<u>Detailed Analysis for current quarter</u>

The Group recorded a revenue of RM414.4 million for the reporting quarter, a reduction of 22.2% compared to the previous year's corresponding quarter. The Group also recorded a full year revenue of RM1,594.3 million, a reduction of 28.9% compared to the previous year's corresponding period. This was due mainly to the reduction in volume shipped and reduction of Average Selling Prices ("ASP").

The Group recorded a net loss of RM2.3 million for the reporting quarter compared to net loss of RM3.5 million in the previous year's corresponding quarter, the improvement on net result at a lower revenue was due mainly to improved operational efficiency in current quarter and higher operational cost in the previous year corresponding quarter.

The Group recorded a net loss of RM61.6 million for the financial year, compared to net profit RM427.3 million recorded in the previous financial year, this was due mainly to the lower revenue as discussed above and, while comparing to previous financial year as a whole, the higher overall operating costs for the reporting financial year as a result of lower output caused by reduction in global demand for the HDD and resumption by other suppliers of the mechanical components of the HDD after the Thailand floods. In addition, our customers have also tightened up their quality requirement and this has resulted in lower yields for our output, our cost of sales has increased accordingly for the current financial year as compared to previous financial year.

As our segmental report is based on geographical performance with similar business activities, the factors affecting the earnings and revenue for Malaysia and Thailand segments are similar to those affecting the Group as discussed above.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded a revenue of approximately RM414.4 million for the reporting quarter or an increment of 3.2% compared to RM401.7 million recorded in immediately preceding quarter ended 30 June 2013, this was due mainly to the better average exchange rate of USD against Ringgit Malaysia while trading at a considerably flat ASP and volmue.

The Group also recorded a net loss of RM2.3 million for the reporting quarter, compared to net loss of RM12.8 million reported in immediately preceding quarter ended 30 June 2013. The improvement was due mainly to the Company's continuing efforts on improving its operational efficiency and the better revenue contributed mainly from better average exchange rate of USD against Ringgit Malaysia.

B3. FUTURE PROSPECT

Despite the lack of visibility creating some potential concerns for the near future, the HDD industry looks to be on a steady footing through the end of the calendar year. The mechanical component supply chain is becoming increasingly competitive given the continued pressure on components pricing and possible over-capacity due to uncertainty over the Total Addressable Market (TAM) in the medium term.

JCY is confident in its ability to remain competitive in terms of cost effectiveness and quality. We will continue to improve our performance through automation programmes to ensure labour productivity and to improve our product quality.

Barring unforeseen circumstances, we expect to leverage these attributes to improve our profitability in the near future.

B4. VARIANCE FROM PROFIT FORECAST

Not applicable as the Group has not issued any profit forecast for the period under review.

Tenaga Nasional Berhad ("TNB") vs JCY HDD Technology Sdn Bhd ("JCY HDD")

A subsidiary of the Company, JCY HDD Technology Sdn. Bhd. ("JCY HDD"), has received letters dated 14 December 2010 from Tenaga Nasional Berhad ("TNB") claiming for additional electricity charges of approximately RM8.36 million. JCY HDD had disputed the claims and had discussed with TNB as to their basis and quantification of the additional electricity charges.

On 15 December 2011, the Judge fixed for decision for the case after a preliminary question of law that TNB's claim is only restricted to 3 months backcharges and JCY HDD is only required to pay to TNB for an amount of approximately RM1.05 million. However, TNB had filed an appeal to the Court of Appeal against the decision of the High Court made on 15 December 2011.

This matter was originally fixed for full trial on 13th and 14th May 2013 but the full trial was first rescheduled to 31st July 2013 and then rescheduled to 23rd and 24th October 2013. Since then, as the Judge had been promoted to Court of Appeal, the case had been rescheduled for a case management on 9th December 2013 for the purposes of fixing a new trial date.

There will be no significant financial impact arising from the case as the major shareholder of the Company has undertaken to indemnify the Company for any claim awarded.
