#### ADDITIONAL NOTES REQUIRED BY THE LISTING REQUIREMENT OF BURSA MALAYSIA SECURITIES BERHAD

(Continued)

FY2024 has been a remarkable year for JCY group. The group has shown good steady positive financial results. This is the result of:

- a) A step-by-step improvement of the groups structural cost in the last 2 years. Improving yields and reducing wastes through engineering methods and
- b) The steady recovery of the HDD industry. Thereby improving factory utilisation above the break-even point.

This is even more significant that the factory utilisation for the group did not exceed 52% for the year.

#### **B2.** COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded a revenue of RM167.5 mil for the reporting period. This represents an increment of 1.3% compared to RM165.3 mil revenue recorded in the immediately preceding quarter ending 30 Jun 2024. This is despite the 3% weakening of the USD to RM exchange rate from average rate of 4.7325 in Jun quarter to 4.5428 in Sep quarter. The drop in exchange rate had an impact on profitability. The Group recorded a net profit of RM16.3 mil for the reporting quarter, compared to net profit of RM9.9 mil recorded in the immediate preceding quarter ended 30 Jun 2024. As mentioned in B1 above, the net profit was arrived at after taking into account:

- a) RM31.7 mil negative impact from forex changes in the reporting period.
- b) One-time positive gain of RM48.6 mil due to recycling of translation differences resulting from the closure of a foreign subsidiary.

#### **B3. FUTURE PROSPECT**

The HDD industry has experienced quarter-over-quarter growth in recent months, indicating a strong recovery from the lows of 2023. For the quarter ending 30 Sept 2024, nearline HDDs saw a 15% increase in shipments compared to the previous quarter. However, the performance of other segments, such as the client and consumer markets, is mixed, with most showing flat or declining trends. The market anticipates continued strong demand for nearline HDDs, at least in the short term, while the client and consumer markets are expected to enter the traditional seasonal low period.

JCY is focused in executing our strategy:

1) Strengthening our position in HDD industry. JCY is currently in qualification on the next generation nearline products.

- 2) Leveraging our core competency to diversify producing other product streams. We have attained 3 new customers that are in production or will enter production in FY2025. All 3 customers are partnering with JCY due to our technical capability and our available unused equipment capacity. Their decision is further driven by a desire to mitigate supply chain risks, particularly in light of the ongoing US-China geopolitical tensions, which have been further intensified by the recent conclusion of the US presidential election. The background of the 3 customers are:
- a. JCY completed the acquisition of WPSY (M) Sdn Bhd on 1 Oct 2024. One of JCY's new customer comes through WPSY (M) Sdn Bhd. We are now shipping 2 parts to this customer in the America's that eventually ships the finish product to a major EV company in USA. Current demand plus an overstocking of inventory, current production has slowed down but we do expect recovery in 2025.
- b. The 2 other new customers are also serving the America and European markets. We have currently 13 parts in various stages of qualification, and we are expecting to go into production in the Jan/Mar quarter.

This process will be a gradual part by part qualification followed by a ramp process. After these new parts are in production, we will repeat the process with the next set of new parts from the same 3 companies. The revenue growth will come gradually. Barring any unforeseen circumstances, we estimate that the total full potential incremental revenue from these new customers can be as much as RM250 mil/year at the end of a 3 year period.

That said, we do expect headwinds as we enter the traditionally slower quarters for Clients and consumer HDDs and our financial results will continue to be subjected to foreign exchange gain/loss.
