PART B – EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

17. Review of Performance

The Group recorded a loss before tax of RM1.03 million compared to a loss before tax of RM2.02 million recorded in the corresponding financial quarter ended 31 March 2008.

The Group's revenue for the current financial quarter ended 31 March 2009 decreased to RM0.40 million from RM4.91 million in the corresponding financial quarter ended 31 March 2008. In both quarters, there is no launching of new project and the Group' revenue are generated primarily from the sale of inventory.

In the face of the prevailing financial and economic uncertainties, the Board has decided to adopt a more cautious approach to development activities in 2009, taking care not to overstretch the Group's financial resources, and ensuring that the Group will be able "to ride through the storm" while remaining resilient at all times.

Other income increased from RM0.013 million in the corresponding quarter to RM0.162 million in this reporting quarter. The increase is primarily due to dividends received from short term investments.

Administrative expenses decreased to RM1.267 million compared to RM2.365 million in the corresponding quarter. The decrease is mainly due to reduction in staff cost and a better control over expenses.

Finance cost was also reduced substantially to RM0.240 million from RM0.363 million in the corresponding quarter ended 31 March 2008. This is mainly due to substantial repayments of banking facility in 2008.

18. Comparison with Preceding Quarter's Results

The Group recorded a loss before tax of RM1.03 million compared to a loss before tax of RM2.98 million recorded in the immediate preceding financial quarter ended 31 December 2008.

The Group's revenue for the current financial quarter ended 31 March 2009 increased to RM0.40 million compared to RM0.36 million in the immediate preceding quarter ended 31 December 2008. Revenue for both quarters was

primarily generated from sale of inventory. Revenue from landscaping and maintenance works was not significant in either quarter.

Other income increased from RM0.116 million in the immediate preceding quarter to RM0.162 million in this reporting quarter. The increase is primarily due to dividends received from short term investments.

Administrative expenses decreased to RM1.267 million compared to RM2.789 million in the immediate preceding quarter. The higher administrative cost incurred in the immediate preceding quarter is mainly due to the write off of property development cost amounted to RM1.243 million incurred on option lands where their proposed acquisition were rejected by minority shareholders in June 2008. Reduction in staff cost and a better control over expenses contribute to a lower administrative expense for this reporting quarter.

Finance costs were also reduced substantially to RM0.240 million from RM0.381 million in the immediate preceding quarter ended 31 December 2008. This is mainly due to reduced banking facilities outstanding arising from substantial repayments of banking facilities in 2008.

19. Prospects

The current global property market has been severely affected by crisis in the financial and banking sector although it is anticipated that the energy and material costs would decline in the short term. Many banks started to impose stricter lending terms resulting in difficulties for potential property buyers to obtain bank financing. Arising from this, the Directors believe that the Company should be prudent with respect to any new launches in the short term. The Directors also believe that the Company is in a position to take advantage of the opportunities that may arise with the eventual recovery of the local economy in view of the fact that the Company has substantially reduced its corporate debts. Moreover, the Company has been granted approval for its mixed development schemes in a strategic location in the nearby Tabuan Jaya Baru area along the Kuching – Kota Samarahan highway.

20. Actual Profit against Forecast Profit and Profit Guarantee

The disclosure requirements for explanatory notes for the variance of actual profit after tax and minority interest and forecast profit after tax and minority interest and for the shortfall in profit guarantee are not applicable.

21. Income Tax Expense

		ns ended Iarch	3 month 31 M

Current income tax:

in prior year	-	280	-	280
Deferred tax	3	13	3	13
Total income tax expense	3	293	3	293

An additional assessment of tax payable was raised by Inland Revenue Board against a subsidiary company. The Group has partially paid the additional tax based on the installments requested and has taken up the installments paid as under-provision of income tax for the purpose of these financial statements. However, as disclosed previously, the Group is appealing against the additional assessment, the outcome of which is unknown.

The Malaysian statutory tax rate was reduced to 25% in the current year of assessment from the previous year's rate of 26%. The computation of deferred tax has reflected these changes.

The effective tax rates of the Group for the financial period ended 31 March 2009 were higher than the statutory tax rate principally due to the financial effect on deferred tax asset movement arising from realized inter-company profit.

22. Sale of Unquoted Investments and Properties

There were no sale of unquoted investments and properties during the current quarter under review.

23. Quoted Securities

There was no purchase or sale of quoted investments during the current quarter under review.

24. Status of Corporate Proposals

On 20 January 2009, Ibraco Berhad entered into a Memorandum of Understanding (MOU) with Ibraco Properties Sdn. Bhd., a related party, for the proposed

acquisition of 14 parcels of mixed-zone lands with an aggregate land area of approximately 19.589 hectares all situated at Muara Tebas Land District, Kuching.
