14. Review of performance of operating segments for the current quarter and financial period ended 30 September 2024

Energy Services Segment

The Energy Services Segment's external revenue for the third quarter and financial periods ended 30 September 2024 were RM554.1 million and RM1,780.8 million respectively, compared with RM609.7 million and RM1,594.3 million in the corresponding periods in 2023. The segment registered a loss before tax of RM21.0 million and profit before tax of RM109.7 million respectively, compared with profit before tax of RM41.9 million and RM126.7 million in the corresponding periods in 2023.

The decrease in revenue in the current quarter was contributed by a combination of impact of translation US Dollar revenue into Ringgit as well as timing of execution of projects in the order book. Loss before tax during the quarter was due to recognition of impairment losses on financial and non-financial assets, amounting to approximately RM34.5 million. Excluding this, the segment recorded a profit before tax of RM13.5 million for the current quarter.

These impairment losses recognized also resulted in the financial period profit before taxation being lower than the previous corresponding period despite achieving a higher revenue.

Bioenergy Services Segment

The Bioenergy Services Segment's external revenue for the third quarter and financial periods ended 30 September 2024 were RM81.5 million and RM201.5 million respectively, compared with RM82.6 million and RM210.4 million in the corresponding periods in 2023. The profit before tax were RM14.2 million and RM59.8 million respectively, as compared with RM14.0 million and RM34.2 million in the corresponding periods in 2023.

There were no significant changes in the segment's revenue in the current periods compared with the corresponding periods in 2023. The segment reported a higher profit before tax for the current financial period due to recognition of one-off gain in first quarter from the disposal of assets held for sale.

15. Material changes in the profit before taxation for the current quarter as compared with the immediate preceding quarter

The Group recorded a profit before taxation of RM23.7 million in the current quarter, compared with RM44.4 million in the previous quarter. The lower profit in the current quarter was a result of lower revenue generated as well as recognition of impairment losses.

16. Prospects

The Group's order book of RM3.0 billion, comprises of RM2.7 billion in the Energy Services segment and RM282.1 million in the Bioenergy Services segment. The Group's order book has been mainly impacted by the translation of US Dollar projects into Ringgit as at 30 September 2024. The Group's tender book remains healthy with further awards anticipated in the near future.
