**(b) Amendment to FRS 117, Leases**

The Group has adopted the amendment to FRS 117. The Group has changed the classification of long leasehold lands to property, plant and equipment. This change in classification has no effect to the profit or loss of the current quarter 30 June 2010 or the comparative of prior periods.

**(c) FRS 139: Financial Instruments: Recognition and Measurement, FRS 7: Financial Instrument: Disclosures and Amendments to FRS 139: Financial Instruments: Recognition and Measurement, Amendments to FRS 7: Financial Instruments: Disclosures**

FRS 139 sets out new requirements for the recognition and measurement of the Group's financial instruments. Financial instruments are recorded initially at fair value. Subsequent measurement of the financial instruments at the balance sheet date reflects the designation of the financial instruments.

FRS 7 deals with new disclosure in relation to the financial instruments. These FRSs entail increased disclosures both quantitative and qualitative of the Group's exposure to risks, enhanced disclosure on components of the Group's financial position and performance, and possible changes to the manner of which certain items are to be presented in the financial statements.

**Financial assets**

**(i) Financial assets at fair value through profit or loss**

Financial assets at fair value through profit or loss comprise financial assets that are held for trading, including derivatives (except for a derivative that is a designated and effective hedging instrument) and financial assets that are specifically designated into this category upon initial recognition. Financial assets acquired principally for the purpose of selling in the near term.

Derivative that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost.

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with gains or losses recognised in the income statement.

**(ii) Held-to-maturity**

Held-to-maturity investments category comprises debt instruments that are quoted in an active market and the Group or the Company has the positive intention and ability to hold to maturity.

Financial assets categorised as held-to-maturity investments are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss.

**(iii) Available-for-sale**

Available-for-sale category comprises investment in equity and debt securities instruments that are not held for trading.

Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost less impairment loss. Other financial assets categorised as available-for-sale subsequently measured at their fair values with the gain or loss recognised in other comprehensive income, except for impairment losses, foreign exchange gains or losses arising from a monetary items and gains or losses of hedged items attributable to hedge risks of fair value hedges which are recognised in profit or loss. On derecognition, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity into profit or loss. Interest calculated for a debt instrument using effective interest method is recognised in profit or loss.

Such financial assets less impairment losses, if any are carried at amortised cost using the effective interest rate method.

**Financial Liabilities**

**B. ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA SECURITIES LISTING REQUIREMENTS**

**B1. Review of performance**

The revenue of the Group for the current quarter ended 30 June 2010 was RM95.71 million, an increase of RM19.34 million or 25% as compared with the corresponding quarter in 2009. For the half year ended 30 June 2010, the Group achieved a revenue of RM185.14 million as compared with RM150.48 million in the corresponding half year in 2009, an increase of RM34.66 million or 23%. The increased revenue was attributed mainly to improved particleboard sales.

The profit before taxation (“PBT”) of the Group for the reporting quarter was RM7.03 million, an increase of RM0.68 million or 11% as compared with the corresponding quarter in 2009. The higher profit in the current quarter came from both particleboard and RTA furniture sectors and the unrealized exchange gain due to the translation of the USD loan. The profit from RTA furniture sector, however, was impacted by increased labor costs and lower USD exchange rates. For the half year ended 30 June 2010, the Group achieved a PBT of RM12.98 million as compared with a PBT of RM0.82 million in the corresponding half year of 2009.

**B2. Material change in profit before taxation for the quarter against the immediate preceding quarter**

The Group reported a PBT of RM7.03 million for the current quarter as compared to a PBT of RM5.95 million for the immediate preceding quarter ended 31 March 2010. The higher PBT was due to the improved demand of particleboard.

**B3. Prospect for the current financial year**

The profit margins from particleboard and RTA furniture remain a concern as Malaysian Ringgit continues to strengthen against US Dollar.

The prospect for the second half year is positive and encouraging with the establishment of strong customer relationship in strategic markets.

**B4. Variances from Profit Forecasts and Profit Guarantee**

Not applicable.

**B5. Taxation**
