#### 17 Performance Review

#### **Turnover**

The quarter registered a turnover of RM11.913 million a decrease in turnover of RM5.661 million as compared to preceding year corresponding period of RM17.574 million last year. The decrease in turnover is mainly due to sluggish demand on international export market and local domestic demand and a drop in pricing. The average sales volume of 1,677 m3 per month this quarter is 32.68% less than 2,491 m3 average sale volume for 2018 same quarter. Production volume for plywood and veneer decreased by 2,077 m3 from 7,727 to 5,650 m3, a decrease of 26.88% for this quarter as compared to the preceding year corresponding quarter.

#### Profit/(Loss) before Tax

The Group registered a loss of RM5.109 million as compared to a loss before tax of RM1.445 million in the preceding year corresponding quarter. The loss is mainly due to less demand on international export market and local domestic demand and drop in pricing. The loss is also due to a write down of stock in Sandakan amounting to RM1.057 million and a provision on slow moving stock in Cymao Klang amounting to RM0.864 million.

The results of the operations-Profit/(Loss):

	31.12.2019	31.12.2018
	RM`000	RM'000
Sandakan	(3,151)	(243)
Poly-Ply Klang	(116)	(349)
Cymao Klang	(1,443)	(714)
Other Companies	(399)	(139)
Group profit/(loss)	(5,109)	(1,445)

The increase in operation loss is due to lower export and local sales and production especially in Sandakan and the write down of stock. The loss in Polyply Klang is from its operations on lamination fee received and on value add products sold. Cymao Klang on trading of plywood still incurred a loss due to poor local market demand and drop in pricing and the provision on slow moving stock as stated above.

### Comparison with immediate preceding quarter's result:

Despite an decrease in revenue of RM0.236 million as compared to the immediate preceding quarter, the sales for both quarter were very low due to less export and local sales and lower prices. The loss for the quarter is mainly due to lower selling prices while the production cost has not reduced corresondingly.

# EXPLANATORY NOTES TO THE QUARTERLY FINANCIAL STATEMENTS FOR THE TWELVE MONTHS ENDED 31 DECEMBER 2019 - UNAUDITED

#### 17 Performance Review

#### Comparison with immediate preceding quarter's result:

The changes in sales volumes can be analyzed as follows:

Sandakan mills : Export (m3) : Local (m3)	31.12.2019 3,218 450 3,668	30.09.2019 2,901 610 3,511	Net change 317 (160) 157
Poly-Ply at Klang: Export (m3): Local (m3)	176 4 180	393	(217) 4 (213)
Cymao at Klang : Export (m3) : Local (m3)	1,182	1,689	(507)
	1,182	1,689	(507)

Sandakan recorded an increase of 157 m3 sales and Polyply Klang recorded an decrease of 213 m3 sales for this quarter as compared to the immediate preceding quarter. Even the sales have improved in Sandakan, it also incurred a loss as it made a gross loss before other expenses. Cymao Klang recorded a decrease in sale of 507 m3, it registered a loss as it incurred gross loss also. Polyply made a loss as its gross margin deteriorated in the quarter.

### **Group's Prospect:**

The logs supply has maintained in the last quarter in Sandakan but both the export prices and local prices have decreased thus resulting in sandakan making a loss even with improved quality and recovery. The international export market has showed signs of weakness with the reduced pricing. Local market sale is still slow in the quarter with price reducing. The Group is focusing more on export sales to capture the better margin.

Klang operation has slowed down due to a slow demand for value-added plywood products. The challenge is for the Klang operation management to fix the situation and put more efforts to capture more customers and to manage the cost to bring the Klang operation to a better profitability. It is focusing on providing lamination services to contain the operation costs.

Cymao Plywood Sdn Bhd after taking over the stock from Jengka will trade plywood in Klang focusing on West Malaysia local market under Cymao Klang operation. It is focuing on clearing the stock taken over from Jengka operation.

Overall, the prospect for the Group is very challenging as export plywood prices have decreased and local market demand is very slow with low pricing. Couple reduced demand with the reduced pricing, the operation is going to be very challenging. The Group is therefore focusing on capturing more export sales and with concerted efforts to contain the production cost and to improve quality. The Group will focus on Sandakan and Klang with no more expansion plan. The Group will focus on plywood production in Sandakan as logs supply is more stable and logs prices also stabilising which is positive. Klang will focus on selling to local market and lamination boards production and servicing.

#### 19 Impairment

The valuation for the fixed assets of the Group amounted to RM44,720 million as at 31 December 2016 and the net book value is RM28,162 million as at 31 December 2019. Therefore, there is no impairment provision required for this quarter.

#### 20 Commentary on Prospects

The Group is consciously endeavouring to strengthen its competitive advantage in term of quality, recovery rate and operational efficiency to improve the margin of its products. In addition, the Group has managed to secure its timber rights extraction, with the ban of logs export in Sabah, logs supply situation has improved. However, with the reduce demand in export and local market and the weak prices, the prospect is very challenging. Management has to focus on fixing these challenges as the core operation of the Group is still in plywood manufacturing.

#### Marketing strategy

The Group will continue to focus on USD export market to take advantage of the Dollar value and the higher price. With the improved quality and raw material sourcing, it is expected this strategy will accrue more benefit to the Group.

#### **Business opportunity**

The Group will continue to explore positive business opportunities to enhance the core performance of the Group. In the short to medium term, the Group will focus on consolidating the two operations of the Group-Sandakan and Klang.
