For the current quarter under review, the Group's revenue decreased by RM4.72 million or 14.5% as compared to the fourth quarter ended 31 March 2021. This is mainly due to delay in some sales as a result of China's 'zero-COVID' policy that had caused port congestion and vessel delays.

The Group recorded a loss before taxation of RM8.28 million for the quarter under review, representing an increase in loss before tax by RM7.82 million as compared to that of the preceding year quarter. The increase in loss before tax was mainly due to the following:

- a. Higher Product development cost written off by RM0.90 million in current year quarter as compared to preceding year quarter.
- b. Higher Provision for stock obsolescence and inventories written off by RM0.37 million in current year quarter as compared to preceding year quarter.
- c. Loss on strike off of a dormant subsidiary amounting RM3.36 million in current year quarter.
- d. Lower foreign exchange gain by RM1.08 million in current year quarter as compared to preceding year quarter.
- e. Some cost of quality incurred in current year quarter.

Should we exclude the one off loss on strike off of a dormant subsidiary amounting RM3.36 million, the current year quarter's loss before tax reduced to RM4.92 million.

3. COMMENTARY ON PROSPECTS

FY 21/22 sales closely tracked those of the prior year (which was profitable), though we did ultimately close with a lower number. Orders did however remain strong and had it not been for the unprecedented material supply challenges, as well as port congestion and the related vessel delays (a result of China's 'zero-COVID' policy) our sales performance would have been higher.

Unfortunately the considerable current global challenges of material cost increases, reduced availability of key materials and inflated logistical costs...combined with cost of quality implications have resulted in a negative profit/loss position.

As stated in the prior quarterly report, the good news is that none of these issues represent negative development with regard to opportunity or our customer relationships. It is simply a challenging set of circumstances through which we (and others) must navigate.

Moving forward we are actively identifying the prospect of more positive performance scenarios ahead of us. When these are combined with the recent relaxation of covid related travel restrictions, re-enabling face-to-face collaboration with our key partners, the prospect of more positive times becomes increasingly realistic and this is the primary focus of our current activities.

With the above perspectives in mind...and whilst creatively managing our way through the turbulent conditions of today, we remain positive with regard to the future ahead of us.
