**B. ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA'S LISTING REQUIREMENTS**

**B1. Review of Performance of the Company and its Subsidiaries**

The Group's performance for the quarter under review versus the corresponding quarter of the previous financial year is tabled below:

	2nd Quarter Ended 30 Sep 2012	2nd Quarter Ended 30 Sep 2011	Variance		Year-To- Date 30 Sep 2012	Year-To- Date 30 Sep 2011	Variance	
	RM'000	RM'000	RM'000	%	RM'000	RM'000	RM'000	%
Revenue	255,019	229,542	25,477	11.1	502,697	448,913	53,784	12.0
Profit before tax	76,282	59,551	16,731	28.1	146,196	130,221	15,975	12.3

For the 2<sup>nd</sup> quarter year-on-year basis, the Group's sales revenue increased by 11.1% and profit before tax increased by 28.1%. The increase in revenue is in line with the Group's continuous expansion in production capacity and increase in demand.

The operating profit before other operating income/(expense) margin increase from 28.5% to 29.4% due to easing in raw material prices of nitrile and natural latex but also offset by more competitive sales pricing for the current quarter compared with the corresponding quarter of the preceding year.

The profit before tax margin increased from 25.9% to 29.9% due to the above mentioned reasons and the recognition of net gain in foreign exchange and changes in fair value in forward exchange contracts of RM489,000 in the current quarter compared with a net loss of RM6,612,000 compared with the corresponding quarter of the preceding year.

**B2. Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter**

	Current Quarter ended 30 Sep 2012	Preceding Quarter ended 30 Jun 2012	Variance	
	RM'000	RM'000	RM'000	%
Revenue	255,019	247,678	7,341	3.0
Profit before tax	76,282	69,914	6,368	9.1

In the current quarter, the Group's revenue was 3.0% higher and the profit before tax was 9.1% higher when compared to the preceding quarter.

The increase in revenue and profit before tax for the current quarter is basically due to increase in sales volume and easing of raw material prices of nitrile and natural latex for the current quarter compared with the preceding quarter.

**B3. Commentary on Prospects and Targets**

The global demand for nitrile gloves continued to grow by 29% for the year 2011 due mainly to switching momentum from natural rubber gloves to nitrile gloves. This has spurred a significant increase in nitrile gloves production capacity by the industry which we are confident would be more than matched by resilient demand dynamics. Furthermore, we do not expect a price war from the second half of 2012, as claimed by certain quarters as global demand growth continues to outpace growth in industry capacity.

We anticipate demand growth for nitrile gloves should be sustainable at 20% annually for the mid term. To meet the increasing export demands of nitrile gloves, our new plant, namely Plant 6, have begun construction in February 2012. The first production line had commissioned and commenced operations by end September 2012. Plant 6 will commission 10 production lines in total and is expected to increase our production capacity by 39% which translates to a further 3.9 billion pieces per annum. The construction of the 10 production lines in Plant 6 is expected to be fully completed in July 2013.

In view of current and anticipated bullish market conditions, we are making concerted efforts to put in place the foundation for long term sustainable growth. On this note, we have already strategized to beef up our human resource training facilities and manpower numbers.

We view that the concerted long term planning and efforts should bear fruit due to productivity gains and benefits of economies of scale derived from building capacity and leveraging on in-house technological competency to countervail the potential margin compression arising from greater competition and the impending minimum wage implementation. We remained resilient and continued to grow our top line and bottom line.

The recent easing off of raw material pricing for both nitrile and latex have enabled a more conducive environment for sustained earnings growth.

The Board of Directors is optimistic that the Group will achieve the internal target growth for both the sales revenue and net profit for the financial year ending 31 March 2013.

**B4. Variance of Profit Forecast/Profit Guarantee**

Not applicable as no profit forecast/profit guarantee was issued.

**B5. Profit For The Period**

Profit for the period is arrived at after charging/(crediting):

	<u>17,707</u>	<u>34,186</u>

The effective tax rate of the Group is lower than the statutory tax rate for the current quarter and financial year-to-date is mainly due to the availability of allowance for increase in export.

**B7. Status of Corporate Proposal**

As at the latest practicable date, 31 October 2012, there was no corporate proposal announced and not completed in the current quarter and financial year-to-date.

**B8. Group Borrowings and Debt Securities**

**B9. Financial Derivative Instruments**

As at 30 September 2012, the outstanding foreign currency forward contracts are as follows:

Type of Derivatives	Contract/Notional Value (RM'000)	Fair Value (RM'000)
Foreign Exchange Contracts		
Less than 1 year		
-USD denominated	137,667	138,740

The Group enters into foreign currency forward contracts to hedge its estimated net exposure to movements in exchange rates arising mainly from sales and purchases.

As foreign currencies contracts are hedged with creditworthy financial institutions in line with the Group's policy, the Group does not foresee any significant credit and market risks.

There are also no cash requirement risks as the Group only uses forward foreign currencies contracts as its hedging instruments.

The fair value derivative assets amounting to RM1,073,000 has been recognised in the financial statements.

**B11. Material Litigation**

As at the latest practicable date, 31 October 2012, there are no material litigations against the Group or taken by the Group saved as disclosed below:

- (a) Sentinel Engineering (M) Sdn. Bhd. and Hartalega Sdn. Bhd., wholly-owned subsidiaries of the Company (the "Plaintiffs"), have commenced legal proceedings against Ecotherm (TFT) Sdn. Bhd. and Ecotherm Sdn. Bhd. (the "Defendants") by filing a Writ and Statement of Claim on 6 August 2010 at the High Court of Malaya at Kuala Lumpur (the "High Court").

The Plaintiffs are seeking, amongst others, the following reliefs against the Defendants:

- (i) a declaration pursuant to Sections 56 and 57 of the Patents Act 1983 that Claims 1 to 14 of Malaysia Patent No. MY 121188-A (188 Patent) are invalid and null and void in Malaysia;
- (ii) a declaration that the amendments to the application for the 188 Patent are unlawful and ultra vires the Patents Act 1983, further contravene the Patents Regulations 1986 and render the 188 Patent invalid, null and void;
- (iii) a declaration pursuant to Section 62 of the Patent Act 1983 that the making, importing, offering for sale, selling or using of the Sentinel/Hartalega System does not constitute an infringement of any of the claims on the 188 Patent; and
- (iv) damages and costs.

The Defendants counterclaimed, amongst others, for the following reliefs:

- (i) a declaration pursuant to Sections 56 and 57 of the Patents Act 1983 that Claims 1 to 7 of Malaysia Patent No. MY 140770-A (770 Patent) are invalid and null and void in Malaysia;
- (ii) a declaration that the first and/or the second Defendant, as the case may be, is the patentee of the 188 Patent, the said 188 Patent is validly subsisting and has been infringed by the Plaintiffs jointly and severally;
- (iii) an injunction to restrain the Plaintiffs from dealing with the Sentinel/Hartalega System which is the subject matter of the 770 Patent or any other systems that infringe the 188 Patent in whatsoever manner; and
- (iv) damages and costs.

The High Court has delivered its judgment on 25 August 2011 whereby it is adjudged that:-

- (i) Patent No. MY 140770-A (770 Patent) entitled “The Arrangement and Method of Assembling Former Holders” is valid;
- (ii) Patent No. MY 121188-A (188 Patent) entitled “Conveyor System for Use in Dipping Process” is valid;
- (iii) the Plaintiffs’ double former conveyor system does not infringe the Defendants’ 188 Patent.

The Defendants have filed a notice of appeal to the Court of Appeal against part of the decision of the High Court relating to the issue of infringement of the 188 Patent and the validity of the 770 Patent, and the Plaintiffs have filed a Notice of Cross Appeal against part of the decision of the High Court relating to the validity of the 188 Patent. No date has been fixed by the Court of Appeal in relation to the appeal to date. No provision has been made in the financial statements of the Group as the directors in consultation with the solicitors are of the view that the Group has a good chance of success in resisting the Defendants’ appeal. However, the solicitors are of the view that the Plaintiffs do not have a strong case in respect of the cross appeal. As regards to any issue of costs, it has not been quantified as yet.

- (b) Mr. Seow Hoon Hin (the “Plaintiff”), a shareholder of the Company and a former shareholder of Hartalega Sdn. Bhd. (“HSB”), has instituted legal proceedings against the Company, HSB and three (3) individuals by way of a writ of summons and a statement of claim in the High Court of Malaya at Kuala Lumpur (the “Action”). The writ of summons and statement of claim were served on HSB on 24 March 2011.

The Plaintiff claims as against HSB for the following:

- (i) declaration that HSB is trustee for proceeds and/or profits made from use of certain two assembly lines and substantial parts of another two assembly lines (the “said parts”);
- (ii) declaration that HSB is a trustee for unpaid dividends amounting to RM488,765.25 allegedly due and owing to the Plaintiff (the “said dividends”);
- (iii) an order that HSB account to the Plaintiff for the proceeds and/or profits made from the benefit and use of the said parts (the “said proceeds/profits”) and make restitution of the same to the Plaintiff;
- (iv) an order that HSB account to the Plaintiff for the said dividends and make restitution of the same to the Plaintiff;
- (v) interest on the said profits and said dividends at the rate of 8% per annum from the date of the respective dividends were payable until full satisfaction; and
- (vi) such other relief as the Court deems fit and costs.

The High Court had, on 26 August 2011, dismissed the Plaintiff’s application to disqualify Messrs. Cheah Teh & Su from acting for the defendants. Subsequently, the Plaintiff appealed against the High Court’s decision but was dismissed by the Court of Appeal. The case is still in the pre-trial case management where no trial dates have been set. The Plaintiff had since the last case management filed an amendment and a discovery application against defendants. The High Court had allowed the amendment application with no objections from all the defendants on 16 May 2012. The Plaintiff then filed their Amended Statement of Claim on 25 May 2012 and the Group had correspondingly filed the 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> Defendants’ Re-Amended Defence on 29 June 2012. The 1<sup>st</sup> to 3<sup>rd</sup> Defendants then had on 2 August 2012 and 29 August 2012 filed two applications to strike out the Plaintiff’s claim on the dividends and the conspiracy to injure. As for the status of the discovery application, the High Court has adjourned the hearing of the discovery pending the disposal of HSB’s striking out application. The said striking out application was heard on 31 October 2012 and the Court has adjourned the matter for decision on 7<sup>th</sup> November 2012. The High Court has also set the matter for full trial on 3 December 2012 to 7 December 2012.

The Directors of the Company, in consultation with the solicitors, are of the view that the Action is lacking in merit and that the prospects of successfully defending the Action are good as the Action is largely based on issues and events that are clearly time-barred. Accordingly, the Group has not made any provision on the financial statements.
