A. NOTES PURSUANT TO THE FINANCIAL REPORTING STANDARD 134 (FRS 134): INTERIM FINANCIAL REPORTING

A1. Basis of reporting preparation

The condensed consolidated interim financial statements are unaudited and has been prepared in accordance with Financial Reporting Standard 134 (FRS134): *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB") and Appendix 9B part A of the Listing Requirements of Bursa Malaysia Securities Berhad.

The condensed consolidated interim financial report should be read in conjunction with the audited financial statements of the Group and the Company for the financial year ended 31 December 2009 and the accompanying explanatory notes attached to this interim financial report.

A2. Significant Accounting Policies

A2.1. Change in Accounting Policies

The accounting policies and methods of computation used in the preparation of the consolidated interim financial statements of the Group are consistent with those used in the preparation of the last audited financial statements of the Group for the year ended 31 December 2009 except for the new standards, amendments and interpretations adopted during the period under review as disclosed below:

FRS 139, Financial Instruments: Recognition and Measurement

The adoption of FRS 139 has resulted in changes to accounting policies relating to recognition and measurement of financial instruments and the new accounting policies are as follows:

Initial recognition and measurement

A financial instrument is recognised in the financial statements when, and only when, the Group becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract and the host contract is not categorised at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with the policy applicable to the nature of the host contract.

Financial instrument categories and subsequent measurement

The Group categorises financial instruments as follows:-

Financial Assets

a) Financial assets at fair value through profit or loss

Fair value through profit or loss category comprises financial assets that are held for trading, including derivatives (except for a derivative that is a designated and effective hedging instrument) of financial assets that are specifically designated into this category upon initial recognition.

b) Held-to-maturity investments

Held-to-maturity investments category comprises debt instruments that are quoted in an active market and the Group has the positive intention and ability to hold them to maturity.

Financial assets categorised as held-to-maturity investments are subsequently measured at amortised cost using the effective interest method.

c) Loan and receivables

Loans and receivables category comprises debt instruments that are not quoted in an active market, trade and other receivables and cash and cash equivalents.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

d) Available-for-sale financial assets

Available-for-sale category comprises investments in equity and debt securities instruments that are not held for trading.

Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost. Other financial assets categorised as available-for-sale are subsequently measured at their fair values with the gain or loss recognised in other comprehensive income, except for impairment losses, foreign exchange gains and losses arising from monetary items and gains and losses of hedged items attributable to hedge risks of fair value hedges which are recognised in profit or loss. On derecognition, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss. Interest calculated for a debt instrument using the effective interest method is recognised in profit or loss.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment.

Financial Liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Fair value through profit or loss category comprises financial liabilities that are held for trading, derivatives (except for a derivative that is a financial guarantee contract or designated and effective hedging instrument) or financial liabilities that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost.

Other financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

Regular way purchase or sale of financial assets

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

A regular way purchase or sale of financial assets is recognised and derecognised, as applicable, using trade date accounting. Trade date accounting refers to:

- a) the recognition of an asset to be received and the liability to pay for it on the trade date, and
- b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

The board of directors has assessed the impact of the adoption of FRS 139 and concluded that the fair value adjustments arising from remeasurement of financial instruments are immaterial to the financial statements. Thus no adjustment has been made to the opening balances of reserves.

FRS 7, FRS 8 and FRS 101 only impact presentation and disclosure aspects of the financial statements.

FRS 123 (revised)

The revised FRS 123 requires an entity to capitalise borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset and removes the option of immediately recognising the borrowing cost as an expense. The adoption of FRS 123 (revised) does not have a material impact to the Group.

IC Interpretation 10

IC Interpretation 10 prohibits the reversal of an impairment loss recognised in an interim period during the financial year in respect of goodwill, an investment in an equity instrument or a financial asset carried at cost. IC Interpretation 10 applies prospectively from the date the Group first applied the measurement criteria of FRS 136, *Impairment of Assets* and FRS 139 respectively. The adoption of IC Interpretation 10 does not have any impact to the financial statements of the Group as no reversal of such impairment loss has been made in the current or previous periods.

A2.2. Standards, Amendments and Interpretations Yet to be Adopted

The Group has not applied the following accounting standards (including their consequential amendments) and interpretations that have been issued by the Malaysian Accounting Standards Board but are only effective for annual periods beginning on or after the respective dates indicated herein:

FRS 3 (revised)

FRS 3 (revised), which is to be applied prospectively, incorporates the following changes to the existing FRS 3:

- The definition of a business has been broadened, which is likely to result in more acquisitions being treated as business combinations.
- Contingent consideration will be measured at fair value, with subsequent changes therein recognised in profit or loss.
- Transaction costs, other than share and debts issue costs, will be expensed as incurred.
- Any pre-existing interest in the acquiree will be measured at fair value with the gain or loss recognised in profit or loss.
- Any minority (will be known as non-controlling) interest will be measured at either fair value, or at its proportionate interest in the identifiable assets and liabilities of the acquiree, on a transaction-by-transaction basis.

The amendments to FRS 127 require changes in group composition to be accounted for as equity transactions between the group and its minority (will be known as non-controlling) interest holders.

The amendments to FRS 127 further require all losses attributable to minority interest to be absorbed by the minority interest i.e., the excess and any further losses exceeding the minority interest in the equity of a subsidiary are no longer charged against the Group's interest.

The above changes in FRS 127 are not expected to have material impacts to the Group.

IC Interpretation 4, which is to be applied retrospectively, provides guidance for determining whether certain arrangements are, or contain, leases that are required to be accounted for in accordance with FRS 117, *Leases*. Where an arrangement is within the scope of FRS 117, the Group applies FRS 117 in determining whether the arrangement is a finance or an operating lease. The adoption of ICI 4 is not expected to have a material impact to the Group.

IC Interpretation 15, which is effective for annual periods beginning on or after 1 January 2012, is not applicable to the Group.

Financial Reporting Standards will be fully converged with International Financial Reporting Standards by 1 January 2012. The financial impact and effect on disclosures and measurement consequent on such convergence are dependent on the issuance of such new or revised standards, amendments and interpretations as are necessary to effectuate the full convergence.

B ADDITIONAL INFORMATION REQUIRED BY BURSA SECURITIES' LISTING REQUIREMENTS

B1. Review of performance of the Company and its principal subsidiaries

The Group's performance for the quarter under review versus the corresponding quarter of the previous financial year is tabled below:

	Quarter ended	Quarter ended	Variance	e
	30-Sep-10	30-Sep-09		
	RM'000	RM'000	RM'000	%
Revenue	72,427	49,329	23,098	47
Profit before tax (excluding share of results of an associate)	24,674	11,636	13,038	112
Share of results of an associate	1,814	-	1,814	
Profit before tax (including share of results of an associate)	26,488	11,636	14,852	128
Total comprehensive income for the period attributable to owners of the Company	22,629	11,026	11,603	105

Comparatively, the Group's revenue for the current quarter ended 30 September 2010 increased by 47% while profit before tax (excluding share of results of an associate) and total comprehensive income for the current quarter increased by 112% and 105% respectively, when compared to the quarter ended 30 September 2009. The higher revenue in the current quarter as compared to the corresponding quarter is mainly due to higher value of work orders received and performed in the current quarter.

Whilst revenue increased by RM23.1 million ie 47%, profit before tax (excluding share of results of an associate) for the current quarter increased by RM13.0 million ie. 112% in view of the fact that the work orders in the current quarter have a higher profit margin contribution.

The Group's associate, Syarikat Borcos Shipping Sdn Bhd, contributed a profit of approximately RM1.8 million, further increasing the group's total profit before tax for the current quarter by 16%.

In the opinion of the Directors, the results for the current quarter and financial year-to-date have not been affected by any transactions or events of a material nature which have arisen between 30 September 2010 and the date of this report.

B2. Material changes in the quarterly results compared to the results of the preceding quarter

	Current Quarter ended	Preceding Quarter ended		
	30-Sep-10	30-Jun-10	Variance	
	RM'000	RM'000	RM'000	%
Revenue	72,427	56,495	15,932	28
Profit before tax (excluding share of results of an associate)	24,674	18,533	6,141	33
Share of results of an associate	1,814	(272)	2,086	767

Total comprehensive income for the period attributable to owners of the Company	22,629	14,410	8,219	57

In the current quarter, the Group's revenue was 28% higher, the profit before tax (excluding share of results of an associate) was 33% higher and the total comprehensive income was 57% higher compared to the preceding quarter.

The higher revenue of RM72.4 million for the current quarter as compared to RM56.5 million for the preceding quarter is mainly due to higher work orders received and performed in the current quarter.

Whilst revenue increased by RM15.9 million ie. 28%, profit before tax increased by RM6.1 million ie. 33% in view of the fact that the work orders in the current quarter have a higher profit margin contribution as compared to those of the preceding quarter.

The Group's associate, Syarikat Borcos Shipping Sdn Bhd contributed a profit of approximately RM1.8 million ie an increase of 767% from the preceding quarter.

B3. Prospects for the current financial year

The Directors remain positive of the Group's prospects for the remaining quarter of the current financial year as the Group has on-going contracts of about RM1.0 billion to last at least until the year 2015. The Group is hopeful to see strong contributions from its 40% associate, Syarikat Borcos Shipping Sdn Bhd for the full year ending 31 December 2010.

The Directors are optimistic and confident that business for the remaining months of 2010 is expected to be maintained and sustained. Nevertheless, the Directors will continue to exercise due care, prudence and caution in order to preserve and enhance shareholders' value.

B4. Profit forecast and profit guarantee

There was no profit guarantee issued by the Group.
