### EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2021

# Malaysia segment

The Malaysia segment's revenue for the quarter ended 30 September 2021 decreased by 60.8% or RM81.55 million to RM52.55 million from RM134.10 million recorded in the preceding year corresponding quarter. Despite of higher average selling price, the decrease in revenue was mainly due to lower sales volume as a result of the mandated stoppage of almost all of the Group's Malaysian operations due to the implementation of the Full Movement Control Order (FMCO). The mandated stoppage lasted for almost the entire quarter.

Loss before tax was reported at RM12.27 million for the quarter ended 30 September 2021 as compared to profit before tax of RM3.73 million recorded in the corresponding quarter of the preceding year. The loss was due to fixed cost incurred in spite of the mandated cessation of Malaysian operations due to FMCO. However, the impact was partially mitigated by higher foreign exchange gain recorded in current quarter.

# Thailand segment

The Thailand segment's revenue for the quarter ended 30 September 2021 increased by 74.8% or RM51.46 million to RM120.29 million from RM68.83 million recorded in the preceding year corresponding quarter. The increase in revenue was due to both higher average selling price and sales volume.

Profit before tax for the quarter ended 30 September 2021 increased by RM18.17 million to RM15.74 million from a loss before tax of RM2.43 million recorded in the corresponding quarter of the preceding year. In spite of higher raw material costs, the increase in profit before tax was mainly derived from higher margin resulted from higher average selling prices, lower operation cost as the result of higher production efficiency and higher foreign exchange gain.

# **Others segment**

On Others segment's revenue for the quarter ended 30 September 2021 increased by 20.5% to RM28.19 million from RM23.39 million recorded in the preceding year corresponding quarter. Despite of lower sales volume, the increase in revenue was mainly contributed from higher average selling price.

# 4 *Commentary of Prospects*

There has been increased optimism as countries start opening up their economies. Even though Covid19 still remains a risk, countries are learning to live alongside it as we adapt an 'endemic' point of view, rather than a 'pandemic'.

Malaysia too, has better prospects as the country emerges from the Full Movement Control Order (FMCO) which has been restrictive on most business activities. Nonetheless, Covid19 remains a concern with an uptick in number of new cases being reported.

During the 4 months of mandated shutdown from the Malaysian FMCO, it was the Group's diversified base of operations in Thailand and Indonesia that gave it the resilience to remain profitable, with much improved contributions from its Thailand operations due to an increase in panel board prices, as general economic activities picked up around the world.

# EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2021

Nonetheless, there remain headwinds. The quick resurgence of economic activities in China has put further strain on the logistics industry which continues to struggle with limited shipping capacities. The Chinese resurgence also resulted in higher costs of many commodities with supply-side playing catch up to high demand. The lack of sufficient electricity in China further limits supply of materials. Of particular concern is the increase in the price of raw materials used in the manufacture of glue which was on a sharp rise, in tandem with oil price increase. The price is currently stabilized.

All these challenges are balanced with more positive economic outlook. With better overall demand in the Group's key panel board product segment, the increase in average selling price has thus far, kept pace with the increase in cost. The Group will continue to work closely with its customers to optimize its pricing structure while maintaining a healthy order book.

The Group's operations in Thailand and Indonesia contributed positively to help alleviate the losses in Malaysia in the current quarter and looking forward, the Group is cautiously optimistic that after emerging from FMCO, its Malaysian operations too, will contribute positively to the overall result.
