Not applicable as no Profit Forecast or Profit Guarantee has been issued by the Group.

4 Commentary of Prospects

Due to the emergence of Covid-19 outbreak, it has brought significant economic impact globally including Malaysia and markets in which the Group's products are exported to. Moving towards the recovery with uncertainty from another wave of Covid-19, this may take a while to resume everything back to normal and the Board foresee that the market condition will also slowly pick-up in demand.

Hence, the Group will continue to focus on local market (Malaysia), increase its downstream production output with higher premium products, explore new avenues to improve cost and operational competitiveness, whilst continue to diversify and broaden our customer base to mitigate the impact of global slowdown. The Board will continuously monitor the impact of Covid-19 on the Group's operations and financial performance and will take appropriate and timely measures to minimize the impact to the Group.
