A2. Significant Accounting Policies (cont’d)

Other than the application FRS 8 and FRS 101, the application of the above FRSs, Amendments to FRSs and Interpretations do not have any material impact on the financial position and results of the Group.

(a) FRS 8 : Operating Segments (FRS 8)

FRS 8 requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a result, the Group’s segmental reporting had been presented based on the internal reporting to the chief operating decision maker who makes decisions on the allocation of resources and assesses the performance of the reportable segments. This standard does not have any material impact on the financial position and results of the Group.

(b) FRS 101(revised) : Presentation of Financial Statements

FRS 101 separates owner and non-owner changes in equity. Therefore, the current consolidated statement of changes in equity only includes details of transactions with owners. All non-owner changes in equity are presented as a single line labeled as total comprehensive income. Comparative information, with exception of the requirements under FRS 139, had been re-presented so that it is also in conformity with the revised standard. This standard does not have any material impact on the financial position and results of the Group.

(c) Amendments to FRS 117(revised) : Leases

Amendments to FRS 117 removes the classification of leases of land and of buildings, and instead, requires assessment of classification based on the risks and rewards of the lease itself. The reassessment of land elements of unexpired leases shall be made retrospectively in accordance with FRS 108. Therefore, the Group has reclassified the prepaid lease payments for land as land held in accordance with FRS 116. This amendment shall be presented on the statement of financial position as at the beginning of the earliest comparative period in accordance with FRS 101.

	As previously reported	Effects on adoption of FRS 117	As restated
	RM	RM	RM
Property, plant and equipment	26,025,815	195,261	26,221,076
Prepaid lease payments	195,261	(195,261)	-

(d) FRS 139 : Financial Instruments : Recognition and Measurement

Forward foreign currency exchange contracts of the Group have been measured at fair value and the changes in the fair value are recognised in the income statement.

In accordance with the transitional provision of FRS 139, the above changes are applied prospectively and the comparative as at 31 December 2009 are not restated.
