Detailed Analysis for current quarter and cumulative period

The Group recorded a revenue of RM508.8 million for the reporting quarter and RM996.7 million for the cumulative period of the first 6 months of current financial year, representing an increment of 7.0% and 4.7% respectively compared to previous year's corresponding periods. These were due mainly to the better average exchange rate of USD against Ringgit Malaysia and improved Average Selling Prices ("ASP") in the reporting quarter.

The Group recorded a net profit after tax of RM51.2 million for the reporting quarter and RM101.3 million for the cumulative period of the first 6 months of current financial year, compared to net profit after tax of RM38.1 million and RM68.4 million respectively in the previous year's corresponding periods, the improvement on profit after tax was due mainly to the higher revenue as described above, improved operational efficiency in the reporting periods and exchange gain resulted from translating financial assets and liabilities.

As our segmental report is based on geographical performance with similar business activities, the factors affecting the earnings and revenue for Malaysia and Thailand segments are similar to those affecting the Group as discussed above.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded a revenue of approximately RM508.8 million for the reporting quarter or an improvement of 4.3% compared to RM487.9 million recorded in immediately preceding quarter ended 31 December 2014, this was due mainly to the better average exchange rate of USD against Ringgit Malaysia and improved ASP in the reporting quarter.

The Group also recorded a profit before tax of RM52.5 million for the reporting quarter, compared to profit before tax of RM51.0 million reported in immediately preceding quarter ended 31 December 2014. The improvement of 2.8% in reporting profit before tax was due mainly to the higher revenue as explained above, despite the higher exchange gain recorded in the immediate preceding quarter.

B3. FUTURE PROSPECT

Original Design Manufacturer (ODM) shipment numbers released recently for the 31 March 2015 quarter continue to reveal softness in PC builds with output down slightly compared with the shipment number in the previous financial quarter. However, enterprise shipments are expected to recover in the second half of the year on increased demand from traditional storage/server vendors as well as hyperscale companies.

The Sony Playstation 4 finally commenced selling in China towards the end of March 2015 and the prospective PC refresh cycle resulting from Windows 10 may help to improve HDD shipments for the second half of 2015. The demand for cloud infrastructure and enterprise applications will continue to make up for the reduction in PC shipments.

The recent appreciation of the US Dollar relative to Ringgit Malaysia will continue to benefit our results as all our sales are denominated in U.S. Dollars. JCY will continue to automate its production process to improve productivity and reduce reliance on manual workers. Our competitive strengths of economies of scale and multi-components capability will enhance our future profitability.

B4. VARIANCE FROM PROFIT FORECAST

Not applicable as the Group has not issued any profit forecast for the period under review.

B5. TAXATION

Domestic current income tax is calculated at the statutory tax rate of 25% (2014: 25%) of the estimated assessable profit for the year. Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. Certain subsidiaries of the Group enjoy tax exemptions from the relevant authorities on their business income for current and future periods. The computation of deferred tax as at 31 March 2015 has reflected the effects of such exemptions.

Tenaga Nasional Berhad ("TNB") vs JCY HDD Technology Sdn Bhd ("JCY HDD")

A subsidiary of the Company, JCY HDD Technology Sdn. Bhd. ("JCY HDD"), has received letters dated 14 December 2010 from Tenaga Nasional Berhad ("TNB") claiming for additional electricity charges of approximately RM8.36 million. JCY HDD had disputed the claims and had discussed with TNB as to their basis and quantification of the additional electricity charges.

On 15 December 2011, the Judge fixed for decision for the case after a preliminary question of law that TNB's claim is only restricted to 3 months backcharges and JCY HDD is only required to pay to TNB for an amount of approximately RM1.05 million. However, TNB had filed an appeal to the Court of Appeal against the decision of the High Court made on 15 December 2011.

Currently, the matter is fixed for Case Management on 12 June 2015 pending determination by the Federal Court of a similar issue which arose in a different case.

There will be no significant financial impact arising from the case as the major shareholder of the Company has undertaken to indemnify the Company for any claim awarded.
