PART B: ADDITIONAL NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B.1 Review of performance

For the 9 months ended 30 September 2015, the Group achieved lower operating revenue of RM202.39 million, a decrease of 5.55% compared to RM214.28 million in the corresponding period last year due to weakened domestic market sales impacted by GST implementation in April 2015 and the increasingly competitive export market.

The Group achieved a higher unaudited profit before tax (PBT) for the period under review of RM17.92 million, an increase of 71.98% compared to PBT of RM10.42 million in the same period last year due to better product mix and higher process efficiencies.

Unaudited profit after tax (PAT) for the period under review is also higher by 75.99% at RM13.78 million, compared to the PAT of RM7.83 million in the same corresponding period last year.

B.2 Variation of results against last quarter

Operating revenue for the current quarter ended 30 September 2015 of RM68.40 million was slightly higher by 1.79% compared to RM67.20 million in the preceding 2Q2015.

Unaudited profit before tax (PBT) of RM8.06 million for the quarter under review was higher by 53.23% compared with the PBT of RM5.26 million in the preceding quarter.

Unaudited profit after tax (PAT) for the quarter under review was also higher at RM5.96 million, which is an increase of 34.84%, compared to the PAT of RM4.42 million in the preceding 2Q2015.

The higher PBT and PAT achieved were mainly attributable to better product mix, higher process efficiencies and favourable foreign exchange gained.

INTERIM FINANCIAL REPORT ON CONSOLIDATED RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2015

B.3 Current year prospects

Amidst the many challenges ahead arising from volatilities of crude oil prices and foreign exchange rate as well as the weakening domestic demand while competition continues to intensify, the Group anticipates the gradual recovery of global economy from the USA, UK and Europe Zone which would improve advanced nations consumer disposable income and the envisaged gradual increase in global demand for manufacturing goods as well as packaging consumption. The Group continues to seek opportunities for machine and product innovations, enhance its internal process efficiencies and productivity in the face of the rising operating costs environment, and implement strategies to achieve higher sales, especially in export market.

Barring any unforeseen circumstances, the Group anticipates it will deliver good profit in the financial year ending 31 December 2015.

B.4 Variance of actual profit from profit forecast

This note is not applicable as the Group did not issue nor publish any profit forecast for the current year under review.
