The 34% increase in total revenue as compared to the same preceding quarter was mainly due to the upward revision in rental rates for several investment properties, as well as additional rental income received from the two new investment properties acquired in second quarter of 2010.

The slight increase of 5% in property expenses was mainly due to the increase in property management fees during the second quarter of year 2010. On the other hand, the non-property expenses was higher by 48% during the current quarter as compared to the same preceding quarter, due to the higher term loan interest expense from the additional borrowing and also the increase of the rate of manager's fee and trustee's fee from 0.30% to 0.60% and 0.04% to 0.05% respectively in previous second quarter of 2010.
