12. Contingent liabilities or contingent assets

A subsidiary, Perusahaan Saudee Sdn. Bhd. ("PSSB") received a Letter of Claim from the Royal Malaysian Customs Department ("Customs Department") under Section 30(1) of Sales Tax Act 1972 for non-payment of sales tax and late penalties in relation to Letter of Claim dated 19 January 2015 for sales tax amounting to RM1,333,914.62 covering period from 1 November 2011 to 31 October 2014 relating to sales of beef burgers and rabbit burgers said to be packed in air-tight containers and penalty amounting to RM323,676.19 up to 31 January 2015 ("the Claim").

PSSB has submitted an appeal letter on 31 October 2017 for the cancellation of the Claim to Customs Department based on the lab test concluded by PSSB which supports that the requirement to be classified as "air-tight" container under the Customs Duties Order 2017 is not met. However Customs Department rejected the appeal of the Claim and instructed PSSB to make the payment. PSSB has complied with the instructions of Customs Department without prejudice and made the 10% upfront payment amounting to RM165,760 and the remaining balance shall be based on the instalment payments for 36 months approved by Customs Department.

On 29 July 2020, PSSB submitted an appeal letter on remission of sales tax and penalty as per the claim to the Ministry of Finance on the basis of PSSB has submitted for cancellation of sales tax license in 2002 due to the information received from Customs Department that sales tax is not applicable and Customs Department has accepted the cancellation.

Based on advice of the consultant, the directors are of the view that PSSB has good chance of success in the appeal for the remission, accordingly, no provision has been recognised in the financial statements.

The Group does not have any material contingent assets since the last audited financial statements for the financial year ended 31 July 2020.

(Incorporated in Malaysia with limited liability under the Companies Act, 1965)

Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

Fair Value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 unobservable inputs for the asset or liability.

As at end of the current quarter under review, the carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

There were no transfers between levels of fair value hierarchy during the current quarter under review.

Revenue for the quarter under review (Q1 2021 vs Q1 2020) increased by RM1.05 million to RM19.73 million as compared to its preceding year corresponding quarter of RM18.68 million with PAT of RM0.27 million in current quarter as compared to its preceding year corresponding quarter of RM0.23 million.

The slight increase in sales were due to below:-

- 1) Increase in trading sales in order to sustain the business during this Pandemic period although the margin generated from trading sales is low; and
- 2) Decrease in demand of high margin FPP product due to imposed of CMCO during the quarter under review.

(Incorporated in Malaysia with limited liability under the Companies Act, 1965)

2. Variation of Results against Preceding Quarter

The revenue for the current quarter ended 31 October 2020 was RM1.17 million lower than preceding quarter ended 31 July 2020.

The decrease in revenue were mainly due to the following reasons:-

- 1) Decrease in HORECA and OEM segment as many F&B outlets experience less customers during CMCO period thus the demand reduced significantly;
- 2) Increase in trading sale in Q1 2021 in order to sustain the business; and
- 3) Increase in FPP from lower margin product range.

However the Group generated PAT of RM0.27 million for the quarter under review as compared to preceding quarter of loss of RM2.83 million.

3. Prospects

Following the MCO, CMCO and RMCO for the period from 18 March 2020 to 31 December 2020 imposed by Malaysian Government, the Group foresee a recovery of business in coming quarters as follows:

- 1) The FPP sector such as sausages, burger and nugget will recover at slower pace and the Group expected it will impact us for at least 12 months to 18 months before back to normal;
- 2) However, the Group will continue its effort in cost reduction and improve efficiency program to mitigate the impact and concentrate on low margin FPP products to fulfil the demand.
