3. Prospects

The global economy for 2016 is still positive despite the uncertainties with regard to the United Kingdom's shocking decision to exit from the European Union and the possibility of higher United States of America interest rate hike at year end which will continue to put pressure on the Ringgit Malaysia exchange rate against the United States Dollar ("USD"). The recent announcement of price hike of raw sugar by over 30% are expected to have an impact on most of the food and beverage players in Malaysia.

We are still optimistic about the performance of the Group for the remaining period of year 2016. The Group will continue to focus on improving productivity and operational efficiency to mitigate rising cost and enhance competitiveness.
