Comparison with Corresponding Quarter in Previous Year

The Group revenue has decreased from RM43.6 million in previous year corresponding quarter to RM26.7 million in current quarter under review and this was mainly due to lower sales contributed from consumer electronics sector.

The Group has recorded a profit before taxation ("PBT") of RM0.1 million in current quarter under review as compared to PBT of RM3.4 million in previous year corresponding quarter. This was mainly due to the lower sales achieved. The lower capacity utilization has resulted in higher overheads absorbed in relation to sales.

Comparison with Corresponding Financial Period To Date in Previous Year

The Group has recorded a revenue and PBT of RM72.7 million and RM5.0 million respectively in previous year corresponding period as compared to revenue and LBT of RM53.0 million and RM0.6 million in current reporting period. This was mainly due to the lower sales abovementioned.

2. Variation of results against preceding quarter

The Group has recorded a revenue and PBT of RM26.7 million and RM0.1 million respectively in current quarter under review as compared to revenue and loss before taxation ("LBT") of RM26.3 million and RM0.7 million respectively in previous quarter.

3. **Prospects**

In 2014, the management continues to take steps in differentiating the Group from its competitors in order to command a stronger and leading position in the market. The Group will continue its strategy to penetrate into producing plastic parts and components for the automotive and medical industry.

With the certification of ISO TS 16949 and investment in facilities such as Vacuum Metalizing and Sputtering machines, the Group manage to differentiate itself from other injection moulders and obtain new projects from its automotive customers. With these facilities in place and the strength and dedication of its employees, the Group will be able to broaden and tap into bigger business opportunities in this sector.

The outlook of consumers electronics sector is still uncertain, the Group has taking steps to further penetrate into the automotive sector covering a wider range of products. Currently, the major contribution from automotive sector is from the lighting products. The Group is now working with few customers on the car infotainer system. Audit had been carried out and is now at the stage of production & process planning.

Further to the above, the Group is also working with another potential automotive customer on the lighting products.

The Group has been actively looking into the opportunities in producing plastic parts and components for the medical sector. The Group via its wholly owned subsidiary, Luster Precision Engineering Sdn Bhd ("LPE"), has been able to penetrate into this sector. LPE is currently preparing itself to obtain the ISO 13485 certification.

The Board continues to explore the opportunities present in the market place either locally or abroad, from within its core business or other business sectors, to enhance its revenue and profitability. The Group had explored into construction and mining business in 2014 and may also look into opportunities to diversify into other businesses. The Board believes that the diversification would stabilize the Group's future earnings.

In light of the above developments, the Board is cautiously optimistic to be able to deliver positive performance in financial year 2014.
