17. Review of Performance

The Group recorded a loss after tax of RM4.222 million compared to a loss after tax of RM2.095 million recorded in the corresponding financial quarter ended 31 December 2008.

The Group's revenue for the current financial quarter ended 31 December 2009 increased to RM2.510 million from RM0.356 million in the corresponding financial quarter ended 31 December 2008. Revenue for this reporting quarter and the corresponding quarter were generated from sale of inventory, landscaping and maintenance works.

Other income increased from RM0.116 million in the corresponding quarter to RM5.548 million in this reporting quarter. The increase is mainly due to amount recoverable from Ibraco Properties Sdn Bhd in respect of additional tax and penalty for year of assessment 2004. Dividend received from short term investment also form part of the other income.

Administrative expenses increased to RM6.667 million compared to RM2.789 million in the corresponding quarter. The higher administrative expenses for the reporting quarter were mainly due to penalty imposed by Inland Revenue Board on the additional tax payable for year of assessment 2004 in respect of Syarikat Ibraco-Peremba Sdn Bhd as well as ex-gratia payment to retrenched employees.

Finance costs were also reduced substantially to RM0.148 million from RM0.381 million in the corresponding quarter ended 31 December 2008. This is mainly due to a reduced outstanding amount arising from periodic repayments of banking facilities.

18. Comparison with Preceding Quarter's Results

The Group recorded a loss after tax of RM4.222 million compared to a loss after tax of RM1.113 million recorded in the immediate preceding financial quarter ended 30 September 2009.

The Group's revenue for the current financial quarter ended 31 December 2009 increased to RM2.510 million compared to RM0.040 million in the immediate preceding quarter ended 30 September 2009. Revenue for the immediate preceding quarters was generated solely from landscaping and maintenance work.

Other incomes increased from RM0.158 million in the immediate preceding quarter to RM5.548 million in this reporting quarter. The increase is mainly due to amount recoverable from Ibraco Properties Sdn. Bhd. in respect of additional tax and penalty for YA 2004.

Administrative expenses increased to RM6.667 million compared to RM1.319 million in the immediate preceding quarter. The higher administrative expenses incurred in this reporting quarter is mainly arose from penalty imposed by IRB on the additional tax payable for YA2004 in respect of Syarikat Ibraco-Peremba Sdn. Bhd. as well as ex-gratia payment to retrenched employees.

Finance costs were also reduced to RM0.148 million from RM0.173 million in the immediate preceding quarter ended 30 September 2009. This is mainly due to a reduced outstanding amount arising from periodic repayments of banking facilities.

19. Prospects

The current global property market has been severely affected by crises in the economic, financial and banking sectors. Many local banks started to impose stricter lending terms resulting in difficulties for potential property buyers to obtain bank financing. Arising from this, the Directors believe that the Company should be prudent with respect to any new launches in the short term. The Directors also believe that the Company is in a position to take advantage of the opportunities that may arise with the eventual recovery of the local economy in view of the fact that the Company has substantially reduced its corporate debts. Moreover, the Company has been granted approval for its mixed development schemes in a strategic location in the nearby Tabuan Jaya Baru area along the Kuching – Kota Samarahan highway.

20. Actual Profit against Forecast Profit and Profit Guarantee

The disclosure requirements for explanatory notes for the variance of actual profit after tax and minority interest and forecast profit after tax and minority interest and for the shortfall in profit guarantee are not applicable.

21. Income Tax Expense

	3 months ended 31 December		12 months ended 31 December	
	2009 RM'000	2008 RM'000	2009 RM'000	2008 RM'000
Current income tax:				
Malaysian income tax	(36)	(1,235)	-	100
Under-provision of Malaysian income tax				
in prior year	3,821	-	3,728	272
Deferred tax	429	345	432	397
Total income tax expense	4,214	(890)	4,160	769

An assessment of additional tax payable was raised by Inland Revenue Board against a subsidiary company. An appeal was made against the assessment to the Special Commissioners but was not successful. The subsidiary company has taken up the additional tax payable as under- provision of income tax in prior year and has partially paid the additional tax based on the installments requested. Although the subsidiary company was not successful in their appeal to the Special Commissioners, the Group has decided to appeal to the High Court.

The Malaysian statutory tax rate was reduced to 25% in the current year of assessment from the previous year's rate of 26%. The computation of deferred tax has reflected these changes.

The effective tax rates of the Group for the current quarter and financial period ended 31 December 2009 was higher than the statutory tax rate principally due to the additional tax payable by a subsidiary company and the financial effect on deferred tax asset movement arising from utilization of project provisions and realization of inter-company profit.
