Detailed Analysis for current quarter and cumulative period

The Group recorded a revenue of RM301.5 million and RM1,075.8 million for the reporting quarter and financial year respectively, these represent an increase of 16.6% in the reporting quarter and 3.7% for the financial year compared to previous year's corresponding periods. The higher revenue in the reporting quarter compared to previous year corresponding period was due mainly to higher shipment quantity. The Group also recorded a slightly higher revenue for the reporting financial year compared to previous financial year due to better products mix, despite having an isolated significant impact of shipment reduction in 3rd financial quarter due to tha global pandemic of COVID-19.

The Group recorded a net profit of RM14.1 million and RM25.6 million for the reporting quarter and financial year respectively, compared to net loss of RM2.2 million and RM54.2 million recorded in the previous year corresponding periods. The improved net results were due mainly to the increase in revenue for the reporting quarter as explained above, and the improvement in gross margin as a result of cost rationalisation efforts as well as the reversal of impairment loss on properties, plants and equipment of RM34.6 million (FY2019: provision of impairment loss of RM29.7 million), despite the reporting of substantial foreign exchange rate losses of RM14.9 million (FY2019: gain of RM6.2 million) in the reporting quarter due mainly to the strengthening of MYR and weakening of THB against USD.

As our segmental report is based on geographical performance with similar business activities, the factors affecting the earnings and revenue for Malaysia and Thailand segments are similar to those affecting the Group as discussed above.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded a revenue of approximately RM301.5 million for the reporting quarter or 32.8% higher compared to RM227.0 million of revenue recorded in the immediate preceding quarter ended 30 June 2020. The increase on revenue was due mainly to higher overall quantities shipped during the reporting period compared to poor shipment in the preceding quarter as a result of the Movements Control Order (MCO) imposed in Malaysia.

The Group recorded a profit before tax of RM27.5 million for the reporting quarter, compared to profit before tax of RM3.3 million reported in the immediate preceding quarter ended 30 June 2020. The improvement of the result before tax was due mainly to higher revenue as explained above, reversal of impairment loss on properties, plants and equipment, despite high exchange loss in the reporting quarter.

B3. FUTURE PROSPECT

The coronavirus pandemic continues to affect the global economy, especially with the second wave of the pandemic in Western Europe and USA negatively impacting demand in these markets. On the other hand there have been positive developments with regard to the development of vaccines which suggest that a gradual recovery may be expected some time in the future.

Demand for IT products has been maintained, largely through continuing work from home (WFH) and investments in IT infrastructure. As a result the HDD market is expected to remain relatively stable even if large cloud operators may not be embarking on major capacity expansion due to uncertainties in business demand.

With the expected gradual reduction in global TAM to below 70 million per quarter in the near future, major HDD producers may possibly embark upon a rationalisation of their supply chain, which in turn will affect HDD component suppliers. JCY will deploy its resources to accommodate likely changes in the market.

Tenaga Nasional Berhad ("TNB") vs JCY HDD Technology Sdn Bhd ("JCY HDD")

A subsidiary of the Company, JCY HDD Technology Sdn. Bhd. ("JCY HDD"), has received letters dated 14 December 2010 from Tenaga Nasional Berhad ("TNB" or the "Plaintiff") claiming for additional electricity charges of approximately RM8.36 million. JCY HDD had disputed the claims and had discussed with TNB as to their basis and quantification of the additional electricity charges.

On 15 December 2011, the Judge fixed for decision for the case after a preliminary question of law that TNB's claim is only restricted to 3 months backcharges and JCY HDD is only required to pay to TNB for an amount of approximately RM1.05 million. However, TNB had filed an appeal to the Court of Appeal against the decision of the High Court made on 15 December 2011.

On 19 July 2018, the Court decided that the Plaintiff's claim for a balance sum of RM6.97 million is allowed and the cost of RM25,000 is awarded to the Plaintiff, and that interest at the rate of 5% per annum is payable on the judgment sum calculated from the date of judgment until date of full settlement. The principal sum of the claim had been paid by a major shareholder of the Company.
