## EXPLANATORY NOTES TO QUARTERLY FINANCIAL STATEMENTS SECOND QUARTER ENDED 30 JUNE 2019

#### PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134

## 1. Basis of Preparations

The Interim Financial Statements are unaudited and have been prepared in compliance with the requirements of MFRS 134 *Interim Financial Reporting* and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

These interim financial statements include only condensed financial statements and should be read in conjunction with the annual financial statements for the financial year ended 31 December 2018. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the financial position and performance of the Group since the financial year ended 31 December 2018.

### 2. Significant Accounting Policies

The accounting policies adopted for this interim report are consistent with those adopted in the audited financial statements for the financial year ended 31 December 2018 except for the following:

The Group adopted the following additional accounting policies during current quarter:

## i) Land use rights

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised over their lease terms.

The Group has assessed and classified land use rights of the Group as operating leases as management has determined that the risks and rewards incidental to ownership of the land do not reside with the Group.

### ii) Investment properties

Investment properties are initially measured at cost, which includes transaction costs. After initial recognition, investment properties are stated at cost less any accumulated depreciation and any accumulated impairment losses. The investment properties are depreciated over the lease terms.

(Company No. 638899-K)

## 2. Significant Accounting Policies (cont'd)

### iii) Hedging and Non-hedging derivatives assets and liabilities

Hedging derivative assets and liabilities are measured at fair value through other comprehensive income whereas non-hedging derivative assets and liabilities are measured at fair value through profit or loss.

## a) Cross currency interest rate swap contracts

In the financial year ended 2012, the Group obtained a term loan denominated in RM from a financial institution, with whom the Group entered into a USD/RM cross currency interest rate swap contract. The term loan was subsequently converted into USD and extended to its subsidiary in Vietnam. The Group shall repay the loan in RM at a predetermined USD/RM conversion rate as per the cross currency interest rate swap contract. The subsidiary shall repay the loan in USD to the Group.

### b) Cross currency interest rate swaps

Cross currency interest rate swaps have been entered into in order to operationally hedge floating monthly interest payments on borrowings that would mature in various date. The fair value of cross currency interest rate swaps is based on bankers' quotes.

### iv) Cash flow hedge

The cash flow hedge comprises the effective portion of the cumulative net change in the fair value of the cash flow hedges related to hedged transactions that have not yet occurred.

## v) Retirement benefit obligations

The Group operates an unfunded, defined Retirement Benefit Scheme ("the Scheme") for its eligible employees in certain subsidiaries. The Group's obligation under the Scheme is determined based on the latest actuarial valuation by an independent actuary dated 17 January 2017. The Group carries out the valuation every 3 years. Under the Scheme, eligible employees are entitled to retirement benefits varying between 18 days and 52 days per year of final salary upon attainment of the retirement age of 60.
