B1 REVIEW OF PERFORMANCE

Quarter and year todate results

QCT recorded total revenue of RM17.18 million and property operating expenses of RM4.17 million respectively for the current quarter ended 31 March 2014. Realised income of RM8.16 million was achieved. Borrowing costs of RM3.43 million and manager's fee of RM1.35 million were incurred during the quarter.

As compared with the preceding year corresponding quarter, the revenue is about 0.2% lower mainly due to higher vacancy, mitigated by rental rate increases of some properties. Property operating expenses is higher by 0.3% due to higher repair and maintenance costs. The lower revenue and higher property operating expenses resulted in lower net property income by 0.4%. Finance costs is marginally lower by 0.8% during the quarter due mainly to lower interest on borrowings in the current quarter. Administrative expenses are higher by 65% mainly due to accrual of GST advisory fee in the current quarter. Tax agent fee was lower due to write back of over-accrued fee in the current quarter. Valuation fee is lower as there is no plan to do a mid year valuation and thus there was no accrual of mid year valuation fee in the current quarter. Notwithstanding the lower net property income, the realised income of RM8.16 million is 0.7% higher than the preceding year corresponding quarter mainly due to lower valuation fee and tax agent fee, and savings in finance costs in the current quarter.

As compared with the immediate preceding quarter, revenue of RM17.18 million is lower by 0.7% mainly due to higher vacancy, net of rental rate increases of some properties. Property operating expenses is lower by 1.7% due to lesser repair costs incurred. The lower revenue net of savings in property operating expenses resulted in a lower net property income by 0.4%. Finance costs are higher by 2.9% mainly due to the write back of over-accrued annual credit facility fee in the preceding quarter. Administrative expenses are higher by 163.7% mainly due to write back of over-accrued professional fee in relation to business development activities in preceding quarter, as well as accrual of GST advisory fee in the current quarter. The realised income of the current quarter is lower by 5.1% mainly due to lower net property income, lower interest income, higher finance costs and higher administrative expenses.

The performance of QCT for the quarter and period ended 31 March 2014 is in line with the investment objective of QCT.

- (i) On 21 November 2011, an IRS arrangement swapping floating rate for fixed rate for a notional amount of RM65 million ("IRS No. 5") was entered into in relation to part of the RM130 million CPs issued by Kinabalu. Pursuant to IRS No. 5, QCT will pay a fixed rate of 3.34% p.a. to the Bank whilst the Bank will pay a floating rate to QCT. IRS No. 5 commenced on 30 November 2011 and will mature on 5 September 2016.
- (ii) On 21 November 2011, an IRS arrangement swapping floating rate for fixed rate for a notional amount of RM65 million ("IRS No. 6") was entered into in relation to part of the RM130 million CPs issued by Kinabalu. The differences between the floating rate and the fixed rate of the respective IRSs are settled between QCT and the Bank semi-annually and are charged or credited to profit or loss accordingly.

The risk associated with the IRSs above would be credit risk, which is the counterparty risk of the financial institutions with whom the IRSs were contracted. However, the Manager has taken precaution to mitigate this risk by entering the IRSs contracts with reputable licensed financial institutions.

The fair values of the IRSs and the maturity profile as at 31 March 2014 are as follows:

	RM
- less than one year	-
