<u>Detailed Analysis for current quarter and cumulative period</u>

The Group recorded a revenue of RM276.9 million for the reporting quarter, this represents a slight reduction of 0.4% in the reporting quarter compared to previous year's corresponding period. The Group achieved higher shipments in the reporting quarter compared to previous year's corresponding period, but translated at a weaker USD exchange rate against Ringgit Malaysia.

The Group recorded a net loss of RM17.7 million reporting quarter, compared to net profit of RM4.0 million in the previous year corresponding period. The deteriorated net result was due mainly to the weakening of US Dollar exchange rate against Ringgit Malaysia and lower production yield for the recently launched products. However, the Group recorded RM41,000 exchange gain in the reporting quarter due to varying strengths of subsidiaries' functional currencies against US Dollar.

As our segmental report is based on geographical performance with similar business activities, the factors affecting the earnings and revenue for Malaysia and Thailand segments are similar to those affecting the Group as discussed above.

B2. COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded a revenue of approximately RM276.9 million for the reporting quarter or 8.2% lower compared to RM301.5 million of revenue recorded in the immediate preceding quarter ended 30 September 2020. The lower revenue was due mainly to the weakening of US Dollar against Ringgit Malaysia and reduction in average selling prices.

The Group recorded a loss before tax of RM18.8 million for the reporting quarter, compared to profit before tax of RM27.5 million reported in the immediate preceding quarter ended 30 September 2020. The deterioration of the result before tax was due mainly to lower revenue as explained above and the reversal of impairment loss on properties, plants and equipment in the immediate preceding quarter.

B3. FUTURE PROSPECT

The COVID-19 pandemic has a significant, generally adverse, impact on the global economy. Despite this, the electronics and manufacturing sectors appear to have maintained reasonable stability. However, as reported in our previous quarterly updates, the demand for HDD remains relatively stable.

There are however changes that will affect the performance of the company moving forward. Examples are variations in exchange rates and changes in raw material and shipping costs and availability. In addition, the COVID-19 pandemic has necessitated greater attention to the need to ensure the health and welfare of our workers.

JCY has also been heavily engaged in its customers' re-alignment initiative. This is a major and farreaching project. Thus far we are satisfied with the progress of the transition and we are fully committed to ensure its successful realisation.
