As Covid-19 virus spreads across the world, the World Health Organisation declared it a pandemic in March 2020. In response to the outbreak, Malaysia implemented Movement Control Order 3.0 ("MCO 3.0") in June 2021 to contain the spread of COVID-19 causing most business and social activities to be severely disrupted with major macro-economic impacts. Due to this nationwide lockdown measure, the Group's production of furniture had to temporarily stop work started from 1 June 2021 as the Ministry of International Trade and Industry ("MITI") of Malaysia considered the Group's furniture products were not essential products. The Group had resumed the production of furniture in mid of September 2021 after 14 days of second doses vaccination are administered to all the workers. Outlook for 2022 remains challenging and uncertain as the full impact of the COVID-19 pandemic has not been ascertained.

Given the above scenario, the Group will continue to remain focused in their core business of design, manufacture, and sale of upholstered home furniture which includes upholstered sofas, upholstered dining chairs and upholstered bed frames. The Group are continuing with concerted efforts to develop new products, new design for existing products, derive better cost efficiencies and effective cost management across all functions. The Board believes that the Group's prospects for the financial year ending 31 August 2022 would remain profitable.
