PART B: REQUIREMENTS OF MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

1. Review of performance

(a) Second quarter ended 30 June 2022 ("Q2, 2022") compared with Second quarter ended 30 June 2021 ("Q2, 2021")

The Group's net revenue for Q2, 2022 increased by RM97.3 million or 14% to RM776.1 million. Profit before tax reported by the Group was RM50.2 million in Q2, 2022, a decrease of RM6.2 million mainly contributed by lower profit from General packaging and Trading divisions as explained below.

General Packaging division

General Packaging division generated total revenue of RM738.9 million in Q2, 2022, an increase of RM100.0 million compared to Q2, 2021, mainly due to changes in sales mix and revision of selling price in tandem with increase in material prices. However, profit before tax of the division decreased by RM1.2 million to RM58.2 million in Q2, 2022 mainly due to:

- Increase in sales volume and sales mix, lower depreciation and sales of previously impaired resins in General cans segment offset by inventories written off in Carton boxes segment; and
- higher admin expenses mainly due to depreciation of new server and stamp duty for trade bank facilities.

Contract Manufacturing division

Revenue of the Contract Manufacturing division increased by RM21.0 million to RM41.8 million in Q2, 2022 mainly due to increase in sales volume. The division registered a lower loss before tax of RM4.1 million in Q2, 2022 mainly because loss-making Edible oils segment had ceased operation in Q1, 2021 and a reversal of impairment loss on plant and machinery was recorded in Q2, 2022.

Trading division

Trading division registered a decrease in revenue of RM145.1 million to RM146.6 million in Q2, 2022 mainly due to decrease in export sales of aluminium cans to third party customers and transfer of sales of goods and purchases of materials back to Malaysia manufacturing plants. The division registered a loss before tax of RM0.2 million in Q2, 2022 compared to a profit before tax of RM4.6 million in Q2, 2021 mainly due to lower sales and profit offset by decrease in distribution expenses due to lower commission.

1. Review of performance (cont'd)

(b) Current period-to-date ended 30 June 2022 ("PTD Q2, 2022") compared with preceding period-to-date ended 30 June 2021 ("PTD Q2, 2021")

The Group's net revenue for PTD Q2, 2022 increased by RM197.5 million or 14.8% to RM1,528.4 million. Profit before tax reported by the Group was RM105.6 million in PTD Q2, 2022, an increase of RM9.5 million mainly contributed by higher profit from General packaging division offset by lower profit from Trading division as explained below.

General Packaging division

Revenue of General Packaging division increased by RM205.4 million to RM1,465.2 million in PTD Q2, 2022 mainly due to sales mix as well as revision of selling price in accordance with increase in material prices. Profit before tax increased by RM21.5 million to RM124.4 million in PTD Q2, 2022. This was mainly due to:

- Increase in sales volume, sales mix and margins in General cans segment offset by inventories written off in Carton boxes segment;
- higher admin expenses mainly due to increase in staff costs, depreciation of new server and stamp duty for trade bank facilities;
- lower other income mainly due to higher gain on disposal of assets in PTD Q2, 2021; and
- no impairment of property, plant and equipment in PTD Q2, 2022.

Contract Manufacturing division

Revenue of Contract Manufacturing division increased by RM30.6 million to RM71.2 million in PTD Q2, 2022 mainly due to increase in sales volume. Loss before tax of the division decreased to RM13.0 million because Beverages segment has yet to achieve operational efficiency and Edible oils segment had ceased operation in PTD Q2, 2021.

Trading division

Revenue of Trading division decreased by RM205.3 million to RM358.4 million in PTD Q2, 2022 mainly due to decrease in export sales of aluminium cans to third party customers and transfer of sales of goods and purchases of materials back to Malaysia manufacturing plants. Profit before tax decreased by RM9.7 million to RM1.2 million in PTD Q2, 2022 mainly due to lower sales and gross profit offset by lower distribution expenses.

2. Variation of results against immediate preceding quarter ended 31 March 2022 ("Q1, 2022")

	Current year Second Quarter ended 30/06/2022 RM'000	Immediate Preceding Quarter ended 31/03/2022 RM'000	Changes RM'000
Revenue	776,092	752,298	23,794
Operating Profit	62,357	65,503	(3,146)
Profit Before Tax	50,239	55,392	(5,153)
Profit After Tax	38,720	48,265	(9,545)
Profit Attributable to Owners of the Company	40,733	48,230	(7,497)

Despite the increase in revenue, the Group recorded a lower profit before tax in Q2, 2022 compared to Q1, 2022 mainly due to lower profit contribution from General packaging division offset by reduced loss from Contract manufacturing division as explained below.

General Packaging division

The division registered an increase of RM12.7 million in revenue in Q2, 2022 from the immediate preceding quarter mainly due to changes in product mix. Despite the revenue increase, profit before tax dropped by RM8.0 million in Q2, 2022 mainly due to:

- impact of increase in material prices which could not be fully passed down to customers;
- decrease in sales volume and higher aluminium coil cost at Aluminium cans segment;
- inventories written off cushioned by increase in sales volume in Carton boxes segment; and
- impairment loss on property, plant and equipment.

Contract Manufacturing division

Revenue of Contract Manufacturing division increased by RM12.3 million to RM41.8 million in Q2, 2022 mainly due to increase in sales volume. Loss before tax of the division decreased by RM4.7 million to RM4.1 million in Q2, 2022 mainly attributable to lower operating loss and reversal of impairment loss on plant and machinery recorded in Q2, 2022.

Trading division

Revenue of Trading division decreased by RM65.2 million to RM146.6 million in Q2, 2022 mainly due to transfer of sales of goods and purchases of materials back to Malaysia manufacturing plants. Consequently, the division recorded a loss before tax of RM0.2 million in Q2, 2022 as opposed to a profit before tax of RM1.5 million in Q1, 2022.

3. Prospects

The Board of Directors expects the Group's operating environment to remain challenging due to global economy conditions and geopolitical tensions, including Myanmar. The key challenges continue to be faced by the Group included:

- (i) volatility in raw materials costs and inflationary impact of all other materials and services costs;
- (ii) volatility in foreign currency exchange rates, mainly the United States Dollar;
- (iii) increased labour costs and shortage of workforce; and
- (iv) uncertainties arising from the variants of Covid-19.

Barring further unforeseen circumstances, the Board of Directors is cautiously optimistic that the performance of the Group for the remaining 6-month financial period ending 31 December 2022 shall be satisfactory.

The Group did not publish any profit forecast nor provide any profit guarantee.
