Notes to the Interim Financial Report

Explanatory Notes In Compliance With Malaysian Financial Reporting Standards 134 ("MFRS 134") Interim Financial Reporting

A1. Basis of Preparation

The interim financial statements have been prepared under the historical cost convention except for financial derivative which are stated at fair value.

These interim financial statements are unaudited and have been prepared in accordance with the requirements of Malaysian Financial Reporting Standards 134 ("IFRS 134"), Interim Financial Reporting, International Financial Reporting Standard 134 ("IFRS 134"), Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the Company's audited financial statements for the financial year ended 31 March 2016. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 March 2016.

A2. Adoption of Standards, Amendments and Annual Improvements to Standards

(a) Application of new or revised standards

In the current period, the Group and the Company applied a number of new standards, amendments and interpretations that become effective mandatorily for the financial periods beginning on or after 1 April 2016.

The adoption of these new and revised standards, amendments and/or interpretations does not have significant impact on the financial statements of the Group and of the Company.

(b) Standards issued that are not yet effective

The Group and the Company have not applied the following standards and amendments that have been issued by the MASB but are not yet effective:

MFRSs, Amendments to MFRSs and IC Interpretation					
Amendments to MFRS 107	Disclosure Initiative	1 January 2017			
Amendments to MFRS 112	Recognition of Deferred Tax Assets for Unrealised Losses	1 January 2017			
MFRS 15	Revenue from Contracts with Customers	1 January 2018			
MFRS 9	Financial Instruments	1 January 2018			
MFRS 16	Leases	1 January 2019			
Amendments to MFRS 10 and MFRS 128	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be announced by the MASB			

Except as otherwise indicated below, the adoption of the above new standards, amendments and interpretation are not expect to have significant impact on the financial statements of the Group and of the Company.

MFRS 9, Financial Instruments

MFRS 9 addresses the classification, recognition, derecognition, measurement and impairment of financial assets and financial liabilities, as well as general hedge accounting. It replaces MFRS 139. MFRS 9 requires financial assets to be classified into two measurement categories, i.e. at fair value and at amortised cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the MFRS 139 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to changes in an entity's own credit risk is recorded in other comprehensive income, unless this creates an accounting mismatch. MFRS 9 contains a new impairment model based on expected losses (as opposed to the 'incurred loss' model under MFRS 139), i.e. a loss event need not occur before an impairment loss is recognised, which will result in earlier recognition of losses.

The Group and Company are currently assessing the impact to the financial statements upon adopting MFRS 9, and intend to adopt MFRS 9 on the mandatory effective date.

A2. Adoption of Standards, Amendments and Annual Improvements to Standards (Continue)

MFRS 15 Revenue from Contracts with Customers

MFRS 15 introduces a new model for revenue recognition arising from contracts with customers. MFRS 15 will replace MFRS 111 Construction Contracts, MFRS 118 Revenue, IC Interpretation 13 Customer Loyalty Programmes, IC Interpretation 15 Agreements for the Construction of Real Estate, IC Interpretation 18 Transfers of Assets from Customers and IC Interpretation 31 Revenue - Barter Transactions Involving Advertising Services. The application of MFRS 15 may result in difference in timing of revenue recognition as compared with current accounting policies.

The Group and Company are currently assessing the impact to the financial statements upon adopting MFRS 15, and will adopt MFRS 15 on the mandatory effective date.

MFRS 16 Leases

Currently under MFRS 117, leases are classified either as finance leases or operating leases. A lessee recognises on its statement of financial position assets and liabilities arising from finance leases but not operating leases. MFRS 16 eliminates the distinction between finance and operating leases for lessees. All leases will be brought onto its statement of financial position, and recording of certain leases as off-balance sheet leases will no longer be allowed except for some limited exemptions. For a lessee that has material operating leases, the application of MFRS 16 may result in significant increase in assets and liabilities reported on its statement of financial position as compared with MFRS 117.

MFRS 16 will replace MFRS 117 Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases – Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

The Group and Company are currently assessing the impact to the financial statements upon adopting MFRS 16, and will adopt MFRS 16 on the mandatory effective date.

B1. Performance Review : Year-to-date April 2016-June 2016 vs Year-to-date April 2015-June 2015

The Group achieved revenue of RM129.7 million for the financial period ended ("FPE") 30 June 2016 as against RM118.8 million a year earlier, an increase of RM10.9 million (9.1 per cent) year-on-year ("y-o-y"). Revenue from International Business Solutions (IBS) was up by RM7.6 million (16.7 per cent) whereas Domestics Business Solutions (DBS) segment also showed an increase in revenue of RM3.2 million (4.4 per cent) y-o-y respectively.

In the IBS segment, Air Freight Forwarding ("AFF") division posted a decrease of RM0.5 million (1.5 per cent). Higher AFF revenue posted in last comparative quarter was attributed to export shipment surge of ad-hoc urgent export shipments for major electronic & solar panel manufacturing customers as well as project cargo of garment exportation to Japan. For Ocean Freight Forwarding ("OFF") division, export shipments of a solar panel customer drove revenue of OFF division to hike by an increase of RM8.2 million (71.0 per cent). As for the DBS, Contract Logistics ("CL") posted an increase of RM3.9 million (7.4 per cent) whereas Trucking division showed a decrease of RM0.7 million (3.5 per cent). Within CL business, increased shipments & volume contribution from existing major customers resulted in Custom Clearance and Haulage businesses to record increases in revenue of RM4.4 million (27.7 per cent) and RM1.2 million (15.5 per cent) respectively. However, warehouse and in-plant businesses experienced revenue reduction by RM1.4 million (6.0 per cent) and RM0.1 million (3.3 per cent) respectively as a result of slow down in warehousing & production activities of major customers. Trucking division recorded lower revenue by RM0.7 million (3.5 per cent), largely as a result of decrease in inbound cross border business from Thailand. Revenue from cross border business reduced by approximately RM1.9m but the drop was somewhat offset by newly secured FMCG & tele-communication businesses both in Penisular & East Malaysia.

Profit before taxation ("PBT") for the year-to-date ended 30 June 2016 decreased to RM8.1 million from RM8.3 million, a decrease of RM0.1 million (1.5 per cent), while profit for the period to-date went down marginally from RM6.1 million to RM6.0 million (0.7 per cent) y-o-y. IBS segment posted a decrease in PBT of RM0.1 million (6.2 per cent) from RM2.0 million to RM1.9 million. On the other hand, DBS segment reported an increase of PBT by RM0.3 million (6.1 per cent), increased from RM5.4 million to RM5.7 million. As for IBS business, drop in revenue coupled with change in commission scheme resulted in higher operating costs to AFF business, resulting in lower PBT by RM0.8 million (57.8 per cent). On the other hand, strong volume support from a solar panel customer boosted PBT of OFF business from RM0.7 million to RM1.3 million (102.2 per cent). As for DBS segment, CL business reported a PBT increase of RM0.9 million (16.9 per cent), from RM5.7 million to RM6.6 million. However, it was offset by increase in loss before tax of RM0.6 million (239.9 per cent) in Trucking division. The higher loss of Trucking was caused by a drop in sales as well as increased operating cost of cross border shipments resulted from weakened ringgit. CL business's better PBT was due to better performances in custom clearance, haulage and warehouse businesses, which posted increases in PBT by RM0.3 million (33.7 per cent), RM0.6 million (59.8 per cent) and RM0.08 million (3.6 per cent) respectively.

B2. Comparison with Preceding Quarter's Results: April 2016 to June 2016 vs January 2016 to March 2016

The Group's revenue of the first quarter ended 30 June 2016 ("1QFY2017") was registered at RM129.7 million, as against revenue of RM125.2 million of the preceding quarter ended 31 March 2016. This represents an increase of RM4.4 million (3.5 per cent). IBS segment posted a decrease of RM1.2 million (2.1 per cent), while DBS segment recorded better sales result by RM5.6 million (7.9 per cent) as against preceding quarter.

Within the IBS segment, drop in hand-carry shipments and switching from air freight to sea freight arrangement for a solar panel customer impacted AFF division posted lower revenue from RM37.0 million to RM33.6 million, a decrease of RM3.4 million (9.3 per cent). On the other hand, increase in sea shipments support from the said solar panel manufacturer contributed revenue hikes to OFF business. Sales rose from RM17.3 million to RM19.6 million, an increase of RM2.3 million (13.2 per cent). Within the DBS segment, the CL division posted an increase of RM4.0 million (7.6 per cent). CL's better performance was due to seasonal shipment increases in haulage & custom clearance businesses, which reported higher sales of RM1.8 million (9.9 per cent) and RM1.3 million (16.6 per cent) respectively, whereas warehouse business also posted an increase of RM0.9 million (4.0 per cent). Meanwhile, Trucking division also posted an increase of RM1.6 million (8.6 per cent) as against preceding quarter, due to new distribution businesses for FMCG and tele-communication cargoes.

PBT for 1QFY2017 reduced from RM14.4 million to RM8.1 million as against preceding quarter, a decrease of RM6.3 million (43.5 per cent). Drop in sales coupled with change in commission scheme effective from 1 April 2016 impacted IBS segment to record lower PBT from RM3.5 million to RM1.9 million, a decrease of RM1.6 million (44.8 per cent). This was especially reflected on PBT of AFF which dropped from RM1.9 million, a decrease of RM1.3 million (68.5 per cent). PBT from DBS segment was improved from RM4.4 million to RM5.7 million, an increase of RM1.3 million (30.6 per cent). CL business reported higher PBT by RM2.6 million (63.1 per cent), of which PBT was mainly contributed from Warehouse and Custom Clearance businesses. In spite of increase in sales, increasing fleet and operating costs caused Trucking division posted to post lower PBT from PBT of RM0.3 million to Loss before tax of RM0.9 million, a drop of RM1.2 million (365.2 per cent).

B3. Prospects for the Remaining Period to the End of the Financial Year

In the aftermath of the Brexit vote, the International Monetary Fund ("IMF"), in its latest World Economic Outlook ("WEO") report dated July 2016, has revised downwards projected global growth for 2016 by 0.1 percent to 3.1 percent. According to the WEO report, the outlook worsens for advanced economies (down by 0.1 percentage points in 2016) while it remains broadly unchanged for emerging market and developing economies. Prior to the outcome of the U.K. vote, economic data suggested that the global economy was evolving broadly as forecasted. However, the surprising outcome of the referendum has introduced substantial increase in economic, political, and institutional uncertainty, which is projected to have negative macroeconomic consequences, especially in advanced European economies. But with the event still unfolding, it is very difficult to quantify its potential repercussions. (Source: WEO dated July 2016)

In Malaysia, BNM announced on 13 August 2016 that the Malaysian economy grew by 4 percent in the second quarter of 2016 (1Q2016: 4.2 percent), marking a fifth consecutive quarter of slower growth. BNM said that the economic growth was weighed down by continued decline in net exports and a significant drawdown in stocks despite stronger expansion in domestic demand. On the supply side, BNM noted that all economic sectors continued to expand, with the exception of the agricultural sector. Going forward, BNM said that domestic demand will continue to be the main growth driver, supported primarily by private sector spending. BNM also reported that during the first half of 2016, the GDP grew 4.1 percent from a year earlier. For the whole of 2016, BNM still expects that the GDP will register a growth of 4 to 4.5 percent.

The prospects of the Group is closely tied to the performance of the Malaysian and world economy, as our core businesses are directly affected by the the health of the manufacturing sector and international trade. With the global economy still expected to expand moderately, and domestic economy showing resilient despite slowdown, the Group expects that its performance will move in tandem with the economic conditions. Downside risks for the Group include contraction or further slowdown in the global and domestic economy and rising operational costs, amongst others. On the investment side, the Group remains committed to bring our performance to the next level by investing in strategic logistic assets and facilities, such as warehousing capacities in key growth areas and specialized logistics facilities such as cold chain logistics assets.
