products segments as business activities picked up when Malaysia transitioned into Phase 3 (26 October 2021) and Phase 4 (31 December 2021) of National Recovery Plan with lesser restrictive containment measures.

The Group's profit before tax in 9MFY2022 was RM36.5 million, a decrease of 51.2% over RM74.7 million registered in 9MFY2021. The decrease in profit before taxation was mainly caused by the gain on the disposal of subsidiary amounting to RM12.6 million which recorded in 9MFY2021. Besides, the increase in cost of raw materials, packaging material, and freight cost, the gain-to-loss position on foreign exchange and higher selling and distribution expenses have further widened the period-to-period comparison.

Profit before tax in the tissue paper products segment in 9MFY2022 was RM9.3 million, a decrease of 79.4% over RM45.1 million registered in 9MFY2021. Besides, the gain on the disposal of subsidiary amounting to RM12.6 million recorded in 9MFY2021 have further widened the period-to-period comparison.

Personal Care Products segment

Revenue from the personal care products segment in 9MFY2022 was RM171.2 million, an increase of 1.5% as compared to RM168.6 million recorded in 9MFY2021. This was mainly due to the increase in revenue generated from all products except adult and baby diaper products.

Profit before tax in the personal care products segment in 9MFY2022 was RM27.2 million, a decrease of 8.2% over RM29.6 million registered in 9MFY2021. The decrease in profit before tax was mainly due to lower sales recorded in the 6MFY2022. The higher selling and distribution expenses have further decreased the profitability of the Group in the personal care products segment.

Revenue for the Q3FY2022 increased by RM28.7 million or 15.9% as compared to Q2FY2022. The increase was due to the increase in demand as the result of the improvement of business activities when Malaysia transitioned into Phase 3 (26 October 2021) and Phase 4 (31 December 2021) of National Recovery Plan with lesser restrictive containment measures.

The Group's consolidated profit before tax increased by RM4.1 million or 64.8% for Q3FY2022 as compared to Q2FY2022. The increase in profit before taxation was mainly due to improvement in production costs as a result of the level of production returning to 100% since Phase 3 (26 October 2021) of the National Recovery Plan.

16. Prospects

Such optimism is based on the Group's continuous efforts in implementing its cost cutting measures and streamlining its operations as well as focusing on product improvement and quality improvement in both the tissue paper and personal care segment.

As at 31 January 2022, NSPL has not breached the covenant of the term loan. However due to the terms and conditions stated in the banking facilities agreement, the Group has to reclassify these non-current liabilities (RM16.1 million) as current liabilities even though the term loan is not due to be settled within 12 months after the current financial quarter. 21. Derivatives Financial Instruments (cont'd)

Derivatives financial instruments that are not designated or do not qualify for hedge accounting are categorised as fair value through profit or loss and measured at their fair value with the gain or loss recognized in the profit or loss. The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its interest rate risk, credit risk, liquidity risk and foreign currency risk.

There is no change in the significant policy for mitigating or controlling the interest rate risk, credit risk, liquidity risk and foreign currency risk for the Group nor the related accounting policies in 9MFY2022.
