#### 3. Significant Accounting Estimates and Judgements

### (a) Critical Judgements Made in Applying Accounting Policies

There are no critical judgements made by management in the process of applying the Group's accounting policies that have significant effect on the amounts recognised in the financial statements.

### (b) Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the operating date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (i) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses, unabsorbed capital allowances and unused reinvestment allowance to the extent that it is probable that taxable profit will be available against which the losses, capital allowances and reinvestment allowance can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The total carrying value of unrecognised tax losses and capital allowances of the Group as at 31 July 2023 was RM155.5 million (30 April 2023: RM136.2 million).

# (ii) Impairment of property, plant and equipment

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. Impairment exists when the carrying amount of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its value in use and its fair value less cost of disposal.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics.

#### (iii) Customer rebates

The Group had recognised provision for sales rebate according to the contractual arrangements entered into with its customers. Estimating the provision for sales rebate requires the Group to make an estimate based on historical experiences, contractual arrangement and on the claims expected to be made by customers. The Group assesses the provisions at each reporting date and adjusts to reflect the current best estimate. Where it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision for sales rebate is reversed.

# <u>Performance of current financial quarter ended 31 July 2023 ("Q1FY2024") and preceding year corresponding quarter ended 31 July 2022 ("Q1FY2023")</u>

Group revenue for Q1FY2024 was RM223.9 million, an increase of 3.1% as compared to RM217.2 million for Q1FY2023. The increase was mainly due to the increase in sales of both product segments.

The Group's profit before tax for Q1FY2024 was RM2.4 million, representing an 11.2% decrease compared to the RM2.8 million recorded in Q1FY2023. This decrease in profit before tax was primarily due to higher interest expenses and advertising expenses, and the general inflationary pressure on administrative costs, especially the increasing insurance premium due to the growth in premium rates.

Nevertheless, this increase in costs was partially offset by lower realised foreign exchange losses in Q1FY2024 compared to Q1FY2023.

# Tissue Paper Products segment

Revenue from the tissue paper products segment for Q1FY2024 was RM155.3 million, reflecting a 2.5% increase compared to RM151.5 million for Q1FY2023. The rise in revenue in the paper products segment was primarily attributed to an increase in the average selling price. Tissue paper segment experienced demand growth in local sales, particularly in the Away From Home Division. One contributing factor was the reopening of China's borders in March 2023, which led to an increase in the number of tourists into Malaysia.

# 14. Review of Performance (Cont'd)

# Performance of Q1FY2024 against Q1FY2023 (Cont'd)

#### Tissue Paper Products segment (Cont'd)

The tissue paper products segment recorded a loss before tax of RM3.4 million for Q1FY2024, marking a 42.7% increase compared to a loss of RM5.9 million in Q1FY2023. The improvement in profit before tax was primarily due to the decline in raw material costs such as virgin pulp, and lower realised foreign exchange losses in Q1FY2024 compared to Q1FY2023.

However, this increase in profit before tax was partially offset by higher interest expenses and advertising expenses, as well as the general inflationary pressure on administrative costs, especially the increasing insurance premium due to the growth in premium rates.

#### Personal Care Products segment

Revenue from the personal care products segment for Q1FY2024 was RM68.6 million, an increase of 4.3% as compared to RM65.7 million recorded in Q1FY2023. The increase in revenue in the personal care products segment was mainly due to the increase in average selling price.

Profit before tax of the personal care products segment for Q1FY2024 was RM5.8 million, a decrease of 32.7% over RM8.7 million registered in Q1FY2023. The higher raw material costs and higher interest expenses have decreased the profitability of this segment.

# 15. Performance of Q1FY2024 against preceding quarter ended 30 April 2023 ("Q4FY2023")

	Individual Financial Quarter		Variance	
	Q1FY2024 Q4FY2023			
	<b>RM'000</b>	<b>RM'000</b>	RM'000	%
Revenue	223,878	215,001	8,877	4.1
Profit before tax	2,444	8,822	(6,378)	(72.3)

Revenue for Q1FY2024 amounted to RM223.9 million, marking a 4.1% increase compared to Q4FY2023, which reported RM215 million. This growth was primarily contributed by the increased sales in both product segments.

The consolidated profit before tax of the Group experienced a decline of RM6.4 million or 72.3% in Q1FY2024 as compared to Q4FY2023. This decrease in profit before tax was primarily due to higher exchange losses recorded in Q1FY2024 resulting from the depreciation of the Ringgit Malaysia. Moreover, in Q4FY2023, the Group recorded a one-time reversal of revaluation deficit amounting to RM3.2 million which contributed to the profit before tax and widened the comparative figures.

#### 16. Prospects

The lingering geopolitical tensions resulting from the Russia and Ukraine war and the uncertain foreign exchange movement will possibly impede economic growth and consumer confidence. In light of these factors, the Group's business operations environment remains challenging and volatile.

In Q1FY2024, despite improvement in revenue, the consolidated profit before tax of the Group experienced a decline of RM6.4 million or 72.3% as compared to Q4FY2023, primarily due to higher exchange losses recorded in Q1FY2024 resulting from the depreciation of the Ringgit Malaysia, Moreover, in Q4FY2023, the Group recorded a one-time reversal of revaluation deficit amounting to RM3.2 million giving a hike to profit before tax, and no such item occur in Q1FY2024.

Nevertheless, given the current stabilisation in raw material prices, including pulp, waste paper, and other inputs, the Group sees promising opportunities for both the Tissue Paper Products and Personal Care Products segments. Subject to lesser uncertainty surrounding the USD exchange rate and barring unforeseen circumstances, the Group is aims to achieve better performance in the coming quarter.

### 17. Variance of Actual Profit from Profit Forecast

Income tax

The Group's effective tax rate for Q1FY2024 is higher than the statutory tax rate mainly due to the unutilised tax loss for certain subsidiaries not recognised as deferred tax assets.

#### 19. Status on Corporate Proposals

There were no significant corporate proposals for Q1FY2024.

# Foreign currency forward contracts

The Group may enter into forward foreign exchange contracts in currencies other than their functional currency to manage exposure to fluctuations in foreign currency exchange rates on specific transactions.

As at 31 July 2023, the Group did not enter into any open forward contracts as hedges of anticipated future transactions.

# 21. Derivatives Financial Instruments (Cont'd)

Forward currency contracts are valued using a valuation technique with market observable inputs. The derivatives arising from the forward currency contracts are stated at fair value using the prevailing market rate. The fair value changes are attributable to changes in foreign exchange spot and forward rate.

### Cross currency swap contracts

During Q1FY2024, term loan with cross currency interest rate swap is mainly used to hedge the Company's borrowings denominated in United States Dollar ("USD") for a period of 5 years whereby the Company receives interest at a variable rate equal to SOFR + 1.25% and pays interest at a variable rate equal to KLIBOR + 1.07% which firm commitments existed at the reporting date.

During Q1FY2024, no fair value loss was recognised by the Group. The Group uses cash flow hedges to mitigate the risk of variability of future cash flows attributable to foreign currency and interest rate fluctuations over the hedging period on the foreign currency borrowings. Where a cash flow hedge qualifies for hedge accounting, the effective portion of gains or losses on remeasuring the fair value of the hedging instrument are recognised directly in other comprehensive income until such time as the hedged item affects profit or loss, then the gains or losses are transferred to the profit or loss. Gains or losses on any portion of the hedge determined to be ineffective are recognised immediately in the profit or loss.

The financial risk management policy of the Group seeks to ensure that adequate financial resources are available for the development of the businesses of the Group whilst managing its interest rate risk, credit risk, liquidity risk and foreign currency risk.

There is no change in the significant policy for mitigating or controlling the interest rate risk, credit risk, liquidity risk and foreign currency risk for the Group, nor the related accounting policies in Q1FY2024. Other related information associated with the financial instruments are consistent with the disclosures in the audited financial statements for FY2023.
