## B3. PROSPECTS

The lockdowns or Movement Control Order (MCO) implemented by the government from 18 March 2020 has adversely impacted all businesses and healthcare industry was not spared too. During the lockdowns, the KPJ Group has reported a decline in their business activities and this was evidenced by lower patient episodes and lower daily Bed Occupancy Rate (BOR) between 27% and 31% in second half of March, April and May 2020.

The relaxation of the control under the MCO, through the implementation of the Recovery Movement Control Order (RMCO) on 10 June 2020, has encouraged the patient to seek treatment in hospitals. This, has improved the KPJ Group's business activities.

Covid-19 outbreak is likely to have minimal impact on the Malaysian healthcare sector in the near term and thus the Manager expects Al-'Aqar able to record stable and sturdy earning underpinned by long-term lease arrangements with KPJ Group. For the long term, the Manager believe rising healthcare awareness arising from the outbreak should be positive for the healthcare sector.
