Detailed Analysis for current quarter and cumulative period

The Group recorded a revenue of RM323.0 million for the reporting quarter and RM1,390.9 million for the financial year under review, these represent a reduction of 17.1% and 13.0% respectively compared to previous year's corresponding periods. The reduction in revenue comparing to the previous corresponding periods was due mainly to the weakening of the US Dollars against functional currencies of the Group and lower overall volume shipped.

The Group recorded a net loss of RM58.5 million and RM120.7 million for the reporting quarter and the financial year respectively, compared to net loss of RM6.6 million and net profit of RM40.9 million respectively in the previous year's corresponding periods. The deterioration of the net results was due mainly to the impairment loss of RM91.2 million arising from the reduction in recoverable amount of the property, plant and equipment and the lower revenue recorded in the financial year as explained above, despite the improvement on gross profit margin for the reporting quarter as a result of the Company's continuous operational efficiency improvement efforts in the reporting quarter.

As our segmental report is based on geographical performance with similar business activities, the factors affecting the earnings and revenue for Malaysia and Thailand segments are similar to those affecting the Group as discussed above.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded a revenue of approximately RM323.0 million for the reporting quarter or 2.7% lower compared to the RM332.1 million revenue recorded in the immediate preceding quarter ended 30 June 2018. The reduction on revenue was due mainly to lower overall volume shipped despite the improvement of the average exchange rate on US Dollars against functional currencies and better product mixes during the period under review.

The Group recorded a loss before tax of RM69.3 million for the reporting quarter, compared to loss before tax of RM9.0 million reported in the immediate preceding quarter ended 30 June 2018. The deterioration of the profit before tax was due mainly to the impairment loss of RM91.2 million arising from the reduction in recoverable amount of property, plant and equipment.

B3. FUTURE PROSPECT

There is still significant demand for HDDs in the storage space, and we expect this to continue into the near future, although solid-state drives (SSDs) continue to encroach. Recent developments in SSDs include increasing use of PUC (Periphery Under Cell) technology, and the entry of a new solid-state memory manufacturer. This will place negative pressure on NAND prices, and in turn further affect HDD demand in the longer term.

JCY continues to evaluate various strategies to diversify its product mix, leveraging its competitive advantage in precision manufacturing to expand into other related fields.

B4. VARIANCE FROM PROFIT FORECAST

Not applicable as the Group has not issued any profit forecast for the period under review.

B5. TAXATION

Domestic current income tax is calculated at the statutory tax rate of 24% (2016: 24%) of the estimated assessable profit for the year. Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. The computation of deferred tax as at 30 September 2018 has reflected the effects of such exemptions.

There is no major changes to material litigation since the last statement of financial position date as of 30 September 2017, save for:-

Tenaga Nasional Berhad ("TNB") vs JCY HDD Technology Sdn Bhd ("JCY HDD")

A subsidiary of the Company, JCY HDD Technology Sdn. Bhd. ("JCY HDD"), has received letters dated 14 December 2010 from Tenaga Nasional Berhad ("TNB" or the "Plaintiff") claiming for additional electricity charges of approximately RM8.36 million. JCY HDD had disputed the claims and had discussed with TNB as to their basis and quantification of the additional electricity charges.

On 15 December 2011, the Judge fixed for decision for the case after a preliminary question of law that TNB's claim is only restricted to 3 months backcharges and JCY HDD is only required to pay to TNB for an amount of approximately RM1.05 million. However, TNB had filed an appeal to the Court of Appeal against the decision of the High Court made on 15 December 2011.

On 19 July 2018, the Court decided that the Plaintiff's claim for a balance sum of RM6.97 million is allowed and the cost of RM25,000 is awarded to the Plaintiff, and that interest at the rate of 5% per annum is payable on the judgment sum calculated from the date of judgment until date of full settlement. JCY HDD had filed an appeal on 16 August 2018.

The Company expects there will be no significant financial impact arising from the case as the major shareholder of the Company has undertaken to indemnify the Company for any claim awarded.
