#### 15. Performance Review

During the quarter under review, the Group registered revenue of RM29 million which is 5% lower than the corresponding quarter of the preceding year. The Group's total sales volume was 17,778m<sup>3</sup> including the timber logs of 2,545m<sup>3</sup>, the plywood sales volume is 20,323m<sup>3</sup> or 3% lower than the corresponding quarter of the preceding financial year.

Timber logs and plywood prices declined by an average of 24% and 3% respectively during the quarter as compared with the corresponding quarter of the preceding year resulted in 13.3% decrease in the gross profit margin. The Group recorded a loss before taxation of RM2.8 million compared with profit of RM2.5 million in the corresponding quarter of the preceding year.

# 16. Variation of Results Against Preceding Quarter

The Group's current quarter registered a loss before taxation of RM2.8 million as compared with the profit before taxation RM2.6 million in the preceding quarter. This loss is mainly due to the decline in the timber logs and plywood prices average 33% and 21% respectively resulted in a drop of profit margin by 16% as compared with the preceding quarter.

### 17. Commentary on Prospects

The Board foresees a drop in demand for plywood export due to the unstable and sluggish United States economy coupled with the unsolved Eurozone severing debt crisis. Plywood price has dropped by as much as 10% since the end of the second quarter. However, the decrease in price is being cushioned by the improvement in the US Dollar exchange rate vis-à-vis the Ringgit. The Board has taken the necessary measures to alleviate the negative factors. The second half results would not be as good as the first half of the year.

#### 18. Profit Forecast/Profit Guarantee

The disclosure requirements for the variance of actual and forecast profit and for the shortfall in profit guarantee are not applicable as the Group has not provided any profit forecast or profit guarantee for the year ending 31 December 2011.

Income tax:		
Current Taxation	58	345
Deferred tax	2,288	2,288
	2,346	2,633

The effective tax rate for the current quarter was higher than the statutory tax rate principally due to income arising from the logging extraction.
