As stated in the Prospectus dated 10 June 2008, we have intended to utilize approximately RM3.0 million of the proceeds to purchase and install a new reactor and related equipment at our Unsaturated Polyester Plant in Melaka, to increase production capacity by another 50% in order to reach an output of 30,000 metric tonnes per annum. In addition, we intended to utilize approximately RM500,000 of the proceeds to increase our warehouse storage capacity by installing improved rack systems at our manufacturing plant.

We have yet to utilize this amount as we have put on hold this capital expenditure in view of the financial crises and global economic slowdown. We are continuously monitoring the market situation and will only expand our plant capacity when there is sufficient and sustainable market demand.

##### Expansion of business and markets

As disclosed in our Prospectus dated 10 June 2008, we intended to utilize RM2.5 million of the proceeds to set up sales and marketing offices in Indonesia, Vietnam and China to improve our services to customers in the region.

In view of the global economic slowdown which resulted in drastic changes to market conditions, we have yet to set up sales and marketing offices overseas. However, we make regular trips overseas for market development.

As we continue our efforts to expand our overseas customer base, we will continue to monitor the need to set up offices in these countries. When there are sufficient justifications in terms of market demand and economic conditions in these countries, we will proceed with the setting up of sales and market offices.
